

Fourteenth Year—No. 3810

KLAMATH FALLS, OREGON, MONDAY, JANUARY 5, 1920

Price, Five Cents

SOVIET ENVOY'S CHIEF OF STAFF UNDER ARREST

Assistant to Self-styled "Ambassador of Russian Soviet" in Jail, Facing Deportation—Will Intern "Reds" at Camp Upton.

NEW YORK, Jan. 5.—Gregory Weinstein, chief of staff for Ludwig C. A. K. Martens, self-styled ambassador to the United States of the Russian soviet republic, was arrested today on a deportation warrant. According to Department of Justice officials, Weinstein is the most influential Russian communist, next to Martens, in America today.

WASHINGTON, Jan. 5.—Radicals taken in government raids on Communist and Communist Labor party headquarters have all machinery set for fighting desperately against deportation, it was announced by the Department of Justice today. Lawyers have been engaged in practically every city where the raids were made to save the prisoners from deportation.

WASHINGTON, Jan. 5.—Many radicals taken in raids during the last three days will be concentrated at Camp Upton, New York. Secretary Baker announced today that Major General Bullard, commanding the Department of the East, had been instructed to turn the camp over to the immigration authorities.

BANDIT SLAIN; OFFICERS WOUNDED IN GUN DUEL

DENVER, Jan. 5.—Adrian Thompson, alleged partner of James R. Green, said to be an automobile bandit, was killed, Patrolman James Boggi probably fatally wounded, and Sergeant G. Barry and Detective George Schneider wounded today in a battle between the police and Thompson, whom the officers were trying to arrest. Green was arrested last night.

BORDER WATER USERS WANT DITCH IN U. S.

WASHINGTON, Jan. 5.—Construction of an All-American canal along the California border to remove from Mexico control over the system of the Imperial Valley, the largest irrigation project in the United States, is contemplated in a bill Representative Kettner of California plans to introduce in the House. It will make provision for opening to purchase or settlement by honorably discharged soldiers, sailors and marines with war service of 200,000 acres of public lands on the east mesa of the valley, which will be irrigable from the proposed canal.

The bill is a redraft worked out during the holiday recess by a subcommittee of the House Committee on Irrigation of Arid Lands, which has had several measures designed to relieve the situation existing in Imperial Valley under consideration. Hearings before the committee brought out that the crops of the Imperial Valley, which residents said reach a value of \$60,000,000 annually, are dependent upon the uninterrupted flow of the main canal of the irrigation system which, from the diversion point on the Colorado river, swings through Mexican territory for 40 miles before distribution is made to the American ranchers. The water users on the Mexican side, where over 100,000 acres are being irrigated, do not wish to join in the maintenance of the main canal and the protective works in Mexico, ac-

G. O. P. LEADERS OPEN CONFERENCE SERIES

CHICAGO, Jan. 5.—Nearly a thousand Republican men and women from fourteen central and western states are here for the first of a series of three two-day conferences arranged by the national chairman, Will H. Hays; the second to be held in Denver, January 8 and 9, and the third in San Francisco, January 12 and 13.

IRRIGATION MEN OFF TO MEETING

R. E. Bradbury, director of the Klamath Irrigation district, left yesterday for Portland, to attend the annual convention of the Oregon Irrigation Congress, which meets there Thursday, Friday and Saturday. William Dalton, of Malin, W. L. Marshall of Olney, and A. E. Gale of Langell Valley are other local delegates who have signified their intention of attending the congress. C. T. Darley, county engineer, left this morning and will be in attendance at the meeting of irrigation delegates, after first attending the meeting of highway engineers.

Owing to long experience in irrigation, the local delegates are expected to have an active part in the discussions of the annual congress and many questions affecting local interests will probably be taken up.

It is likely that the convention will be asked to take some stand in the matter of storage of the waters of Upper Klamath Lake by local delegates and other matters affecting Klamath county irrigation and reclamation projects will likely receive attention.

BIRTHDAY OCCASION OF ENJOYABLE PARTY

Miss Thelma Browne was a charming young hostess to a number of her young friends New Year's night, at her home in the Hot Springs addition, the occasion being the celebration of her fourteenth birthday. The evening was spent in games and dancing and delicious refreshments were served throughout the evening. Those who enjoyed Miss Browne's hospitality were: Beryl Wallan, Verna Wallan, Hilda Meyers, Edna Seivits, Waive Withrow, Joan McDonald, Pansy Robertson, Elizabeth Browne, Johnnie Powell, Delmar Robertson, Glynn Auten, Richard Browne, Charlie Hall, George Simonson, Edward Pulley, Bruce Perkins, and George Bradley. Hilda Meyers played the piano for the guests during the evening.

WILSON MAY BROACH THIRD TERM TOPIC

WASHINGTON, Jan. 5.—President Wilson will send an important word of greeting to the Democratic dinner, Jackson Day, January 8, it was announced at the White House today. There was wide conjecture here as to whether the President would discuss the third term question. It is regarded as probable that he will make clear his position on this in the banquet message.

