### AT THE THEATERS

You'll enjoy "Courage for Two," the new Carlyle Blackwell-Evelyn Greeley World picture, which will be shown at the Liberty theatre tonight. It is a picture with a punch, and it is entirely different from the usual run of motion pictures. Furthermore, it is just the sort of a picture in which the film patrons like to see Mr. Blackwell and Miss Greeley—speedy, lively, happy and interesting in every foot of the film.  
Gladys Brockwell in "Thieves," the new William Fox production coming to the Liberty theatre on Tuesday gives promise of one of the strongest photoplay features of the year. "Thieves" tells the story of Maxie and Jimmy, tools of a gentleman crook, pals whom love lifts out of the depths and sets on the straight and narrow path to happiness. The story indicates a play worth while and a role peculiarly fitted to Miss Brockwell, one of the cleverest of emotional stars.

### CENTURY OLD BEEF FAMILY HEIRLOOM

ANN ARBOR, Mich., Mar. 29.—A piece of beef cooked in 1805 is still being carefully preserved in a little silver pitcher by Edward B. Manwaring of this city. This is not being kept in anticipation of a further increase in the cost of beef, but is a genuine heirloom.  
Sergeant Joseph Hobbins of the British royal marines saved this piece of beef, which he was eating when assaulted with an axe by a cook on a French vessel which had been captured by Lord Nelson at Trafalgar. The cook missed his aim but the sergeant got the beef.  
Sergeant Hobbins was the great-grandfather of Lieut. Colonel Edward B. Manwaring of the U. S. marine corps, son of Mr. Manwaring of this city. This officer is said to be the only member of the United States marine corps who is a direct descendant of a former royal marine of Great Britain.

# CHANDLER SIX

Famous For Its Marvelous Motor

## Chandler Leads. Because of Its Real Worth

It is easy to boast and make claims and to so magnify mere incidents that they may appear as mighty events. It is easy to paint in the colors of exaggeration.

Chandler advertising has never carried boasts or unfounded assertions to the public. It has never extolled some single performance as final evidence of superiority.

The Chandler Six is so distinctly the leader among medium-priced high-grade cars because of its own worthiness, which for sales purposes does not need the support of exaggeration.

Chandler worthiness comes primarily, of course, from its great chassis, light, strong and enduring, featured by the famous Chandler motor developed throughout seven years of constant manufacture with no change of type of design, but with refinements and developments which have kept it long strides ahead of any other six.

This isn't a claim. It's a fact, and over sixty thousand Chandler owners would tell you so if you could ask them.

Six handsome bodies, splendidly built and finished, are mounted on the one standard Chandler chassis.

Other cars of some similarity are listed at hundreds of dollars more

- SIX SPLENDID BODY TYPES**  
 Seven-Passenger Touring Car, \$1895      Four-Passenger Roadster, \$1895  
 Four-Passenger Dispatch Car, \$1975  
 Seven-Passenger Sedan, \$2895      Four-Passenger Coupe, \$2798      Limousine, \$3395  
 (All Prices f. o. b. Cleveland, Ohio)

## MINE-OWNER WAS NATION WIDE FORCED TO QUIT CAMPAIGN FOR BETTER ROADS

**Tonopah Operator Moves to Coast Seeking Health—Takes Tanlac and Will Return Home a Well Man.**

"I was forced to give up my mining business and move to Los Angeles seeking health, but thanks to Tanlac I am going back a well man," said William H. Hart, who owns the Vindicator-Divido mine in Tonopah, Nevada.

"For nine years," he continued, "I suffered terribly from indigestion, my appetite was poor and everything I ate would cause so much gas in my stomach that I would be drawn almost double with pain. I got so nervous I couldn't write a letter and even the wind blowing around the house at night would upset me so I couldn't sleep. I lost 40 pounds in weight and finally had such bad attacks that I couldn't stay on the job another day. I just gave up and came out here, but the change, like all the treatments I had taken, seemed to do me no good at all.

"One day a friend recommended Tanlac to me and I will never be able to thank him enough, for now after taking four bottles I feel like a new man. I eat three hearty meals a day, my nerves are as steady as a rock, I sleep like a child at night and I am going back to my mines feeling fit and fine in every way. I am glad to have a chance to tell other people what a great medicine Tanlac is."

Tanlac is sold in Klamath Falls by the Star Drug Co., in Lorella by the James Merc. Co., and in Merrill by the Southern Oregon Drug Co.—adv.

WHEN YOU WANT ANYTHING in a hurry advertise for it here.

CHICAGO, Mar. 27.—Despite the fact that the United States has 7,000,000 motor driven vehicles in operation—leading the world in this respect—motorists will be surprised to learn that but 12 per cent of roads in this country are surfaced. Out of an estimated total of 2,478,552 miles of public rural roads, only about 299,135 are surfaced or improved. Indiana shows the greatest percentage of improved highways, 42.5 per cent of its roads being surfaced, based on the last available figures of 1918.

That there is a great need for good roads can be deduced from the increased tendency for long distance hauling by motor truck and particularly by the fact that 60,000 employees of the United States post-office department travel 1,400,000 miles daily in delivering mail on rural routes.

With an estimated 1920 production of 1,500,000 automobiles, the need for better highways is evident. That this fact is recognized by states and municipalities is shown by estimated appropriations of \$600,000,000 to be spent on hard-surfaced roads during the year.

In 1918 approximately 11,944 miles of roads were improved in this country and the enormous sum of \$34,974,000 was spent on maintenance. More than \$20,000,000 have been spent on the 3,320 miles of Lincoln highway between the Hudson river and San Francisco in the last six years.

better roads, the Goodyear Tire & Rubber company has created a new department to be devoted entirely to this work. It is in charge of C. M. Wood, who is exceptionally well qualified for the work. This department will gather data on the cost of good roads, methods of taxation and other valuable information necessary before legislatures can frame and pass good roads legislation.

So great is the interest of F. A. Seiberling, president of the company and former head of the Lincoln Highway association, that the new good roads bureau will have the aid of all Goodyear salesmen and much educational literature to help create public sentiment toward improvement of all roads in the United States.

## The Great Saving IN BUYING

# M·J·B

"The Quality Coffee of America"

in the FIVE pound vacuum packed can, is realized more and more by the thrifty housewife everywhere.

First in Flavor—Unsurpassed in Quality and Economy.
