Personal Mention

J. L. Beatty is here from Cottage Grove on business and to visit his daughter, Miss Frances Beatty.

Mrs. Henry Boivin has returned from a two months' visit in San Jose, where her son, Harry, is attending college.

W. E. Boidoin, who has been very ill with pneumonia, is reported to be much improved.

Mrs. Marion J. Barnes, who has been here visiting her mother and other relatives, accompanied by her two children, left this morning for Ager, Cal., to join her husband on his ranch near that place.

QUITS POLICE FORCE FOR BRICK-LAYING JOB

PASADENA, Cal., Feb. 20.—Carl Langstaff has resigned from the Pasadena police, at a salary of \$120 per month, to go to work as a bricklayer in Texas for \$11.00 a day. Commissioner M. H. Salisbury remarked that as a Texas bricklayer receives more than a Pasadena police commissioner he was tempted to give up his position to become a helper to the former patrolman.

PROTEST TRAFFIC RULES.

RIO DE JANEIRO, Jan. 28. (By Mail).—The Chauffeurs' Union, members of which operate more than 1,200 taxicabs, recently went on strike for one week in protest against traffic regulations and low taxicab tariffs. Many drivers of privately-owned cars joined them and while the strike was in force the streets seemed strangely deserted.

The strikers returned to work after the street car employes failed to join them. The city and federal authorities refused to investigate the strikers' claims while they remained on strike.

SAYS HE'S QUALIFIED.

SAN FRANCISCO, Feb. 20.—Here is an advertisement that appeared in a daily paper here recently:

"WANTED—Position in kitchen or general housework by man that has been keeping bar for twenty-eight years."

The applicant, John Kornahrens, according to a newspaper interview, suggested that as household help is lacking the "members of a noble old profession might come to the rescue."

BOUQUETS FROM CANAJOHARIE, N. Y.

A business man who has just come to Oregon to make his home says: "Only in a few sections could business be developed to the present stage and still have so many of the possibilities untouched. My impression of Oregon is first, that you have a wonderful country; second, that you have done wonderful things with it; and third, that you can do still more wonderful things."

Oregon has made rapid strides in the past few years and the possibilities for the future are almost limitless. But it behooves every loyal citizen to get behind Oregon industries and boost.

OREGON QUALITY

DENVER CRAFTS MEN DEMAND MORE PAY.

DENVER, Colo., Feb. 20.—Demands by three additional building crafts for wage increases have been made upon Denver contractors, namely, the hod carriers, plasterers and bricklayers, and their demands will in all probability be settled by the recently formed arbitration board, consisting of representatives of the unions and the contractors.

Both the plasterers and bricklayers ask for a flat daily scale of \$10 as compared with the present wage of \$9. The hod carriers ask an increase to \$6.50 per day. Formal reply is asked by the bricklayers by March 1, while the two other unions have given the contractors until April 1 to decide.

PROTEST PROFITTEERS.

LONDON, Feb. 4. (By Mail).—Agitation against profiteering in Jamaica, British West Indies, has become so wide-spread that the local government has been asked to pass legislation similar to the English Profiteering Act.

UTAH DEMOCRATS WILL MEET APRIL 3RD

SALT LAKE CITY, Feb. 20.—April 3 has been set as the date for the meeting of the Utah Democratic state central committee here for the purpose of choosing the date and selecting the city for holding of the Democratic state convention at which delegates to the national convention at San Francisco June 28 will be named.

Utah's congressional representation allows this state eight full votes at the national convention. W. R. Wallace, state chairman, believes that the meeting of the state body will be held about May 10.

The Republican state central committee will meet Feb. 23 to fix the date for the selection of delegates to the republican national convention.

WEATHER REPORT.

OREGON—Generally fair, moderate northwest winds

In Japan the total of a bill is put at the top and the items beneath.

WANTED—to let contract to log eighteen million feet timber at rate of six millions yearly beginning this season. For particulars inquire of Nine Lumber Co. Box 1126 K. F. 20-2

TURK CAPITAL HAS CHANGED

LONDON, Jan. 29. (By Mail).—Constantinople is much less picturesque than it was before the war; yet the extreme charm of the East lingers as persistently about the city as it did in the past, writes anonymously an Allied official of high rank in the Fall Mail Gazette.