DIVORCE SUIT

Sybil Robertson filed suit for divorce from Lionel Robertson in the Circuit court Saturday.

According to testimony presented to the Congressional committee.

Relief is sought through the building of a highline canal entirely on American soil, making necessary a cut through a low range of sandhills, which the present main canal avoids by the detour into Mexico. Approximately 400,000 acres of withdrawn public lands, similar in quality to that of Imperial Valley but lying above the present Imperial canal system, will come under the proposed All-American canal, according to Reclamation Service estimates under the Kettner bill 200,000 acres would be opened to purchase by war veterans at \$1.25 an acre or, at the discretion of the Secretary of the Interior, be reserved for opening under such soldier settlement legislation as the Congress may enact.

DEATH CALLS LEADING LAKE COUNTY MAN

Dr. Bernard Daly, a prominent figure in the development of southern Oregon since 1887, when he settled in Lakeview, Lake county, died this morning at 6 o'clock aboard a train near Livermore, California. Dr. Daly, attended by Dr. Leithab, Fred Reynolds and a trained nurse, left Lakeview for San Francisco yesterday, hoping that a stay in California would restore his health. He was not married. He had been seriously ill for about three weeks. Funeral arrangements have not been made but the body will probably be returned to Lakeview for burial.

Dr. Daly was born in Ireland, February 17, 1858. He came to America in boyhood. He graduated from the state normal university of Ohio, and from the medical department of the University of Kentucky. In 1887 he came to Lakeview and established a medical practice. In 1892 he was elected to the state legislature as a representative from his district and in 1896 was elected to the state senate, serving four years.

A staunch Democrat, he was the leader of the minority party in the senate during his term. At its expiration he became a candidate for Congress. Although defeated he ran ahead of his party ticket 5000 votes.

While Lake county was a Republican stronghold the county electors chose Dr. Daly county judge in 1902. During his tenure of this office the county courthouse was built. Judge Daly personally supervised the outlay for labor and material and when the building was completed every bill was found to have been discounted for cash payment, and the citizens of the county took over the building, constructed economically and efficiently and entirely free from debt.

The performance of his public duty in this instance was identical with the entire public record of the man. He earnestly and conscientiously strove in every official capacity to secure for the tax-payers a dollar's worth of service for every dollar which they entrusted to him for expenditure on public needs. He was largely instrumental in freeing Lake county from the load of debt incurred in its earlier development.

After the courthouse was constructed Dr. Daly was appointed first circuit judge of the county, holding that office for about two years.

In addition to his political career and his reputation as a physician and lawyer, Dr. Daly won success in financial life, being one of the organizers of the Bank of Lakeview in 1898. The bank developed into one of the sound financial institutions of the state. Dr. Daly was its president at the time of his death. He was also the head of the Lake County Land &

FIRST COUNCIL SESSION OF 1920 MAY BE WARM

While every appointive official interviewed expressed a nonchalant lack of interest in the subject, there is apparently an under current of anxiety regarding what action if any, Mayor Struble will take tonight in the matter of filling the appointive positions of the city government.

When asked about appointments the mayor said the charter gave him until June 1, to make the appointments, but he did not say that he would not make them tonight. Provision of the charter, it is understood, is not mandatory, June 1 being fixed for appointments for convenience sake, as the opening date of the fiscal year. The appointments of the present administration were made when Mayor Struble came into office a year ago and have run a year, hence the likelihood that the new appointments will be made at tonight's council meeting.

If any changes are considered they are being closely guarded. The offices affected are chief of police, fire chief, assistant fire chief, city attorney and street cleaner.

It is said that the administration has several surprises of one sort and another up its sleeve, which may be sprung tonight, preparatory to getting the machinery started for the 1920 run. Persistent rumors of contemplated changes have been current for several days and may materialize in definite action tonight, or may remain only rumors.

MERRILL BATTERY CASES ON TRIAL

Dan Brennan, D. J. C. Murphy and David Breen are on trial in Justice Chapman's court today on charges of assault and battery against John Dench at Merrill, Christmas Eve. The cases were transferred from the Merrill court on motion for change of venue by defendant's attorney, F. H. Mills. The case for the People is being directed by District Attorney Wm. A. Duncan.

At the rate the trial is progressing it will be late this afternoon before it is concluded, if a conclusion is reached at all today.

Livestock company, a stock raising concern of large proportions.

In the death of Dr. Daly, the state is deprived of one of its most useful citizens and Lake county has lost a man to whom it owes a large part of its present day development. In Klamath county the decedent was well known and highly respected and keen regret is expressed here at his death.

BOWED TO INEVITABLE SAY MINE WORKERS

COLUMBUS, Ohio, Jan. 5.—International officers of the United Mine Workers of America, in agreeing to declare the recent strike of coal miners at an end, assert that they "decided to submit to the inevitable, although protesting in our hearts against what we believed to be an unjust attitude of our government," according to the report of Acting President John L. Lewis, and Secretary William Green, at the Miners' convention here today.

