FROM HERALD—MARCH 3

### HOME INDUSTRY

When purchasing windows, doors, cabinet work or other manufactured lumber products, we ask you to consider the importance of buying the product of Klamath Falls workmen and thereby contributing to an increase in the home payroll.

Consider whether your money is going toward the support of workmen who live and spend their money in Klamath Falls, where your interests lie, or to workmen who live and spend their money in Portland or Sacramento, where you have no interests. When you buy our products, every dollar you spend stays in Klamath Falls. Not one dime of the money you send to Portland or Sacramento ever comes back to Klamath Falls.
