WILL FARM ON FORMER GERMAN DRILL GROUND

AMERICAN HEADQUARTERS, Coblenz, Germany, Jan. 28. (By Mail)—An old target range where German army recruits were taught to shoot and where young Germans were drilled in the use of the bayonet is soon to be turned over to the Americans for agricultural purposes as part of a plan of the American forces in Germany to teach farming to soldiers desiring to take up such a course. The old range is near Fort Alexander, on a hill overlooking Coblenz on the Rhine. Agricultural text books have been ordered from Washington.

A new educational program being worked out at army headquarters embraces opening of unit schools of instruction for every distinct organization of the American Forces in Germany. Thus the Motor Transport Corps is to have a school for automobile mechanics in Metternich, near Coblenz, the signal corps will have a school for the study of telegraphy and wireless, the quartermasters corps will have a school for cooks and bakers, and the engineers will have a school of their own at some point near Coblenz. It is planned to have unit schools at first and a great central school in Coblenz later.

The Educational board in charge of this work is composed of Colonel F. S. Young, Lieutenant Colonel R. W. Holderness and Major C. S. Haight.

Yes, it's toasted

YOU know how much toasting improves bread. Makes it taste good. Of course—more flavor.

Same with tobacco—especially Kentucky Burley.

Buy yourself a package of Lucky Strike cigarettes. Notice the toasted flavor. Great! Nothing like it. The real Burley cigarette.

NOME, Alaska, Nov. 22.—(By Mail.)—Coal, now priced at \$36 a ton, will leap to \$40 shortly, according to an announcement made here today. News of the advance was received pessimistically by prospectors and miners, who declared it would have the effect of throttling most of the mining efforts planned for the winter in this section.

British leather manufacturers made 70,000,000 pairs of army boots for all the Allies, including the Americans.
