## TAKES SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Back-  
 ache or have Bladder  
 trouble.

Meat forms uric acid which ex-  
 cites and overworks the kidneys in  
 their efforts to filter it from the  
 system. Regular eaters of meat  
 must flush the kidneys occasionally.  
 You must relieve them like you re-  
 lieve your bowels: removing all the  
 acids, waste and poison, else you feel  
 a dull misery in the kidney region,  
 sharp pains in the back or sick head-  
 ache, dizziness, your stomach sour,  
 tongue is coated and when the  
 weather is bad you have rheumatic  
 twinges. The urine is cloudy, full  
 of sediment; the channels often get  
 irritated, obliging you to get up two  
 or three times during the night.

To neutralize these irritating  
 acids and flush off the body's  
 urinous waste get about four ounces  
 of Jad Salts from any pharmacy;  
 take a tablespoonful in a glass of  
 water before breakfast for a few  
 days and your kidneys will then act  
 fine and bladder disorders disap-  
 pear. This famous salt is made  
 from the acid of grapes and lemon  
 juice, combined with lithia, and has  
 been used for generations to clean  
 and stimulate sluggish kidneys and  
 stop bladder irritation. Jad Salts  
 is inexpensive; harmless and makes  
 a delightful effervescent lithia-  
 water drink which millions of men  
 and women take now and then, thus  
 avoiding serious kidney and bladder  
 diseases.

## WINDMILLS OF HOLLAND GOING

AMSTERDAM, Jan. 14. — (By  
 Mail.)—Holland is slowly but surely  
 losing the one characteristic of its  
 landscape made famous in art and  
 known to every schoolboy—the  
 squat, fat, lazy-looking windmills  
 that for centuries have stood out all  
 over the country's flat surface.

These quaint structures are gradu-  
 ally giving way to highly practical  
 but ugly steam and electric plants.  
 Dutch technical men say the wind-  
 mill is doomed.

Now and then a large group of  
 them is replaced by one electric  
 plant, and in the course of each year  
 a number are destroyed by fire—  
 presenting a spectacular blaze with  
 the big burning wings wheeling  
 around like fiery arms. They are  
 never reconstructed.

The existing type of Dutch wind-  
 mill was invented about the year  
 1400. The great disadvantage of  
 the windmill, of course, is its abso-  
 lute dependence on weather condi-  
 tions. For this reason they are be-  
 ing replaced, when possible, by  
 modern machinery.

## MARKET PLACE FOR ALL WORLD

LONDON, Jan. 19 (By Mail.)—  
 Plans for the great Marche du Monde,  
 or meeting place for the buyers of  
 the world, which is to be established  
 in Paris in two years, contemplate the  
 erection of a vast building nine times  
 the size of Trafalgar Square and con-  
 taining not only 5,000 shops but  
 many special features, including the  
 most luxurious club and the largest  
 banquet hall in the world. Details of  
 the scheme were given here by Sir  
 Charles Dundas, secretary of the As-  
 sociation of Great Britain and France.

"The object," he said, "is to give  
 producers and buyers of the world  
 the facility to perform all their trans-  
 actions in one place."

"It will be the only building in the  
 world where the rentals will decrease  
 according to the length of the lease,  
 and where the tenants will be consid-  
 ered as valued clients, and not as  
 objects of speculation."

"The building will be of six stories,  
 with a frontage of 350 feet. It will  
 be nine times the size of Trafalgar  
 Square, and will cost approximately  
 4,000,000 pounds."

"This enormous building, contin-  
 ued Sir Charles Dundas, "will con-  
 tain 5,000 shops, the most luxurious  
 club in the world for buyers and pro-  
 ducers, swimming and Turkish baths,  
 gymnasium, restaurant, grill room,  
 roof garden, several lecture-rooms,  
 industrial cinema, and the world's  
 largest banquet hall."

"Briefly, what is contemplated is  
 the erection and operation of a verita-  
 ble city, in which it may reasonably  
 be estimated there will be a floating  
 population of manufacturers, pro-  
 ducers, merchants, buyers and the ne-  
 cessary employees, exceeding 30,000  
 people."

Sir Charles added that the advan-  
 tages of this huge project to the Brit-  
 ish buyers and sellers would be enor-  
 mous.

