

UKRAINE JEWS WILL SETTLE IN PALESTINE

NEW YORK, March 4.—Over 1,500,000 Jews in the Ukraine are organized to leave for Palestine, as soon as that country is opened to receive world mass-migration on a large scale.

Meier Grossman, member of the Jewish National Assembly of the Ukraine and head of the London Jewish Correspondence Bureau, made the statement in an interview given out by the Zionist Organization of America, with whom he is now conferring over the problems incident to the virtual depopulation of Jewish Ukraine in the intense desire of over half the Jews there to emigrate to the Holy Land.

"The majority of the Ukraine Jews are ready at any moment to emigrate at the greatest of sacrifices, from that country, which to them is a nightmare of bloody pogroms, and settle in Palestine," he declared. "The intense desire to live in Palestine has even spread among those Jews who never had any relations with Zionism or with Jewish politics."

"In hundreds of cities and villages, groups of Jews stand ready to leave behind them all their property and start for Palestine, as soon as thru the establishment of the British mandate, the country will be opened to extensive immigration."

"Delegates from all the Jewish settlements in the Ukraine are proceeding daily to Odessa to investigate the possibilities of starting at once for the Holy Land. Odessa, Sebastopol and other seaports are crowded with these advance guards, who spend their last cent in order to try to find a way to get to Palestine at once."

Mr. Grossman reiterated the reports that the local Zionist organizations in Odessa, Constantinople and other seaports, are unable in many cases to cope with the intense desire of these people to start out for Palestine, regardless of whether they are in position to leave or whether the country is ready to receive them. He confirmed the report of Isaac Rosoff, President of the Zionist Organization of Russia that hundreds of young men are breaking thru the restrictions of the Zionist organization and setting out for Palestine from Black Sea and Mediterranean ports in fishing smacks.

Through the Palestine Restoration Fund campaign the Zionist Organization of America is raising \$10,000,000 throughout the United States this year, in order to start the vast reconstruction program, which must be completed before Palestine will be in a position to absorb the millions of Jews throughout the world, awaiting the moment when they can emigrate there.

In connection with this restoration work, Mr. Grossman pointed out that many of the 1,500,000 Ukrainian Jews are already organized into various industrial and agricultural co-operative groups, planning to systematize the mass-migration and prevent a mad, unscientific rush to

BUY TO KEEP ROOF OVERHEAD

PITTSBURGH, March 4.—More than 60,000 Pittsburgh families bought their homes during the past year, not because they were particularly anxious to own their own homes, but, according to real estate men, they had to buy or move. This is continuing at the same rate thus far this year.

The home buying movement began two years ago, when war activities in the mills brought scores of families into a community where housing accommodations had been increasingly scarce for a number of years. Cost of construction increased and this curtailed building operations.

Rents have increased in proportion, small houses and apartments showing the highest percentage. Fifty per cent raises for the coming year are said to be common, while in some instances 100 per cent has been asked and paid where the occupant could afford it. "The demand is here and the living places are not," is the way one real estate man explained the situation.

Similar conditions prevail throughout the Pittsburgh district. In some manufacturing towns industrial corporations are building and buying houses for their men, while in Sharon, Pa., the chamber of commerce has undertaken to finance the construction of 500 residences.

PARENTS TAKE HAND IN GERMAN SCHOOLS.

BERLIN, Jan. 25. (By Mail).—Councils composed of parents of pupils will be established in all schools of Prussia by order of the Prussian Minister of Education, Herr Haensch. The experiment will be watched with great interest.

These "parent councils" will act only in an advisory capacity making suggestions concerning the management and discipline in the schools and the spiritual and physical development of the children. Each parent will represent 50 children. It is hoped by this method to establish friendly relations between the parents and teachers.

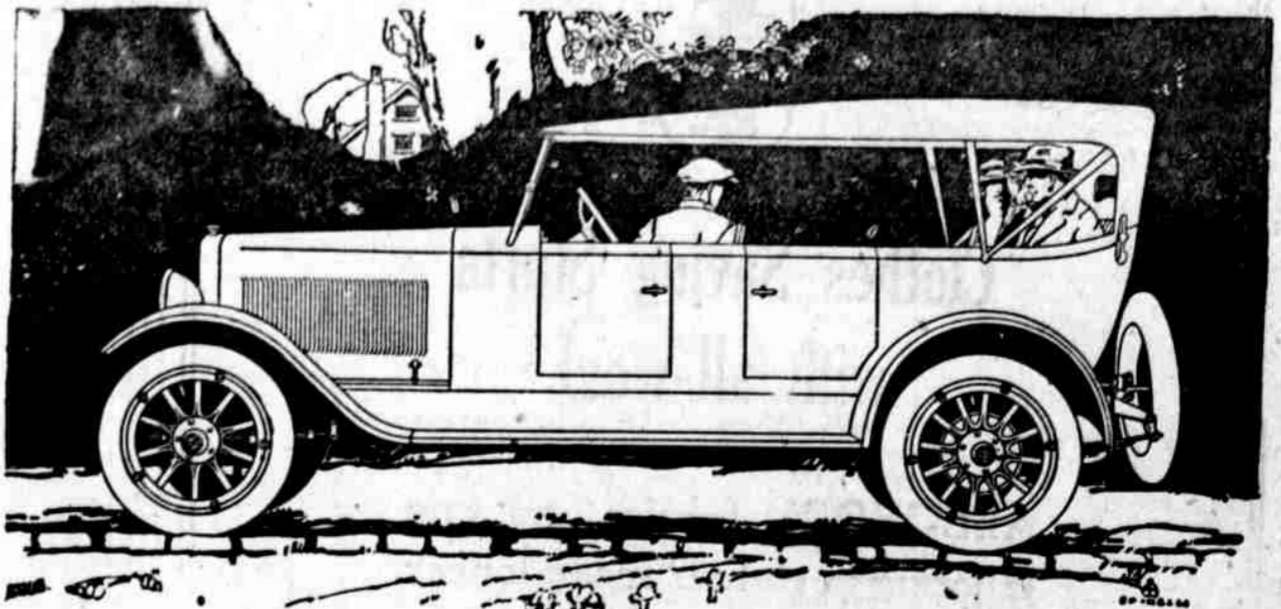

Palestine as soon as the gates are opened.

"There are approximately 100,000 farmers waiting to leave," he continued, "who will be a tremendous asset to the future agricultural development of Palestine. They are busy organizing their co-operative units, at the same time that they are teaching thousands of Jews the principles of farming, so that they will be economic assets in the agricultural life of the new Jewish National Homeland."

"The hundreds of young men who have crossed the Black Sea in small fishing boats and the hundreds of thousands of families who have given up their last cent in order to settle in Palestine, are the best proofs that the one and only way in which we can help the Ukrainian Jews, of whom over 35,000 have been killed in massacres, is by preparing a home in the Holy Land for the 1,500,000 waiting to go there," he urged.

CALIFORNIA STOCK SUFFERING BADLY

SAN JOSE, Cal., Mar. 4.—That California's recent rain did not come in time to prevent serious loss to stockmen is indicated by the report of Walter Chrisman, of San Jose, that cattle were starving in the hill country near here prior to the rain of February 22.

Mr. Chrisman said feed was shipped in from Nevada by some cattlemen, but that the expense of this procedure was almost prohibitive. He declared that on a trip into the hills at that time he saw cattle too weak to be driven down from the ranges for shipment to better pasturage.
