"SHAVETERIA" IS NEW CONVENIENCE IN T. H.

HONOLULU, Mar. 18.—The cafeteria has become second nature to the American dining public, and the grocerteria is making a determined appeal to the housewife; but it has remained for the Knights of Columbus to "spring a new one" on the Hawaiian Islands, with the establishment by Secretary Louis A. Bagley of a "shaveteria" for soldiers, sailors and marines who are overnight guests of Casey in their service men's clubhouse.

Bagley has installed a collection of safety and garden variety razors, and in the morning, often as many as sixty uniformed guests line up before the mirrors and beautify themselves by the time-honored process of elimination of hirsute adornment. Although the K. C. secretary keeps busy almost 24 hours a day devising entertainment for the hundreds of army and navy men who visit the building, they all vote the "shaveteria" one of the most popular of the many services offered them by the Knights.

COLOMBIA REDUCES IMPORT TARIFFS

SAN FRANCISCO, Cal., Mar. 18.—News that Colombia may lower its high tariff on American canned foods in an effort to meet the demand in the republic that the government take steps to reduce the cost of living has encouraged producers on the Pacific Coast to believe that similar action might be brought about in other South American countries, where prohibitive tariffs have kept these American products out of the markets.

Commercial organizations are taking the lead in a campaign to show South American representatives in the United States the desirability of bringing food prices in their own countries down by this method.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

To see the healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside bathing every morning for a week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a fine appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to demonstrate that those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges or whose skin is sallow or pallid, that one week of inside bathing will have them looking and feeling better every way.
