

CLEAN CUT STATEMENT

FROM THE MANAGEMENT OF THE

Warren Hunt Hospital Pharmacy TO THE PUBLIC OF KLAMATH FALLS

NOW OPEN

There Are Three Reasons
On Which We Base
Our Claims For Your
Patronage

FRANK B. ROBINSON

DR. JOHN MILLS

They Are As Follows:

Reason No. 1

WE HAVE EQUIPPED IN THIS CITY what is recognized to be the Greatest Exclusive Drug and Prescription Pharmacy on the Pacific Coast. There are only four such pharmacies in the West. One in Los Angeles, San Francisco, Portland and Klamath Falls; and those who have seen them all are unanimous in their opinion that this one is the best equipped. Expense has not been spared in the slightest detail. For instance, we have the most expensive and most accurate pair of prescription scales in any pharmacy in the State of Oregon. So it is right through the whole pharmacy. It is not possible in the west (or in the east for that matter) to obtain a higher class Drug and Prescription service than one may obtain here.

Reason No. 2

*There will be Absolutely No Profiteering Allowed
in this Pharmacy.*

We are entitled to a fair legitimate profit, and this we shall charge. But no more. This pharmacy will be conducted according to the plan of every high class exclusive pharmacy, and the management will allow no one to dictate its policy at all. We are here to give this city the most up-to-date Exclusive Drug and Prescription service in the West, and that is what we shall do. We keep everything that any high class pharmacy keeps, but have barred absolutely all notions, sundries and patent medicines. We do this because we cannot allow anything to enter here which might in any way interfere with the straight, clean drug business. On the other hand, every single thing you can think of, if it is a legitimate surgical or medical supply or drug, may be obtained here, and of course it will be the very highest that money can buy.

Reason No. 3

This Pharmacy Will Never Close

IF YOU ARE SICK IN THE NIGHT, you will find this pharmacy open, and furthermore deliveries will be made anywhere, either day or night. This is only one of the advantages of this pharmacy. We will call for and deliver your prescriptions. We will send anything anywhere at any time. We will put ourselves out to accommodate you and please you. In fact we will give you such a service that you will be glad to avail yourselves of it. Almost any physician in this city will be glad to see you getting your prescriptions filled here, as they all realize the true value of a pharmacy of this kind. Now in conclusion, let me personally invite you to call and see for yourself just what kind of a pharmacy this is. We have made no false claims and can substantiate every statement we have made.
