

# Do You Know

## WHAT WE HAVE? WHAT WE NEED?

UNDER THE DIRECTION OF THE RED CROSS THE CITIZENS OF KLAMATH FALLS ARE UNDERTAKING A THOROUGH STUDY OF THIS COMMUNITY. THE AIM OF THIS SURVEY IS TO LEARN WHAT WE HAVE AND WHAT WE NEED ALONG THE FOLLOWING LINES:

HEALTH - SANITATION  
RECREATION - HOUSING

INDUSTRY - DEPENDENCY  
DELINQUENCY

### City Organization and Activities

Thousands of dollars are spent annually in this city for health. Thousands of dollars are lost because of sickness. Is this necessary?

How many houses does Klamath Falls need? What kind of houses are needed? In what districts are they needed?

How much money is spent each year by the county, benevolent organizations, and individuals in giving relief to the needy? Is this money wisely given?

How many juvenile offenders are there in our city? What causes delinquency among children?

Do we have any industrial problems? What are they? What are the causes?

Where do our children and grown-ups play? Do we have enough places of amusement? Are we getting the kind of recreation we want?

Every city in the United States is facing these problems. Every wide awake community is making an effort to solve them. There is not a man, woman or child in Klamath Falls who is not vitally affected by one or all of these problems.

Your judgment will tell you that it is good business to make a thorough, scientific study of local conditions before attempting to solve our civic problems.

Other betterment movements have failed because the FACTS WERE NOT KNOWN and so the interest of ALL the people could not be aroused!

The SOLE OBJECT of this survey is to find out just WHAT WE HAVE and WHAT WE NEED so that plans for future betterment can be scientifically made.

YOUR co-operation is absolutely necessary if this SURVEY is to be a success, and on its success depends the worth of the recommendations for Betterment!

## We Must Have the FACTS Before We Can Act
