BISBEE MINERS DEPORTATION TRIALS START

TOMBSTONE, Ariz., Feb. 2.—The Bisbee "deportation trials" set to begin here today are expected to develop into the fiercest legal battle in the history of Arizona.

More than 200 defendants, among them many of the most prominent citizens of Bisbee and vicinity have been summoned to appear in the superior court here to answer charges of kidnapping in connection with the deportation.

Judge Samuel L. Pattee, of Pima county, who has been designated to preside, first gained prominence by revising and codifying the laws of Arizona after her admission to statehood.

Officials of the county attorney's office are understood to have traveled through many western states gathering dispositions from the men who were deported.

Preliminary examinations were held in Douglas last year. These were followed by a trial in the federal court at Tucson of 20 leaders in the financial and industrial life of Bisbee, Douglas and Warren on indictments charging conspiracy to deprive a citizen of his rights in violation of the penal code.

A third action is pending. It is a civil proceeding for damages alleged to have been sustained by the deported men by reason of their deportation.

The deportation of the 1,186 men followed a prolonged strike in the copper mines at Bisbee. Accusations were printed in the newspapers of the southwest that the strike was fomented by Industrial Workers of the World for the purpose of cutting off the production of copper needed by the Allied and Associated powers in the war against Germany.

Sheriff Wheeler, who directed the deportations, declared at the time that all of the men deported were known to be members of the I. W. W., but an investigating committee under Secretary of Labor Wilson reported that some of the deported men not members of the I. W. W. but were business men and property owners who had lived in the district many years.

Fifteen hundred armed men under Sheriff Wheeler herded the strikers and sympathizers into the baseball park at Warren, examined each one, released those who promised to return to work, loaded the remainder on a train of cattle cars and box cars, put guards on board and the train proceeded to a sidetrack at Hermans N. M., where it was left. United States troops on July 14 removed the exiles to a camp at Columbus N. M. where they remained for several weeks until they finally drifted away. Two men, one a deputy sheriff, were killed in the roundup at Bisbee.

PHOTO RETURNED IN QUEER FASHION

DENVER, Colo., Jan. 31.—When Sergeant Fremont Wright of Denver went to France with the Thirty-third division, he carried with him a photograph of his sister, Miss Dortha Wright of this city.

Sergeant Wright left the photograph with other personal effects at the port of embarkation. The photograph of Miss Dortha was picked up on a battlefield in France by Corporal Floyd W. Stevick of Berlin, New Jersey.

Half an hour after the newspaper with the picture had been put on the streets, Sergeant Wright spied the picture and the story which accompanied it and came to the newspaper office to identify and claim the original photo.

ASSURE COMFORT IN AIR TRAVEL

NEW YORK, Jan. 31.—Commercial passenger aircraft provided with virtually all the comforts found in high-priced automobiles will be featured in the second annual aeronautical exposition of the Manufacturers' Aircraft association, which will be held here from March 6 to 13.

Aerial limousines and coupes are among the most popular entrants. The first three-motored airplane to be built in the United States will be on exhibition. It carries eight passengers in comfortable wicker seats, is equipped with a self-starter and capable of making 107 miles an hour.

Two types of mail planes are entered, a twin-engined machine carrying two men and 1,500 pounds of mail, with a gasoline supply for six hours, and a mail plane capable of attaining a speed of 122 miles an hour.

Popular priced models, known as "flyabouts," to be seen at the exposition sell for as low as \$1,500. These are almost capable of being landed on one's lawn and are small enough to be housed in the ordinary automobile garage.

One of the most conspicuous exhibits is a "pony blimp," the smallest dirigible ever constructed for practical use in this country. It is 95 feet long and the gas bag is 28 feet in diameter. Two passengers are carried and the dirigible is propelled by a 40-horsepower motor with a maximum speed of 40 miles an hour and cruising radius of 400 miles.

HAD OPPORTUNITY TO "LOCATE" SPOKANE

HELENA, Mont., Feb. 2.—Richard Lockey of this city stood on the site of the present city of Spokane, when no habitation existed within many miles and debated with a friend whether it would pay to "locate" the falls, he declared recently.

This was in the early days of the rush into Montana gold fields and that part of Washington was then a desert. Mr. Lockey says: He and his friend were riding to the coast on business and stopped to see the falls, of which they had heard reports.

FRIENDS NOTICE A BIG CHANGE

Was Almost a Nervous Wreck When She Began Taking Tanlac—Gains Thirteen Pounds.

"Since I began taking Tanlac I have gained thirteen pounds in weight and my general health has improved so much all my friends remark on how well I look," said Mrs. B. M. Lichtenberg, who resides at 4429 Forty-first St., South Seattle, Wash., recently.

For years and years I have suffered with nervousness and finally became so badly run down I was on the verge of a complete nervous breakdown. The least little excitement or noise out of the ordinary would upset me and it would be hours before I could compose myself.

"I had read a great deal about Tanlac helping others and decided to try it, too, and I noticed an improvement in my condition almost as soon as I began taking it. At that time I took a trip east, and as Tanlac had not been put on sale at that time where I was visiting, I had the druggist order me some from the manufacturers, as I did not want to miss a single dose for fear of losing the benefits I had already received from it.
