**EXPLORERS OFF FOR BAFFIN LAND IN 1921**

BOSTON, Feb. 14.—Secrets of Baffin Land, one of the portions of the Arctic still unexplored, will be the objective of the MacMillan expedition which is in preparation now for departure in the summer of 1921. Although the region was visited several times before the Pilgrims crossed the Atlantic to Cape Cod, Baffin Land from the point of view of explorers and scientists is still one of the richest and most alluring fields of research in the north.

Its whole western shore, more than 1,000 miles in length is but vaguely defined on the charts. Eskimo have told wonderful tales of vast lakes and towering mountains in the interior but white men have never visited that section. Its flora and fauna have never been studied; little is known of the movements of the tidal currents along its shores; and facts of geology, mineralogy and meteorology await the coming of scientific observers.

The party headed by Donald MacMillan, Peary's Lieutenant on the expedition that reached the North Pole, plans to leave Boston about July 1, 1921, and to reach Baffin Land in less than a month, with good luck. The following winter will be spent on the western shore in latitude 69. The camp will probably be just south of the entrance of the dangerous Fury and Hecla strait where the ships of Captains Parry and Lyon, seekers of another western passage, were blocked a century ago. That is 160 miles north of the Arctic Circle and 700 miles south of Etah on the short of northwestern Greenland where MacMillan's Crockerland expedition passed four winters.

During the winter attempts will be made by dog teams to explore the coast northward and in the following summer the interior of the island will be penetrated. The plans for the expedition call for an absence of two years from this country. In case a longer stay is necessary, no relief expedition will be sent, according to present arrangements. If the ship is crushed in the ice, the party plans to retreat by dog teams to Fort Churchill, the trading post at the foot of Hudson Bay and to return to civilization by way of north-western Canada.

**CHASED SLAYER OF ABRAHAM LINCOLN**

CODY, Wyo., Feb. 14.—Peter Perrin, 100 years old, who was in the audience at Ford's Theater at the national capital the night when John Wilkes Booth assassinated President Lincoln, and who came to Wyoming as a settler during the days when this state was a part of the Dakota territory, was a Cody visitor recently.

Mr. Perrin, or, as his friends prefer to call him, "Old Peter," enjoys nothing more than to relate tales of the frontier days—days when he came west to help lay the steel for the Union Pacific and to aid in the construction of Fort Steele. He has not yet been compelled to resort to the use of glasses in reading and to all outward appearances possesses much of his mental and physical vigor.

Mr. Perrin was a member of the posse which chased Booth out thru the stage entrance of the Ford Theater, and later killed him after he had been surrounded in a barn in Virginia. He was also a soldier in the Union army during the civil war.

**CHINESE FEAR "RED" INFLUX**

SHANGHAI, Jan. 13. (By Mail).—Fear of Bolshevism entertained by employers in Shanghai is a factor which is making more difficult the hard lot of the hundreds of Russian refugees who have been fleeing in increasing numbers out of Siberia into China.

The growing colony of these Russian refugees, whose numbers swelled after the Siberian capital of Omsk fell into the hands of the Bolsheviks, has become a problem in the city of Shanghai. One handicap upon their efforts to obtain employment has been the reluctance of employers to give work to persons from Siberia believed to have been exposed to the Bolshevik infection.

Members of the colony here which numbers several hundreds have established a school where English is being taught to the new-comers. At first one or two of the colony itself acted as instructors. After a few weeks volunteer teachers came forward and classes are now being held day and night in the shabby and cramped quarters provided at No. 73 Bunge Road. Another undertaking in the colony is a community food kitchen.

Unwillingness on the part of many of the Russian newcomers to recognize the Kolchak administration as the government of Russia has kept many from registering at the Russian consulate, which, it is stated, can extend aid only to regularly registered Russian citizens.

**SERBIA LAND OF CRIPPLES, REPORT**

LONDON, Feb. 14.—Sir John Lynn Thomas, the widely known orthopedic surgeon of Cardiff, who returned recently from Serbia, says the land is filled with cripples, many of whom could be cured or improved if modern orthopedic methods were available.

The state of the wounded and disabled soldiers of Serbia is said to be piteous. These men are without the simplest appliances and the country lacks surgeons with the requisite knowledge of new methods. The Serbian Red Cross Society in Great Britain invited Serbian surgeons to come to England and study British orthopedics.

**MONTANA WILL BUILD MANY STATE ROADS**

HELENA, Mont., Feb. 14.—The state highway commission and the Montana state college are collaborating in work in the laboratory of the college at Bozeman, testing rock for road purposes. Rock and concrete, or both, may be used for the extensive work to be begun in this state this year, and to continue, it is planned, on a large scale for a decade.

The results of the test, which will be continued in the field after the laboratory phase is passed, will be submitted to the commission and to the federal road authorities.

No Italian maiden will consent to be married in May. Certain days of the week, too, are prohibited—Monday, for instance, is held to be unlucky to future generations. Saturday is reserved for widows, Tuesday is considered impossible on account of its being a day devoted to witches and evil spells, and Friday and Wednesday are fast days. Sunday therefore is the day almost always chosen for the celebration.