"One of the principal objects of  
 having this world's market in Paris,  
 he said, "is because the French capi-  
 tal is the pivot of the railway centres  
 of Europe, and the advice of the buy-  
 ers of the world has been taken on  
 this matter."

The Dutch windmill, however  
 much it may look in pictures to be  
 a toy, is far from that. It is a sturdy  
 structure, as big as a good-sized  
 house, and the machinery inside is  
 extremely powerful.

Naturally a great many of them  
 remain, but the number becomes  
 less year by year, and, so far as can  
 be ascertained, the erection of a new  
 one is seldom undertaken.

## IS PROHIBITION ELECTION ISSUE?

WESTERVILLE, O., Feb. 14.—  
 Will the issue of prohibition figure  
 in the nomination of presidential  
 candidates and the election there-  
 after?

The Anti-Saloon League of America,  
 through a statement issued today by  
 E. H. Cherrington, secretary of its  
 executive committee, endeavors to  
 answer that question by declaring  
 that prohibition, or rather safe-  
 guarding of prohibition, will be a  
 very live issue in not only the pre-  
 sidential campaign but in the election  
 of congressmen. On this matter the  
 statement says:

"Prohibition is here, and, as we  
 believe, to stay. The question at  
 issue is not whether prohibition is or  
 is not desirable. That was a ques-  
 tion on which men might honestly  
 differ before prohibition became the  
 law of the land and part of the fed-  
 eral constitution. Triumph of pro-  
 hibition was made possible only by  
 a will of the majority, and that same  
 will, working through the lawful  
 processes by which prohibition be-  
 came law, can, if it chooses, take  
 prohibition out of the constitution."

"The question at issue now is—  
 shall the law be enforced? To that  
 question there can be but one an-  
 swer. Whether a man believes in  
 prohibition or not, he must comply  
 with the law and aid in its enforce-  
 ment or be a lawless citizen. As the  
 Anti-Saloon league sees it, two im-  
 portant things are involved in the  
 coming nominations and elections:  
 Firstly, that the chief executive of  
 this nation, who is the chief law en-  
 forcement official, must be a man  
 wholly committed to the enforcement  
 policy; and, second, that a congress  
 must be elected that will take no  
 backward step in prohibition legis-  
 lation."

## MEXICAN MONEY SITUATION BAD

EL PASO, TEXAS, Feb. 14.—Luis  
 Cabrera, Secretary of the Mexican  
 Treasury, has assured the Mexican  
 people, in an interview in the Excel-  
 sor that the Mexican government  
 does not at present contemplate an  
 issue of paper money. There has been  
 some anxiety in Mexican business  
 circles regarding the possibility of such  
 an issue.

Senor Cabrera stated that other  
 measures were being studied by the  
 government to relieve the situation  
 resulting from the scarcity of silver  
 in most of the world markets; but  
 the nature of these measures was dis-  
 closed.

American statistics are quoted by  
 the Excelsores to show that the short-  
 age of the white metal is due to a  
 monopoly obtained by India and  
 China. Between 1913 and 1918, these  
 two countries accumulated 760,000,  
 000 troy ounces of silver—or seven-  
 eighths of the world's output, it is  
 asserted.

Commenting editorially on the fi-  
 nancial situation, the paper says:

"Credit has been lost. All of us  
 have lost it, but especially the gov-  
 ernment. And for this reason, to in-  
 sure the success of another issue of  
 paper money, it would be necessary  
 to surround it with all kinds of pre-  
 cautions—especially that of not im-  
 posing it on the people. The voluntary  
 co-operation of the public should be  
 sought."

## MUCH CASH GOES INTO MEXICO

JUAREZ, Mex. Feb. 14.—During  
 the first 20 months since the resump-  
 tion of international money order re-  
 lations between the United States and  
 Mexico, 165,446 money orders, total-  
 ing \$3,442,627.39 were issued in the  
 United States for collection in Mexico,  
 according to a report received by Ed-  
 ward A. Dow, American consul here,  
 from Andres G. Garcia, formerly Mex-  
 ican consul general at El Paso, now  
 director general of the Mexican postal  
 service.

Senor Garcia's report shows that  
 23,313 money orders have been is-  
 sued in Mexico for collection in the  
 United States since May 1, 1918. The  
 money value of these orders was  
 \$578,811.33.

