We Ask Your Attention

to the big fact that has already been commented on by so many customers purchasing their Spring needs at this sale—

The Sharp Reductions

which we are making on all Ladies' Wearing Apparel are of great interest to every woman of Southern Oregon.

Our reward in holding this Economy Sale is simply the fact that Klamath men and women appreciate our efforts, as is best evidenced in the tremendous business transacted during the past three days—just passed.

The offerings for our last day (tomorrow) justify fully as great a response.

SUGGESTS U. S. BUY ISLANDS

BRIDGETOWN, Barbados, Dec. 22.—(By Mail)—Lord Rothermere's suggestion that Great Britain sell to the United States British Honduras, Bahama Islands, Bermuda, British Guiana and the West India islands with the exception of Jamaica, to pay for Britain's war debts has provoked a storm of protest in all these colonies. The idea has been denounced by most of the newspapers of the British West India Islands, in British Guiana, Trinidad, the Leeward Islands and Jamaica. Public meetings and legislative councils have also denounced the project.

In some quarters it is suggested that the idea was put forward to scare the West Indies into accepting annexation to the Dominion of Canada. Suggestions made by Canadian visitors to Barbados that the Canadian government was willing to receive overtures from the West Indies looking to commercial annexation were received coldly here. One reason for opposing the Canadian suggestion is that the West Indies did not wish to subject themselves to the Canadian tariffs which it is felt here would tend to exclude American foodstuffs.

The West Indian ideal is to have at some future time a West Indian dominion embracing all the Atlantic and Caribbean possessions of Great Britain.
