**SALE OF TIMBER**

KLAMATH INDIAN RESERVATION AGENCY UNIT.

Sealed bids in duplicate, marked outside "Bid Agency Timber Unit" and addressed to Superintendent, Klamath Indian School, Klamath Agency, Oregon, will be received until twelve o'clock noon, Pacific time, Wednesday, March 24, 1920, for the purchase of timber on a tract, in township 34 south, range 7 east of the Willamette Meridian in Klamath Indian Reservation, lying between the J. J. Steiger Sale area and the so-called Spring Creek Sales areas. The said unit includes 1360 acres of unallotted land with an estimated stand of five million feet as to which contract will be made with the Superintendent and about 800 acres of allotted lands with an estimated stand of three million feet as to which separate approved contracts with the Indian owners may probably be made. More than ninety per cent of the timber is western yellow pine and the remainder is white fir, Douglas fir and sugar pine. Each bid must state the price per thousand feet Scribner Decimal C. Log Scale that will be paid for timber cut and sealed. No bid of less than three dollars and fifty cents (\$3.50) per M. foot for yellow pine and one dollar and fifty cents (\$1.50) for other species will be considered. Each bid must be accompanied by a certified check on a solvent national bank, payable to the Superintendent of the Klamath Indian School, in the amount of one thousand dollars (\$1,000.00). The deposit will be returned if the bid is rejected but retained as liquidated damages if the executed contract and bond are not executed and presented for approval within sixty days from the acceptance of a bid. The right to reject any and all bids is reserved. Copies of the bid and contract form and other information may be obtained from Superintendent Indian School, Klamath Agency, Oregon, Washington, D. C., Cato Se Feb. 18, 1920. Commissioner of Indian Affairs 25 26 28 2 4 6 9 11 13

**STEEL FURNACES  
CREATE CURIOUS  
SKY EFFECTS**

PITTSBURGH, Feb. 26.—Intense blast furnace activity, combined with low temperatures, has in recent weeks given to the Pittsburgh district some of the most beautiful "furnace comets" it has ever seen. But they are gradually losing their brilliancy, and with the approach of spring, scientists say, they will vanish until favorable conditions re-appear next winter.

"Furnace Comets", are great broad shafts of yellow light which pierce the black background of a murky sky in most spectacular manner. They flash almost without a moment's notice, and fade almost as quickly, only to reappear as bright,

if not brighter than before. Usually there are two of them, at times rising perpendicular, but oftener cutting the sky like the beam from a searchlight.

Scientists at the Allegheny Observatory explained the lights by saying that the light from blast furnaces penetrates the atmosphere above the city to a great height, and there being caught by frost crystals send back the reflection in the form of broad bands. For years they have passed almost unnoticed until this year, when, because of the continued operation of large numbers of furnaces, they became much more frequent and much more beautiful.

PARIS, Feb. 8. (By Mail)—The new style of hairdressing launched by Parisian establishments revives the big soft chignon pinned low on the nape of the neck. Parted on the right side of the head, the hair is brushed back in soft waves forming a beautiful and becoming frame to the temples and brows. It is a far cry from the short "bobbed" locks of the past two seasons.

**PUBLIC SHOULD TAKE  
EVERY PRECAUTION TO  
GUARD AGAINST "FLU"**

Reports Show that Influenza Epidemic is Gaining Headway in Many Sections of the Country.

KEEP SYSTEM IN BEST POSSIBLE CONDITION

Persons Weak and Run-down Are Earliest Victims. Fortify Against Attack By Taking Tanlac.

According to late press reports issued by state and city health authorities, Influenza is again becoming epidemic in many sections, and some alarm is now felt that it may become general over the entire country.

Owing to the lateness of the season it is not thought possible that the disease can become the great and terrifying scourge that it was last year, when it swept the entire country and claimed its victims by the hundreds of thousands. The danger is too great, however, to take any chances, and everything possible should be done to ward it off.

Medical authorities agree that people who are weak and run-down are the earliest victims of influenza. If you find yourself tired (and nervous), weak, and losing flesh, or if you are in a generally run-down condition or catch cold easily, this warning should be heeded promptly. You are really in danger if exposed to the disease, because it is generally believed to be very contagious, and you are apt to fall an easy victim if you come in contact with the germs.

People who are well and strong are not likely to contract the disease because they are able to throw it off. The common-sense way to keep from taking it is to fortify the system against attack by building up the constitution, in other words, begin immediately to build up your powers of resistance.

To accomplish this it has been demonstrated that nothing on earth will strengthen you and build you up like Tanlac, the powerful reconstructive tonic which contains the very elements needed to build up the system and give you fighting strength to ward off the Influenza germ.

First of all, Tanlac begins its work by creating a good, healthy appetite for wholesome, nourishing food, and assists every organ of the body to perform its natural function, thus helping to build up health and strength in the natural way.

Tanlac is also an ideal strengthening tonic for persons who are suffering from the after-effects of Influenza, Grippe, and bronchial troubles, and hundreds of thousands are using it daily with the most gratifying results.

In connection with the Tanlac treatment it is necessary to keep the bowels open by taking Tanlac Laxative Tablets, samples of which are enclosed with every bottle of Tanlac. It is also important that the every-day rules of hygiene be observed, that is, sleep in well-ventilated rooms, get plenty of fresh air and exercise, and keep away from crowds.

Tanlac is sold in Klamath Falls by the Star Drug Co., in Lorella by the James Merc. Co., and in Merrill by the Southern Oregon Drug Co.—adv.

**START TOMORROW  
AND KEEP IT UP  
EVERY MORNING**

Get into the habit of drinking a glass of hot water before breakfast.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles according to hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood, causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.