The fact that the value of money  
 orders issued in the United States  
 payable in Mexico is about six times  
 that of orders made out in Mexico to  
 American payees is explained by Amer-  
 ican officials here as due to the  
 number of remittances made to rela-  
 tives in Mexico by Mexican laborers  
 in the United States.

## MANY GERMANS CLAIM DAMAGES

AMERICAN HEADQUARTERS,  
 Coblenz, Germany, Jan. 21. (By Mail.)  
 —Claims for damages to streets,  
 buildings, farms and even individuals  
 all reputed to have been done by Amer-  
 ican soldiers or American equip-  
 ment of some kind since the Army of  
 Occupation reached the Rhine, aggre-  
 gate something more than 5,000,000  
 marks. Those allowed total approxi-  
 mately 250,000 marks. Many claims  
 are unique and some without any jus-  
 tification.

A woman who contended that her  
 facial appearance had been marred for  
 life, owing to cuts caused by fly-  
 ing glass due to an explosion at an  
 ammunition dump, sent in the modest  
 claim for 250 marks. It was allowed.

Another woman, whose husband  
 had been killed by an American mili-  
 tary policeman who was chasing dis-  
 tributors of contraband liquor, sub-  
 mitted a claim to the Americans for  
 250,000 marks, contending that her  
 sole support had been taken from her.  
 The Americans maintained that the  
 German had been killed by the Amer-  
 ican soldier who was acting within  
 his rights in line of duty. The claim  
 was dismissed.

Some of the claims are humorous.  
 Last summer, the Eighty-ninth divi-  
 sion borrowed a goat for a circus at  
 its headquarters. Recently a claim  
 was filed with the American town  
 major asking damages on the contention  
 that the health of the goat had been  
 injured. This claim was pigeon-  
 holed.

A Rhineland farmer recently de-  
 manded five marks for a bean pole  
 alleged to have been stolen by an  
 American soldier. An army commis-  
 sion heard the case and threw out the  
 claim on the ground there was no  
 evidence to show that an American  
 had committed the theft.

## SHORTAGE OF NURSES FELT

NEW YORK, Feb. 14.—A cam-  
 paign to recruit 30,000 young women  
 in training schools for nurses and a  
 prize of \$500 for the best three act  
 play by an American author based up-  
 on incidents in the life of Florence  
 Nightingale, will be among the fea-  
 tures of the celebration commemorat-  
 ing the 100th anniversary of the  
 birth of the woman whose work a-  
 mong the sick and wounded in the  
 Crimean war laid the foundation for  
 modern nursing.

Pageants, public meeting and for-  
 mal ceremonies will be held on the  
 anniversary date, May 12, it was an-  
 nounced here today by the Nightingale  
 Centennial Committee of the Na-  
 tional Organization for Public Health  
 Nursing, Nursing organizations, wom-  
 en's clubs and colleges will take part.

The prize for the play, was offered  
 by the Illinois council for Nursing  
 Education to stimulate interest in  
 the nursing profession, in which  
 there is a low rate of enlistment at  
 present. Incidentally it is hoped to  
 encourage aspiring playwrights in  
 colleges. Manuscripts must be sub-  
 mitted before August 1.

There are far too few nurses in the  
 United States to meet the needs of  
 normal times, it was said at the head-  
 quarters of the National Organization  
 for Public Health Nursing, and the  
 shortage during the influenza epi-  
 demic has been acute. There are not  
 more than 8,000 public health nurses  
 in the country, whereas at least 50,  
 000 are required by federal and state  
 legislation either passed or pending.

## PORTLAND CENTER OF MEMORIAL ASS'N

NEW YORK, Feb. 14.—Mrs. John  
 Henry Hammond, president of the  
 Woman's Roosevelt Memorial Asso-  
 ciation, announced today that the na-  
 tional officers approve the plan of  
 Mrs. A. W. Nicholson, chairman for  
 Oregon, to have the state activities  
 of the Association center in Portland  
 under the name of the Roosevelt  
 Civic League Center. The committee  
 on its administration, Mrs. Nichol-  
 son reports, will be drawn from edu-  
 cational institutions and organiza-  
 tions interested in Americanization  
 work.

