BRAZIL SEEKING TARIFF REFORM

RIO DE JANEIRO, Feb. 16. (By Mail).—The Brazilian National Congress which will assemble on May 3, will take up the tariff reform bill, the passage of which is strongly favored by President Pessoa's administration. This measure which provides for a decided downward revision of import duties on many articles consumed by the mass of people, was introduced late in the recent session of Congress but encountered strong opposition from protectionists and was not enacted.

A special commission of the Chamber of Deputies will remain in session until Congress meets to study the question and to receive suggestions or helpful information from the state governors and the various commercial, industrial and agricultural societies of the country.

One of the last acts of the recent Congress was to vote favorably on the proposal to maintain the 20 per cent preferential reciprocal tariff on certain goods manufactured or produced in the United States.

Among other important measures approved during the session was one which gives the government extraordinary powers in dealing with anarchists and other agitators. Many of these radicals have been deported during the past few months, and the government, through the federal police, is continuing its campaign against the agitators, practically all of whom are foreigners.

A department called "Comissariado da Alimentacao" has been created and given power to control the outgoing and incoming of food stuffs and control prices.

The budget for 1920 estimates the government receipts from all sources at approximately \$158,427,787. The appropriations for the last year were approximately \$147,987,000.

COLLEGE HELPS ENGLISH WOMEN

LONDON, Feb. 18.—(By Mail).—The young women of this country who desire to enter the well paid professions have suddenly come to the decision that there is a cash value in a university degree. As a result the women's colleges at Oxford and Cambridge are being bombarded with applications for admission. Somerville and Lady Margaret's at Oxford, and Newnham and Girton at Cambridge, cannot begin to accommodate all those who wish admission, it is stated.

This growing popularity of the woman's college is said to be due largely to the number of excellent positions which have recently been secured by university women. Despite previous prejudices, employers have discovered that a modern university education is a business asset. One commercial man recently stated publicly:

"The Oxford woman writes a good clear letter and has more common sense than a score of ordinary clerks. And what is more in these days, she is not afraid of work."

The university women are also finding employment in all sorts of welfare work, and as inspectors in establishments where women are employed. Offers of work as inspectors are being received from America, it is stated, and good salaries are offered.

WIRELESS TO CHILE ESTABLISHED, MEXICO

MEXICO CITY, Mar. 12.—Wireless communication between Mexico City and Santiago, Chile, has been established and the Mexican legation in the latter city is receiving approximately 2,000 words of news daily, which is transmitted from the huge station at Chapultepec to a receiving station in Santiago. Fernando Cuen, Mexican minister to Chile, publishes a daily news letter, which is available to all interested Chileans.

COLOMBIA ASKS ADJUSTMENT OF CANAL DISPUTE

BUENOS AIRES, Feb. 15. (By Mail).—La Epoca, organ of the government party in Argentina, has just published a communication from the Colombian legation giving the text of resolutions adopted by the Senate and House of Representatives of Colombia protesting against the alleged infringement by the United States of Colombia's rights over the Isthmus of Panama. The resolution of the Colombian Senate reads:

"This day being the sixteenth anniversary of the rebellion of Panama, fomented and supported by the government of the United States of America, with manifest infringement of a public treaty, the Senate of the republic interprets public opinion in declaring, once more, that the rights of Colombia over the Isthmus of Panama are imprescriptible, and in protesting, as it does protest, before the civilized world, against the causes which have impeded the use and defense of its rights."

"Colombia re-affirms solemnly to-day its rights to all and each one of the portions of territory bestowed upon it by its liberators, and, whatever be the answer which time shall bring to the hopes of revindication, that its cause is the cause of justice and civilization, that of the sovereignty and integrity of nations."

"The Senate, in making this protest and these declarations, expresses the wish to see substituted by the action of equity and justice the proceedings which have limited and made nugatory the rights of weak nations."

To resolution of the House, expressing similar sentiments, complains against the failure of the United States Senate to approve the treaty of April 6, 1914, and protests against the proposed celebration of a new pact "quite foreign" to the April 6 convention.

By the treaty of April 6, 1914, the United States would have expressed "regret" and paid Colombia \$25,000,000 for its action in Panama. That treaty has not been approved by the United States Senate.

It has been said that every possible necessity of a man's life, save the water he drinks and the air he breathes, may be supplied, either directly or indirectly, through the use of petroleum products, and even water may be pumped by a gasoline engine.

INDIA NATIVES FEAR QUAKES

LONDON, Feb. 22.—(By Mail).—The masses in India, especially the ignorant villagers, were greatly agitated as the result of the prediction made by Professor Porta, of America, that December 17 would see the beginning of exceptional storms and earthquakes, says the Calcutta correspondent of the Daily Mail. By the time the prediction reached India it had grown into a declaration that the world was coming to an end. The correspondent says of these frightened people:

"They invoked their gods, made vows and offerings, bathed in the sacred streams, shaved their heads, and sat clothed in sackcloth and ashes (it is quite a common sight to see religious mendicants smeared all over with ashes), awaiting the crack of doom."

"It was rumored that 'Kuda' (the Deity) was going to descend on the Ochertony monument in Calcutta. At the police courts scores of self-constituted astrologers argued, some for and others against the prophecy. As soon as the weather got cloudy an aged Moslem, who was the complainant in a case of petty assault,

left the court and let his case take care of itself. He was, he said, going home to die with his family."

GOV'T. EMPLOYEES WANT BONUS DOUBLED

VALLEJO, Cal., Mar. 12.—Provision for a \$240 per year bonus for government employes in a bill reported to the house of representatives has led to redoubled efforts to have the bonus increased to \$480, according to civil service employes here.

Federal civil service workers in all parts of the United States are reported to have joined in a movement to show that the \$240 bonus granted a year ago is not sufficient to meet the increase in the cost of living.

At the Mare Island navy yard here 60 per cent of the classified civil service employes are said to receive the laborer's wage of \$4.16 or less. This is held responsible for the frequent changes in personnel.

The transatlantic steamers are, and always have been, the biggest and fastest in the world. Yet the Peninsular and Oriental line, whose ships ply between Europe and the far east, owns more vessels, has far more tonnage, steams more sea miles and carries more cargo than any other shipping company in the world.
