We have sold Adler-i-ka many years. It is a mixture of buckthorn, cascara, glycerine and nine other simple drugs. Whitman Drug Co.—Adv.

IN THE DAY'S NEWS

Dr. William Shaw, who has retired from the position of general secretary of the United Society of Christian Endeavor, has been connected with the society for nearly forty years and is looked upon as the ablest administrator the Christian Endeavor movement has turned out. He is a native of Ballardville, Mass., and a product of the public schools and of experience. In 1883 he became a worker in the Society of Christian Endeavor, founded by Dr. Francis E. Clark, joined its office staff, from 1886 to 1906 served as treasurer, and in 1906 was elected general secretary. He also has

served as secretary and trustee of the World's Christian Endeavor Union and as publisher of the Christian Endeavor World. Dr. Shaw is an ardent prohibitionist and several years ago was the prohibition party candidate for governor of Massachusetts.

Ostriches are the largest feathered creatures existing, and one of these birds will sometimes measure eight feet in height and weigh three hundred pounds.

Butterflies, which are very prolific in Australia, are suffocated in millions by the aborigines, and separated from their wings, pressed into cakes and eaten.

TOOK FOXES IN NEAT TRAP

Probably Only Instance on Record Where Youngsters Were Caught in a Horse Blanket.

How four foxes were caught in a horse blanket is a quaint tale told by R. A. Hutmacher in the Hunter-Trapper of Columbus, O.

"I happened to be driving south of Rapatee, Ill., with the implement dealer of that town, making business calls on several farmers of that section. When, to my surprise, I saw on a very steep hill in the distance several young foxes playing about as if no human was near," says Mr. Hutmacher. "My partner and I decided to try our luck at catching them, so driving on a little farther, we tied our horses and set out across the field after them.

"When we reached the hole, they were all up over the hill chasing each other, so telling my companion to go around the hill and chase them my way I threw a horse blanket over their hole and waited. As they came rushing for the hole I raised one end of the blanket just enough to hide myself and at the same time form a trap of it for them to run into.

"They all got to the hole about the same time, when I threw one end of the blanket over them, the other end being over the hole. In the excitement I succeeded in catching all four in the folds of the blanket.

"We went back to the buggy and drove to town, my companion taking two of the foxes and I two. Possibly the explanation of our good luck is the fact that the foxes were not much more than six weeks old, when captured."

WHERE THEY FOUND THE HAT

Joe's Use of Brother Agent's Headgear, to Say the Least, Had Not Improved It.

Attorney General Palmer instructed the New York branch of the department of justice recently to gather all the German propaganda evidence it had accumulated to prosecute enemy aliens during the war and forward it to Washington, where it could be stored in the state department vaults. The books, papers and documents were placed in a wooden case five feet high, four feet wide and two feet deep, which was put in a special baggage car accompanied by two special agents of the department.

One of the agents became tired of sitting watching the case and said he would take a nap on it. He turned the case over on its side and laid down on it, using his handbag as a pillow, while the other laid on the floor of the car alongside the big box. In the morning Special Agent Joe, who slept on the box, awoke and found Agent Bill searching all through the car for something. He asked what he had lost and Bill said that he certainly had a hat when he entered the car but it was missing. They could not find the hat and finally turned the case right end up and there lay Agent Bill's new fall derby under it mashed perfectly flat. Tableau.

Regulating Immigration.

Until 1882 congress did not make any law restricting foreign immigration. On the other hand, everything was done to encourage immigration without regard to its character or quality. In 1882 a law was made excluding escaped convicts, idiots and persons likely to become a public charge. Since then laws have been passed excluding persons afflicted with any dangerous contagious diseases, persons guilty of serious crime in their native country, anarchists, paupers and professional beggars. Foreigners deterred by law are sent back to the country from which they came. During 1916 the report of the commissioner of immigration shows 5,256 aliens, morally, mentally or physically below the standard were returned, 4,257 of whom were debarré from entering, the remainder having been arrested and expelled.

To Breed Rabbits for Their Fur.

An organization known as the Beveren club has been formed in London, England, to breed rabbits for their fur. The scheme is being run on co-operative lines.

The blue Beveren and the Havana rabbits are the strain which the club intends to rear. The fur of the blue Beveren is of lavender blue and is long, lustrous, fine and silky. That of the Havana is of a rich chocolate color and is thick, fairly long and fine.

It is hoped to produce from these rabbits natural furs the color of which will not fade.

Women Build Roads.

Five hundred Armenian women employed by the American Red Cross have built 100 miles of stone roads and reconstructed several steel bridges in this section within the last four months, an Associated Press dispatch from Marash, Mesopotamia, says. The roads were rebuilt in order to facilitate transportation of Red Cross supplies. There were no male laborers to be employed, so Capt. Edward Bickel of Seattle, who had charge of the engineering work, engaged the women, who were glad to have employment of any kind.

Wastage of Coal.

In a statement to Pennsylvania householders urging sifting of anthracite ashes, the Anthracite Operators' association says mining experts estimate that an average home wastes about three buckets of coal a week by not sifting, the loss a month being about \$2.

CLASSIFIED ADVERTISING

WHAT IS IT?

It is the best paying class of advertising in the world if you have something to sell that belongs among little ads that you find in The Herald.

JUST TRY IT ONCE

If you have something in your attic, your basement, your spare room, your barn, around you anywhere that you want to sell, try The Herald classified ads and you will find a buyer.

IF YOU WANT SOMETHING

Advertise for it, trying The Herald's classified ads. Someone has something for sale that you want. Let The Herald find it for you. It costs you but a few cents a day.

Classified ads cost you 5 cents a line a day—five words to the line. They must be paid for in advance and cannot be received over the telephone—that is why they are so cheap.
