

# Maibohm

**Soft Purr-r-ring like a kitten**  
to the hair-raising whurr-r-r of a partridge is the range of Maibohm's power plant. From one extreme to the other the vibrationless movement is ever forward. The fortunate hang of the chassis holds the wheels to a straight trail. No weaving tracks behind Maibohm. Meanwhile you sense the comfort of tan Spanish leather cushions which hailed from a real cow's back. A Maibohm ride will give you a new idea of motoring.

## CHINA FEARS BOLSHEVIKI

PEKING, Mar. 1.—Danger that the Bolsheviki government of Russia may make war on China is pointed out in the Peking Leader, by B. Lenox-Simpson, writing under the pen name of Putnam Weale. He is the author of several works on China and recently was retained by the Chinese government as "statistician," reporting directly to the president.

Mr. Lenox-Simpson says that in theory Bolshevism could not really declare war upon a non-capitalistic country where the millions toil as much as do the Russian millions; but, nevertheless, China finds her border provinces deeply affected because agreements made in years gone by with the government of the late Emperor Nicholas have not been definitely cancelled and also "because Japan is leaving no stone unturned to inherit those agreements and arrangements."

The author sees a possible cause for a declaration of war on China by the Bolsheviki in the fact that the old Russian diplomatic and consular establishment in China has been supported by Chinese funds from the Boxer indemnity account. "It is quite likely," he asserts, "that the Russian revolutionary government, as it penetrates further to the east, will consider that this is something more than an unneutral service—perhaps a casus belli and a reason to strike at the regions of Turkestan." He predicts that Japan will attempt to come to an arrangement with the soviet government of Russia and that "the price Japan will ask will have to be paid by China unless she acts quickly."

If each man, woman and child in Great Britain had to pay an equal share of their country's war debt, the personal liability would be \$786 each.

### IN MEMORIAM

(In honor of Dr. George Mitchell, whose sunny disposition brought cheer to so many friends and acquaintances.)

This world you loved  
Today it is so fair,  
The sun shines brightly down,  
And shadows fleeting here and there,  
I cannot think  
That you are not here  
To greet it with the smile  
That to your world brought cheer.

The world today is bright,  
The cattle low from hill and plain;  
I cannot think  
That you'll not ride for them again.  
Methinks I see them stop and list  
To hear your cheery song,  
Then turn again to browse  
Thinking 'twill not be long.

This world today is bright,  
It calls and beckons on;  
I cannot think  
That you have really gone.  
But gates to wider fields  
Have opened up before you  
And brighter, higher hills and plains  
Beckon on and lure you.

And methinks the angels  
Will be glad to see your smile,  
The smile that was so cheery  
And helped us o'er the weary mile.  
AN ACQUAINTANCE.

### JOBS FOR ENGLISH

#### SOLDIERS ARE SCARCE.

LONDON, Jan. 28. (By Mail).—Discharged army officers are still having difficulty in many cases in finding employment. At Croydon the other day a brigadier general was among the applicants for the post of secretary to the Croydon Pensions Committee. The position pays only 350 pounds. The place was given to a lieutenant colonel who had served in the army 30 years.

The first manufacture of paper from linen rags has been attributed to the Moors of Spain, at dates ranging from before the tenth century to the year 1470.

Out of every 12,500 men, one may be spared to see his hundredth birthday, while nearly three out of the same number of women will complete their century.

### WILL DECORATE HOUSE INTERIOR

WASHINGTON, Mar. 1.—A scheme of interior decoration of the hall of the house of representatives, depicting the history of the nation in 18 or 20 painted wall panels, has been determined upon as a mural record to inspire the admiration and patriotism of future generations. Solution of the problem of how best to display the large and practically priceless Limoges vases presented by France in appreciation of congress' warmth to Marshal Joffre and former Premier Viviani on their visit to this country during the war, brought out the scheme.

These beautiful vases now stand on cheap pine platforms in the speaker's lobby, but the decorative plans call for special niches for them on either side of the Speaker's chair in the house chamber. Panel paintings of Washington and Lafayette now adorn spaces on either side of the speaker's chair and there will be moved only a few feet. The work of gradually filling the other panels around the chamber will be carried on from time to time until the history of the United States has been murally depicted. One large painting already in the house depicts Cornwallis suing for a cessation of hostilities under a flag of truce.

### RESUME RIVER TRAFFIC

PITTSBURGH, Feb. 27.—Freight barges of an improved type are being built in a shipyard here for the United States railroad administration. They will be used on the lower Mississippi river for carrying oil in bulk and for general cargo.

Each barge is 230 feet long, 45 feet beam, and 11 feet deep. The hold is divided into 18 compartments and has 16 hatches. The capacity is 2,000 tons.

Byron indited fluent and passionate love verses at the age of ten, Tennyson wrote charming lyrics at twelve, and Milton wrote epic poems before he had turned eleven.