"When I stood on the famous bridge over the Golden Horn," he went on, "the incredible diversity of orientals one was always wont to see passing was there, but at least 75 percent of them were dressed as Europeans. Some no longer even wore the fez.

"A business-like air pervades the principal thoroughfares, not because the Turk himself has suddenly developed high commercial instincts, but owing to the great influx of business men from the Allied and neutral countries.

"All commodities command the most exaggerated prices. Great quantities of goods have, however, begun to arrive, so that prices will soon begin to decline.

"On the other hand, the workers' wages have reached a stupendous figure. The man who before the war would have earned the equivalent of five shillings, at present refuses to do the same work for less than four or five pounds per day. Cabmen reach the supreme height of extortion at Constantinople.

"Shipping is fairly active in the port. Several Allied warships lie in the Bosphorus. The historic Goeben is in the Gulf of Ismit.

"The British are engaged in rebuilding the road to Therapia. It is singularly new and interesting to witness the spectacle of British, French and Italian troops in the streets; Highlanders in kilts, Royal Italian Carabiniers, and sturdy French poilus marching by with their band.

"The Sultan, of whose impending fate we hear so much now-a-days, still goes in State to the Selamlik every Friday. The psychology of the Turks in Constantinople appeared to me to denote indifference, in the sense that they did not seem to care much what political future awaited them. Although the Asia Minor Nationalists were said to be more or less active, there was no evidence of their activities in Constantinople. There the young Turk is at least invisible.

"Of the Germans not one is left, save a few invalids. The former German Hospital has been converted into a British hospital.

"The Robert College, one of the foremost seats of learning in the East, continues to function. The ordinary native system of education also goes on.

"It was rather striking to find the big mosques free from the tourists. The cost of travel coupled with the difficulties associated with passports form a barrier to casual, sight-seeing visitors."

NO WHITE CANNIBALS ON TIBURON ISLAND

LOS ANGELES, Calif., Feb. 20.—Members of the mining expedition Captain Harry de Windt, an English explorer, said he plans to lead to Tiburon Island in the Gulf of California need not fear "white cannibals" reported there, according to Los Angeles residents who have visited the island.

Persons returning from Tiburon, however, have given it an unpleasant reputation. They have reported that it is overrun with reptiles and that the few Indians living there, while not actively hostile, are sullen and distrustful.

Stories of a strange white tribe, using poisoned darts and an ancient blunderbuss to bag occasional visitors to provide native feast, are scouts here. Some Los Angeles residents have reported having seen natives carrying modern firearms.

A Herald Want Ad will sell it.

WILL CONTRAST OWN VOICE WITH RECORDS

In order that the people of Klamath Falls may have opportunity to judge the extent to which the Edison phonograph reproduces the quality of the human voice, George A. Wirtz, the local Edison dealer, has arranged for a tone test at Houston's opera house, Monday evening, March 1, at which Miss Marie Morrissey, the noted contralto who has produced many popular records for the Edison company, will sing in person and by proxy. That is, Miss Morrissey will contrast her real voice against that voice as reproduced by the Edison phonograph, and the audience may detect the difference if they can. The machine used will be one of the stock Edisons carried by the Wirtz store.

The Edison company maintain that its machine reproduces the exact tone of the human voice, in every shade and inflection, and is sending one of its most popular artists to Klamath Falls to prove its assertion. The public is to be the judge.

Admission to the concert will be by invitation. Tickets may be had for the asking at the Klamath Falls Music House, 725 Main street.

Miss Morrissey has been appearing in a series of concerts in conjunction with the Edison phonograph throughout California and press reports say that she has taken California towns by storm. In Bakersfield recently the audience that packed the big auditorium refused to leave when the curtain fell, and raised such pandemonium that the singer in order to quiet them was forced to extend the regular program for an hour and even then the crowd hesitated in departing.

WEATHER RECORD

Hereafter the Herald will publish the mean and maximum temperatures and precipitation record as taken by the U. S. Reclamation service station. Publication will cover the day previous to the paper's issue, up to 5 o'clock of that day.