CONGRESS BACK AT WORK AGAIN

WASHINGTON, Jan. 5.—Congress met promptly at noon today, after a two weeks' recess over the holidays, with the treaty of Versailles still foremost of the great army of subjects that the lawmakers are expected to deal with before adjournment, which probably will not occur until just before the Presidential election next November.

WEATHER REPORT

Oregon—Tonight, rain in west, snow in east; Tuesday, probably rain in west, fair in east; northerly winds.

MEDICAL AID FOR MEN HURT WHILE SERVING

Any ex-service man who needs medical or surgical treatment because of illness or injury contracted in the army or navy, can hereafter enter an army hospital, Public Health Service hospital, or local civilian institution or sanatorium, and have all his expenses paid by the government. Few soldiers or sailors seem to be aware of this privilege, which is theirs for the asking, and today the war department instructed the entire personnel of the office of the assistant to the secretary of war, in charge of soldier employment and welfare work, to bring this to the attention of all such men.

Lieut. Colonel Mathew C. Smith, of the general staff, and head of the bureau, has issued a bulletin for nationwide distribution, which says: "Any discharged service man who is in need of medical treatment and feels that his illness is due to wounds or other disabilities received or aggravated while in service, should at once see the nearest army hospital or local representative of the United States Public Health Service for an examination. Addresses may be ascertained from the postmaster. The American Red Cross representative and state or municipal health officer also are able to advise service men about their cases and should be consulted.

"If discharge or other papers showing that the disability was existing at the time of separation from service are available, they should be taken along, as they will be helpful in making a decision on the case. However, if these papers are not available the man should not hesitate to apply. Such an applicant will be immediately placed under treatment pending the receipt of the necessary papers.

"If there is no representative of the health service in the ex-soldier's home town and no army hospital at hand, and it is possible for him to travel, such traveling expenses, hospital expenses and wages lost while undergoing examination will be paid by the government, should it be decided that treatment is necessary.

"On the other hand, if the physical condition of the man makes it impossible for him to travel, he will be examined and treated at his home. In special cases where it is found that a change of climate will be beneficial patients will be sent to specially designated hospitals."

SUPREME COURT GIVES BOOZE ANOTHER RAP

High Tribunal Holds That Liquor Containing More Than One-half of One Per Cent of Alcohol is Illegal—Four Justices Dissent.

WASHINGTON, Jan. 5.—The Supreme Court today held constitutional sections of the Volstead prohibition enforcement act, prohibiting the manufacture and sale of "beer, wine, or other intoxicating malt or vinous liquors containing one-half of one per cent alcohol. Beer, containing 2.75 per cent alcohol is illegal under the act, the court decided.

Associate Justice Brandeis, who rendered the opinion of the court, said that the right of Congress to suppress the liquor traffic was not an implied power, but a power expressly granted.

The court was divided on the question, five to four, Associate Justices Day, Vagdeventer, McReynolds and Clarke dissenting. Justice McReynolds, in a dissenting opinion, said that the eighteenth amendment had not yet come into effect and that the government had no general power to prohibit the manufacture and sale of liquor. He took the position that the war emergency had passed.

RABBIT DRIVE DISPOSES OF A NUMBER OF PESTS

About 75 persons from Klamath Falls took part in the rabbit drive in the Olney district yesterday and report an extermination of some 200 of the long-eared pests. At least 300 persons took part in the drive altogether.

At the close of the drive those participating were served with lunch, under management of the district farm bureau, at the D. Ellis Young ranch.

BOOZE SMUGGLING ON MEXICAN LINE

EL PASO, Texas, Jan. 5.—Whiskey smuggling across the border from Mexico into the United States at El Paso is causing customs officials grave concern, according to agents here. Since July 1 last 120 lots of smuggled liquor have been seized by government agents, and much of it has been sent to the army and navy hospitals in the United States.

The federal grand jury returned 162 indictments for smuggling between April and October, and convictions have been obtained in about 90 per cent of the cases. Sentences of from one to two years in the federal penitentiary at Leavenworth, Kans., were imposed in most cases.

It is stated here that American intoxicants are being exported into Mexico and that customs officials of that country are planning to protest against this. Such exports would be illegal after January 16 next, when the prohibition amendment to the Constitution goes into effect.

RESERVE COAL BIN, U. S. STEEL PLANT

PITTSBURGH, Jan. 5.—Not to be caught napping if its coal supply is again cut off by disturbances in the mining industry, the United States Steel Corporation has under construction at Clairton, near here, a huge concrete basin which, when completed, is to hold 400,000 tons of coal.

Here will be stored a reserve supply for the operation of the by-product coke plant, but it was said that similar, though not as large basins, were to be established at some of the more important steel mills and blast furnaces.

Needles were first made in 1546, when the making of tea was a good day's work.

OUT WITH THE REDS
