The artificial breeding of fish was a common industry among the ancient Greeks and Romans. The gorgeously colored wings of butterflies, mounted in gold or other metals, are being used for jewelry. Upright wrinkles between the eyes arise from worry and study, and will usually be seen on the faces of students. Five grammes of radium, about a heaped tablespoonful, and worth \$500,000, were obtained from the old guns used in the late war.

IF BACKACHE OR KIDNEYS BOTHER Eat less meat, also take glass of Salts before eating breakfast. Uric acid in meat excites the kidneys, they become overworked: get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush out the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoon in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it is no longer a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only a kiddy.
