ASKS PEOPLE'S ENDORSEMENT AS SECRETARY

Henry J. Schulderman, corporation commissioner of the state of Oregon, Saturday announced his intention of filing as a candidate for the Republican nomination for secretary of state. Mr. Schulderman made the following statement: "I am nominated for secretary of state and elected at the general election, I shall conduct the office on strictly business lines, cutting down expenses wherever possible and securing economy and efficiency as I have done in the office of corporation commissioner."

"The secretary of state is a member of the board of control, and as such has many important duties. Should I become a member of that body I shall also exert my influence to conduct the state's affairs and institutions also upon a strictly business basis, eliminating waste and extravagance and spending the money raised through taxation to the very best advantage."

"In submitting my candidacy for the nomination for secretary of state to the Republican voters, I wish to point to my record in reducing expenses in the office of corporation commissioner, to my familiarity with important business matters and to my experience as an executive acquired in the conduct of that office. If the Republican voters will examine minutely my past record and qualifications, I am content to leave my candidacy in their hands."

Mr. Schulderman was born in Portland, Oregon, in 1873, and comes from a well-known pioneer family. His mother was also born in Portland and his father, Peter H. Schulderman, had lived in Oregon fifty years before his death a year ago. His early education was acquired at the Couch school and the Bishop Scott academy. After his graduation he entered the University of Oregon Law school and also joined the Oregon national guard, being a member of company I, serving his full term and securing an honorable discharge.

After graduating from the law school, he entered business for a short period, becoming manager of the Merchants Express and Transportation company, operating between Portland and Vancouver, after which he actively began the practice of law.

In 1915 he was appointed corporation commissioner, to fill an unexpired term, and in 1917 he was re-appointed by Governor Withycombe for a four-year term.

Mr. Schulderman points out to his successful administration of the office of corporation commissioner in urging his candidacy. In his first year's administration, he states that he reduced the expenses of the office \$4,000, saving more than his salary, and last year, in spite of high costs, he conducted his office for less than the previous year.

In 1903 Mr. Schulderman and Miss Lottie C. Ford, a Portland girl, were married. They have two children. Mr. Schulderman has a wide acquaintance throughout the state, is a member of several clubs and societies, and has received many offers of voluntary support in his campaign, but will continue to give close personal attention to the duties of his present office.

ZERO COLD TEST OIL BEST FOR WINTER

"Using a Zero Cold Test oil made from selected California crude oil assures correct lubrication of the automobile in cold weather right from the first turn of the motor," stated T. J. Mortell, local agent of the Standard Oil Company, yesterday.

"That's why there is such a demand in this cold weather for Zerolene Medium and Zerolene Light. These zero cold test oils do not thicken excessively in any temperature above zero and because they keep their fluidity, or free flowing body, they keep the automobile engine flexible in cold weather.

"Some motorists do not realize that the oil in their engines may congeal at low temperature—at least they do not realize it until serious damage to the poorly lubricated engine brings it forcibly to their attention. An engine started with congealed oil runs for sometime without sufficient lubrication until the thickened oil can be heated and its fluidity restored. After this process has been repeated time after time during the cold weather months it is not necessary to tell the damage that may be done by that time—the motorist knows what excessive friction can do.

Zerolene Medium (Zerolene Light for Fords) is a high quality lubricating oil having a Zero Cold Test. It will flow freely at all temperatures above zero and prevent excessive friction in cold weather by giving the necessary correct lubrication to the engine at all times."
