After Dempsey

Europe wants to see world champion Jack Dempsey defend his title against Georges Carpentier. French champion Both English and French sport promoters started bidding in big figures for the event. Immediately after Carpentier had broken out Joe Beckett, British champion. Now comes Charlie B. Cochran to the United States to personally and Dempsey for the bout to be staged in London. He has already signed Carpentier.

PORTLAND PLANS TO CARE FOR MOTORISTS

PORTLAND, Apr. 1.—It is expected that hundreds of northwest citizens will want to drive their cars to Portland for the big Shrine convention and rose festival week, June 20 to 26. It is a good scheme. They can park their cars in one of the fine camping spots that Portland is arranging if they do not find suitable hotel accommodations. However, Portland citizens are already opening their homes to give visitors sleeping quarters and those who are sure they are going from this city should get in touch with the Shrine committee, 802 Gasco building, to make room reservations.

The northwest is going to get a wonderful lot of advertising out of this convention if it is handled right, and to that extent all the northwest is interested in helping Portland put over the big show. Doubtless the Portland committee would like to have all these automobile owners volunteer their cars while at Portland so that visitors might be shown the city and adjacent country. Such an action would show a friendly interest in the chief city of Oregon and it might help the auto owner to get an "official car" sign to hang on his machine. Those signs usually give the auto right of way anywhere.

The Shrine convention, followed by the annual rose festival, easily make June 20 to 26 the greatest show week the northwest has ever seen. It will be a kalaidoscope of beauty on the streets of Portland during the entire six days.

SWEDEN IN LEAGUE OVER PROTEST

STOCKHOLM, Mar. 3.—(By Mail)—Sweden's recent decision to join the league of nations was not reached without opposition in parliament. Conservatives fought the proposal to join on the ground that it would mean surrender of the country's independence. They declared that articles 12 to 17 would compel Sweden to take military measures against any power which the league considered to have opened hostilities without due cause. The army and navy chiefs asserted that adherence to the league would not contribute to the country's military or political safety; but that it

would impose responsibilities and burdens for which the guaranteed support of the league would not compensate. Apprehensions were expressed that Sweden's adhesion would prevent the nation from radically decreasing its military budget. Judge Hellner, the minister of foreign affairs, who introduced the government's bill, said that the league would considerably diminish the risk of wars in Europe and the rest of the world. Sweden, he added, would continue to maintain a policy of absolute neutrality.

FARMING PLANS PAY

In farming it is as important as in any other business to have a plan of operation for the year and then work to the plan, says the Columbia Farm Bureau News. A good plan is to divide the farm up into plots and indicate the number of acres given over for different crops. Then look over the market reports for the past few years and get an idea of the most profitable crops to grow. It is believed that the staple crop for the next two or three years is sure to bring high prices.

A. E. F. SET FINE RECORD FOR HONESTY

SAN FRANCISCO, Apr. 1.—Besides hanging up records as fighters, Uncle Sam's expeditionary forces in Europe set another mark that they may well be proud of, according to Albert G. Bagley, director of western department war activities, K. of C. During the overseas service of the Knights of Columbus, secretaries of the organization loaned to the fighting men upwards of \$300,000, according to figures announced today by Lawrence O. Murray, overseas commissioner of the knights. And of that huge amount, made largely in small loans, all but \$500 was repaid. Murray is confident that the loss of even this small amount was due to the borrowers being killed in action before they could repay their loans.

MARNE MEMORIAL POSTER

JUST as the school children of France gave for their country's gift to the United States—the Statue of Liberty—so will American school children contribute "one cent and upward" for "America's Gift to France," a monumental statue by Frederick MacMonnies, the noted American sculptor. Mr. MacMonnies is contributing his services toward the monument which, it is estimated, will cost \$250,000.

The poster shown herewith, is by Albert Sterner, noted American portrait painter. It typifies the tribute which this country will pay to the French through the Marne monument. The poster will be displayed in cities, towns, and villages, and will designate many of the places where contributions may be made during the week of March 22—a free-will offering, in which numbers of contributors, rather than size of contributions, will be sought from school children and others. Contributions are now being received at National Headquarters, 150 Nassau street, New York, by Charles H. Sabin, president of one of New York's largest trust companies, who is treasurer of the fund. The memorial will be erected at
