Maibohm

Pep—As fleet as a deer

and as nimble, Maibohm craves the freedom of the open spaces where the rush of wind in your ears expresses Maibohm's disdain for miles. The joy of the vibrationless onward motion is accentuated by cinky cushion comfort and lulling spring action. Matching your every whim, Maibohm will throttle smoothly to a tortoise-like crawl yet ever watchful for permission to go. A thrilling companion—good to look at—is Maibohm.

HE'S PEPPY WORKER I AMERICAN LEGION

PASS THE APPLES

These lines are attributed to a convicted man who recently spent a short term out of prison and found there had been a decided change in women's fashions since he had been incarcerated. When every pool in Eden was a mirror Which upon Eve her dainty charms proclaimed. She went undraped without a single fear Or thought that she had need to be ashamed. 'Twas only when she had eaten of the apple That she became inclined to be a prude. And found that evermore she'd have to grapple. With the much-debated problem of the nude. Therefore she devoted her attention. Her time and all her money to her clothes. And that was the beginning of convention And modesty, as well, I suppose. Reaction's come about in fashions recent, And now the girls conceal so little from the men, It would seem in the name of all that's decent. Some one ought to pass the apples round again. —Ex.

In ancient Athens girls lived in the strictest seclusion till their marriage, kept virtually under lock and key. They were seldom permitted to leave their homes, except on some great festival occasion.

The words and music of the Transvaal national hymn were composed by a Dutch woman, Mlle. Catherine Felleie van Rees. Women are now admitted to at least six of the medical colleges in India.

Elasticity--- Durability

Constantly increasing loads by motor truck present new problems in road construction. The road today must have elasticity to withstand the impact of heavy traffic. If the road is rigid it cannot be durable. Elasticity and durability are the qualities that make roads permanent when paved with

Men Who Respect Their Word.

Men of the right type have respect for their word. They treat a verbal promise as binding. Contracts to them are sacred things not to be broken so long as it is possible to keep them. They do not treat their notes with greater respect than they do their purposes in life. To them every step is taken with a view to realizing an ideal. Consequently they do not enter agreements rashly nor make promises promiscuously. Life is a real something that brings joy only as it contributes to the general good. This may seem a little too straight-laced when you first read it but you will see the truth in it as you ponder its meaning.—Grit.

Only Boys Throw Stones.

A stone thrown through the window of a moving railway train and wounding the passenger with broken glass, leads the Lancet (London) to say "It was presumably thrown by a boy; the fusion of the sexes has not yet got to the point of producing a girl who can throw a stone. Throwing seems to be a natural impulse in boys, or rather, we should say, the desire to hit a moving body with a missile is universal among them, but the impulse should be guided in the direction of wickets rather than trains."

Forests Small in Italy.

The total area of Italy, including the islands of Sicily and Sardinia, consists of about 71,500,000 acres, which is equivalent to the combined area of the states of New York and Pennsylvania, Massachusetts, Connecticut and New Jersey, says the Forestry Magazine of Washington. Within this comparatively small area, a population of 36,000,000, more than equivalent to one-third of this country is congested. Of the total area of Italy, only 17.64 per cent is now covered with forests.
