

INTRODUCING Our Department Heads

We aim to have at the head of all our departments, the highest priced and best qualified men obtainable, in order that we may give you prompt service, good workmanship and satisfactory treatment.

CABINET WORK

This department is in charge of Mr. Harry Goeller. It was largely his accuracy, reliability and mechanical skill which established the reputation of the "Goeller Mill" for fine workmanship. Every piece of cabinet work ordered from us will be made under Harry's personal supervision.

GLAZING

We have at the head of our glass department, Capt. Francis R. Olds, well known for many years as the most competent and reliable glazier in Klamath Falls. He will personally supervise the execution of all our glass orders.

LUMBER AND MILL WORK

Our foreman in this department is Mr. J. S. Bell, an expert tallyman and grader. The greater part of his life has been spent in the lumber and mill business. We guarantee the accuracy of our tallies and grades and the quality of our mill work.

Personal Mention

Mr. and Mrs. Oscar Shive and his daughter have returned from Pasadena, where Mrs. Shive and child have been for two months and Mr. Shive spent the past month.

Tomorrow afternoon at the home of Mrs. H. E. Momyer, 228 Juniper street there will be a silver tea given by the Ladies Aid of the Methodist church. A cordial invitation is extended to all.

J. D. Fairchild, a prominent attorney from Yreka, after making a short business visit here returned to his home today.

O. A. Zimmerman of the Premium Dairy has resigned his position on account of ill health and gone to the Rogue River Valley.

AT THE THEATERS

"The Feast of the Gods" in "Dangerous Waters," William Desmond's production for Robertson Cole, distributed by Exhibitors Mutual, is a hint to society leaders who are looking for something novel in the way of entertainment for blasé and pleasure-surfected guests.

This spectacular scene shows the guests costumed in the filmy apparel of gods and goddesses. Jupiter and Juno, Venus and Adonis, Vulcan and Bacchus, Hebe, Minerva, Prosperpine, Neptune, Cupid and Psyche, and all the other mythological folk are shown in a Saturnalia of Bacchus, drinking "nectar" a la Manhattan and revelling in the old Pagan way with the lid off and the sky the limit. Beautiful tableaux are shown to the guests, and the revelry develops the goddesses and succumb to the lure of the Tango.

This scene is an exact replica in every detail of a notorious Olympian banquet given by a prominent member of the smart set in New York some fifteen years ago. When Director Hampton started making plans for the filming of the scene, he learned that the producer of the New York affair was then at Catalina, the

Crane's
Anendawon

—is at once the oldest and newest writing paper in America. It is the oldest in the sense that it is made in mills whose wheels started when Jefferson was President, when quality was the supreme test of a manufactured product.

It is new in the sense that the styles created by it are accepted as final by that world whose word on style is final. Displayed in great variety in our stationery department.

We Believe--

a good dependable Electric Service is one of the important factors in community building—

WE BELIEVE it is a valuable asset to a community to be able to offer reliable Electric Service at an attractive rate to industries seeking location—

WE BELIEVE this asset is a direct benefit to every citizen of that community—

WE BELIEVE the responsibility is delegated to the Serving Utility to make every reasonable effort to insure adequate and reliable Service for all purposes required within its territory—

WE BELIEVE the mere name of the Company serving is not material—the value lies in the actual Service rendered.

California-Oregon Power Co.

Famous fishing resort off the California coast. Hampton got in touch with him and arranged to have the scene produced under the original producer's direction.

WILL START WORK ON BIGGEST BALLOON

PHILADELPHIA, Mar. 17.—The world's largest dirigible will be built at the Philadelphia navy yard. In it

a company of navy men will attempt flight across the Pacific. Fifty-two draftsmen gave their services to the work of designing the great airship. Work will soon be begun on the plans.

It will be developed along lines similar to the R-34 which made the successful trans-Atlantic flight. The dirigible will weigh about 33 tons, and will have a carrying capacity of 30 tons.

THE USE OF these columns will make money for you.

SHASTA VIEW NOTES

We have enjoyed such beautiful spring weather all winter that it seems since the cold and snow has been coming for a few days that the months have taken a heavy jolt as well as prices and other things, but the snow looks good to the ranchers.

Do not forget the date of the box social at the Shasta View school house, Friday evening, Mar. 19th.

H. B. Wilson and family and Miss Leachman, C. M. Kirkpatrick and family and the Misses Schafer and Whipple were Klamath Falls visitors Saturday. The gentlemen attended the sale of more used cattle and the ladies did shopping.

C. J. Hunt and J. L. Bailey were in Klamath Falls one day last week on business.

Amos Beck instead of driving a Ford is trying his luck with a new Ford car.

TOO LATE TO CLASSIFY
