CHINESE TO BUILD \$5,000,000 COLLEGE

SHANGHAI, Dec. 26. (By Mail)—An industrial university to cost \$5,000,000 will be erected in Shanghai if the plans of Chinese educators and industrial leaders are attained. The idea was suggested by Professor C. W. Woodworth, of the university of California, one time a lecturer at Nanking university.

It is intended to conduct the university on American lines, with equipment and instructors from the United States.

A novel feature of the proposed university will be the incorporation in it of a complete cotton mill which will employ its students and require them to perform productive toil as well as school work. Three leading Chinese of Shanghai have gone to the United States to visit schools and obtain ideas for the establishment of the university.

AT THE THEATERS

"The Feud," in which Tom Mix is starred, opened yesterday at the Liberty Theatre. Judging from the enthusiasm of the audience, this will be the most popular, locally at least, of the productions of this favorite actor.

As the title indicates, "The Feud" deals with the heritage of hate between two rival clans of the Bluegrass region. Tom Mix is seen as Jere Lynch, who is in love with Betty Summers, a daughter of the enemy family, played by pretty Eva Novak.

The early incidents of the play are the tensest of drama. The intense bitterness of the feud is exceptionally visualized, as well as the pretty love affair which, unfortunately, serves only to rekindle the feud.

The scene then shifts to the west in frontier days and the action becomes more spectacular, including an Indian attack on a wagon train.

Tom Mix does less "stunt stuff" and more acting in this production than in most of his recent features. However, there is no question about his acting ability.

"The Feud" will conclude its showing tonight.

One of the most thrilling scenes in the new picture, "The Girl Alaska," is that of the boat carrying the girl, her pal, and their guide being caught underneath the fall of a glacier.

The three adventurers are traveling along a stream at the foot of a mountain of ice and snow, when suddenly far up above their heads, part of the face of the glacier comes crumbling down upon them.

The boat is crushed by the huge mass of falling ice and snow as though it were made of straw.

The three occupants of the boat dive down into the water and then swim for the farther shore of the stream. The girl and her pal manage to reach the land in safety, but the poor guide's body is thrown upon the bank, a mass of crushed bones.

This is but one of the big scenic features of "The Girl Alaska," the electrifying picture of the Alaskan gold country, which is scheduled for showing at the Liberty Theatre on Tuesday.

has been arranged, particularly for the women who will accompany the delegates here. The "Get Together" party tonight will include dancing and a cabaret entertainment. Athletic Night, a luncheon in Chinatown for the ladies, a formal ball, a theater party, luncheon at the ocean front and a banquet are planned.
