BOY WINS DOG

GREENCASTLE, Ind., Mar. 15.—A boy's faith in his dog, the ownership of which was disputed, resulted in the lad winning a jury to report in his favor here recently.

"Shep," as exhibit A in the suit for possession, was called upon by the boy, to stand on his hind feet, walk up and down in front of the jury, to bark and do other feats that an animal seldom will do for other than its master.

ARE URGED TO ATTEND.

VISITORS WELCOME

WIFE ON TRIAL FOR MURDER

SAN LUIS OBISPO, Cal., Mar. 16.—Mrs. Myrtle Dean, charged with the murder of her husband, Fred A. Dean, in Paso Robles, November 17, 1919, faced trial in the superior court here today.

The case against Mrs. Dean is believed to be largely based upon circumstantial evidence. Before the court session opened today it was understood the defense would attempt to set up a claim of temporary insanity.

The slaying of Dean, who was a deputy assessor and prominent in county politics for years, constituted one of the strangest crimes that ever confronted the authorities in this part of the state. Dean was popular and had no known enemies. He was in comfortable circumstances. The only trouble reported between husband and wife developed over Mrs. Dean's objection to living on a ranch, and to please her Dean had leased the farm and rented a home in Paso Robles.

Dean was found in a bed on the second floor of his Paso Robles home with his throat cut, his nose broken and his skull fractured in two places.

Despite the efforts of local authorities and a San Francisco detective, who was employed on the case several weeks by the district attorney's office, it is said that no one has been brought into the case other than Mrs. Dean.

She and her daughter, 14 years old, were the only occupants of the house, other than Dean, the night of the murder. The daughter said she slept in a down stairs room that night and heard no disturbance. Mrs. Dean, when first questioned, said she was not awakened by any noise on the upper floor about 4 o'clock in the morning. She told the authorities she found Dean's body when she went to call him about 6 o'clock the morning of November 17. She then notified the neighbors. Dean's razor was found several days later among some ashes in the kitchen stove.

Dean is supposed to have had about \$100 in cash in his possession the night of the murder, the proceeds of the sale of some produce from his ranch. This money has never been accounted for.

During her three and a half months incarceration, Mrs. Dean has insisted upon her innocence.

Previous to her arrest Mrs. Dean was detained some time at the County Hospital for observation as to her sanity following an alleged attempt three days after the murder to end her life by slashing her throat with a butcher knife while at the home of a friend at San Miguel. A note found at that time she is alleged to have written:

"I am going, I can stand the strain no longer."
The self-inflicted wound was superficial and she soon recovered.

District Attorney V. A. Warner will be assisted in the prosecution of the case by Deputy District Attorney Nelson, while Former State Senator A. E. Campbell and Assemblyman Carlton Greene of Paso Robles will defend Mrs. Dean.

The Liberty shows you a new one every day.

HALF U. S. IS WITHOUT BOOKS

NEW YORK, Mar. 16.—Sixty million persons in the United States today, more than half the population, are practically or wholly without library service. For a large proportion of the other 40 per cent, libraries are not readily accessible. Opportunities for self-education thru the best books are therefore limited to a relatively small number.

In order to overcome this situation, the American Library Association has launched a "Books For Everybody" movement with the ultimate aim of bringing to every man, woman and child in the country free and easy access to the best reading and opportunity for self-instruction.

Recent investigations by the U. S. Bureau of Education show that a very small percentage of the counties in the nation have any one library with 5,000 volumes or more; that thirty states serve less than 50 per cent of their population and one serves less than 2 per cent. By promoting library service wherever needed, and in co-operation with existing library agencies the Association plans to set aside this condition and open up every avenue of self-education for those now deprived of facilities.

In the knowledge that better books make for better citizenship, the Association will encourage the translation of the best reading into the various foreign tongues for the benefit of the 15,000,000 new Americans and for those millions of others who have been without benefits of a library service. It will also work for the extension of the county library system, which will take the best books into the distant hamlet, village and town. To carry on this broad program a fund of \$2,000,000 will be obtained not through an intensive drive, but by individual efforts of librarians, library trustees and friends of libraries.

A quart of good milk equals in food value ten eggs, almost a pound of lean beef, two pounds of chicken, or nearly half a pound of cheese.

WEATHER RECORD

Hereafter the Herald will publish the mean and maximum temperatures and precipitation record as taken by the U. S. Reclamation service station. Publication will cover the day previous to the paper's issue, up to 5 o'clock of that day.

FOR RENT—Space in these columns at five cents a line a day. A line here is read by thousands every night.

INFLUENZA FAILS

TO STOP WEDDING

VINCINNES, Ind., Mar. 16.—The fact that he was confined to his bed with influenza and the minister would not enter the room did not keep William K. Isaac from marrying Mrs. Nellie Farrar here recently.

The minister stood on the porch while the bed-ridden groom and his bride were in the second room beyond. The family witnessing the ceremony sat in the living room between the minister and the couple being married.

The bride, following the ceremony, established herself as nurse and immediately took charge of Mr. Isaac.