It is the hope of the national offi-  
 cers that several autographed vol-  
 umes of Rudyard Kipling's works  
 donated to Mrs. Nicholson for her  
 state organization will, ultimately, be  
 presented to the library in Roosevelt  
 House, the restored birthplace of  
 Theodore Roosevelt at 28 East 20th  
 Street.

The quota assigned by the Wom-  
 an's Roosevelt Memorial Association  
 to Oregon is \$8,000.

## GERMAN PRESS WANTS WIRELESS

BERLIN, Jan. 22. (By Mail.)—  
 All the press organizations of Ger-  
 many, the representatives of all pub-  
 lishers organizations, the official  
 Wolff Bureau, the Dutch news agen-  
 cy "Trans ocean", and the German  
 wireless propaganda service, gathered  
 in Berlin recently for a discussion of  
 the wireless possibilities in Germany  
 for transmitting news.

Dr. Bredow, who conducted the  
 conference, that there have been dis-  
 tributed daily a report of the Assem-  
 bly at Weimar, and news summaries  
 by the Wolff Bureau and Dutch  
 agency. The news messages have  
 been received by the government  
 wireless stations at various points in  
 the country and turned over to the  
 papers. The conferees concluded that  
 the wireless is not yet able to supply  
 the full needs of the press nor any-  
 where near it, for the wireless sta-  
 tions are overloaded with personal  
 messages. However, they decided that  
 the wireless is capable of handling  
 brief flashes on important stories  
 which are paralleled by telephone or  
 telegraphed by the news agencies, so  
 that the news is available for a larger  
 circle of people.

The conference was convinced,  
 however, that the spreading of such  
 messages can be done in large num-  
 bers only when the wireless tele-  
 phone has been installed, as only in  
 this way the hiring of special wire-  
 less operators can be avoided. They  
 decided that for the present the send-  
 ing of news will have to continue by  
 telegraph for it was too expensive to  
 fit up each telegraph office with wire-  
 less equipment.

In a few weeks the group will meet  
 again to discuss any further techni-  
 cal experiments with wireless tele-  
 phony.

## FREE MEMORIAL IS PLAN OF ROTARIANS

WASHINGTON, Feb. 14.—The first  
 Rotary Club in the country to report  
 plans for a Road of Remembrance to  
 the American Forestry Association,  
 which is registering all memorial  
 trees in a national honor roll, is  
 the organization at Tampa, Florida.  
 At a cost of \$7,000 a tree will be  
 planted along the West Coast Road  
 for every man in the service from  
 Hillsborough County.

At Middletown, Ohio, the Welfare  
 Association will plant 1,000 trees  
 along the Dixie Highway next spring  
 and at Chattanooga, the National  
 League for Women's Service will  
 plant a Road of Remembrance lead-  
 ing out of that city. In Minneap-  
 olis a Road of Remembrance between  
 two parks is being paved, laid out  
 now and the trees will be planted in  
 1921. The Woman's Club of York,  
 Pa., will plant twenty-five miles of  
 the Lincoln Highway with mem-  
 orial trees.

## SAGE TEA KEEPS YOUR HAIR DARK

WHEN MIXED WITH SULPHUR TO  
 BRINGS BACK ITS BEAUTIFUL  
 LUSTRE AT ONCE

Gray hair, however handsome, de-  
 notes advancing age. We all know the  
 advantages of a youthful appearance.  
 Your hair is your charm. It makes or  
 mars the face. When it fades, turns  
 gray and looks streaked, just a few  
 applications of Sage Tea and Sulphur  
 enhances its appearance a hundred-  
 fold.

Don't stay gray! Look young!  
 Either prepare the recipe at home or  
 get from any drug store a 50-cent bot-  
 tle of "Wyeth's Sage and Sulphur  
 Compound", which is merely the old  
 time recipe improved by the addition  
 of other ingredients. Thousands of  
 folks recommend this ready-to-use  
 preparation, because it darkens the  
 hair beautifully, besides no one can  
 possibly tell, as it darkens so natu-  
 rally and evenly. You moisten a  
 sponge or soft brush with it, drawing  
 this through the hair, taking one  
 small strand at a time. By morning  
 the gray hair disappears; after an-  
 other application or two, its natural  
 color is restored and it becomes thick,  
 glossy and lustrous, and you appear  
 years younger.
