The longest lawsuit on record lasted over four hundred years. It was a dispute about some land in Poland, the people interested being the Sobieskis of Orlowo and the Sobieskis of Podlowo. It began in the year 1490, and a settlement was arrived at in 1890, the land being then

**CHRISTIANITY IS MENACED SAYS BISHOP**

LONDON, Feb. 4.—(By Mail.)—Bishop Welldon, dean of Durham, declares in an interview that "society is threatened by forces which repudiate the Christian faith." The bishop has just returned from a conference on Christian reunion at Oxford, which was attended by both conformist and non-conformist ministers. There was a general agreement, he stated, as to the necessity of drawing churches together.

"The world is rocking under men's feet," he said. "Society is threatened by forces which repudiate the Christian faith and the Christian moral code. The church runs a grave risk of losing her influence upon national life, the decadence of regular church-going has long been a cause of anxiety. The statistics of divorce are alarming, and it may be necessary to rebuild human morals from the foundation."

"Meanwhile the church is disregarded because she is divided. It is too much to expect that the world will listen to her when she speaks with many discordant voices. Unity alone will be the secret of her power. The same need which has driven political parties to coalition, drives reformed churches to federation. The opportunity has come with the necessity. It is now or never. If ecclesiastical statesmanship does not avail itself of the spirit excited by war, the chance of Christian reunion of Christian inter-communication, will be lost and may not recur in the life of the living people."

After a short stay in the United States, Martin Johnson, accompanied by his wife, left San Francisco on April 8, 1919, to again visit the South Sea Islands and complete his cinema record of cannibal life.

The famous explorer will be gone two years and will send back an even greater collection of pictures than those released under the titles "Cannibals of the South Seas" and "Captured by Cannibals."

In this trip Johnson will endeavor to reach cannibal centers never before visited by a white man.

"On the Borderland of Civilization" is the first of the pictures made on this trip by Mr. Johnson.

They took the lid off at the Pendleton Round-up in Oregon last fall. The Sunset-Burrod outfit was there to shoot the show, and in honor of the occasion the Round-up directors offered a special prize of \$400 to the man or woman performing the most audacious and spectacular stunt in front of the camera. The complete action story of the famous round-up will be told on the screens of the best motion-picture theaters, whose patrons will be asked to decide who shall receive the big prize. Let 'er buck!

William J. Flynn, former chief of the U. S. secret service, now with the department of justice, is en route here on an important mission, not

in person, of course, but the next best way—on the screen.

His is a name to conjure with. Crooks have been known to skip at the mention of it. His adventures back off the map anything imagined for the wildest western melodramas.

He has culled from his experiences eight master episodes. Naturally they are all fact stories. Only names and localities has been altered. They represent the very cream of excitement.

Wilson Mizner, noted dramatist, has framed them so they could be turned into pictures. Republic Pictures have screened the eight in two reels each. Herbert Rawlinson puts the real blood of life into enacting the leading roles. The first of

the series, "The Silkless Banknote," comes to the Liberty tonight and tomorrow.

The best inks in the world are the oldest. They were chiefly made of lampblack, like the present Indian and Chinese inks. Many ancient Roman documents which are preserved in museums, though two thousand years old, have the writing on them as black as the day when it was written.

In many parts of England it is a belief among the women that rosemary worn about the body strengthens the memory and adds to the success of the wearer in anything she may undertake.

**PREVENTION IS BEST CURE FOR INFLUENZA SAY PUBLIC AUTHORITIES**

Every Possible Effort Is Being Made in Affected Localities to Stop Further Spread of Disease.

OUNCE OF PREVENTION WORTH POUND OF CURE

Persons Who Catch Colds Easily and Who Are in Run-Down Condition in Greatest Danger.

Influenza continues to spread; and the disease is now prevalent over many sections of the country.

It has baffled the medical skill to an unusual extent, and although it has been held in check in most localities, it has gotten beyond control in others. The germ has eluded bacteriologists and medical men now agree that the best cure is prevention.

The surest prevention is to build up the bodily powers of resistance, and to get the system into the best physical condition possible. It is now universally agreed that it is possible to perfect the powers of resistance of the human system so that it can throw off almost any infection, not excepting influenza.

It has been observed that persons who are weak and run-down are more susceptible to the disease than persons who are in robust health, and if you are in a generally run-

down condition and below normal weight this warning should be heeded promptly. If you are in this condition nothing on earth will build you up and strengthen you like Tanlac, which contains the most powerful tonic properties known to science. As a reconstructive tonic and system builder it is without an equal and contains the very elements needed by the system to give you fighting strength to ward off disease germs. This is a statement of fact and is supported by the recognized authorities and reference works including the U. S. Dispensary, the Encyclopedia Britannica, and also by standard text books used in the schools of medicine. This statement is further proven by the fact that millions of persons who have actually taken Tanlac have testified to its extraordinary merit as a medicine and by the fact Tanlac is today having the largest sale of any tonic on the American market.

Tanlac is also an ideal strengthening tonic for persons who are suffering from the after-effects of colds, influenza, ordinary grippes, and bronchial troubles, and hundreds of thousands are using it daily with most gratifying results.

In connection with the Tanlac treatment it is very important to keep the bowels open by taking Tanlac Laxative Tablets, samples of which are enclosed with every bottle of Tanlac.

Tanlac is sold in Klamath Falls by the Star Drug Co., and in Lorella by the James Merc. Co.—adv.
