SAYS LABOR TROUBLE HAS JUST STARTED

LONDON, Apr. 6.—"America's industrial troubles are only beginning," said W. T. Griffiths, of the Iron and Steel Trades confederation, who has just returned from a trip to America, to a news agency interviewer.

"I have been most impressed with the dire lack of machinery in America for settling industrial disputes, especially in the iron and steel trade," he went on. "In that respect we are years ahead of America." Mr. Griffiths added that he found general chaos in every industry.

Far of American competition, he continued, was more fictitious than real, and he was thoroughly convinced that England had a wonderful opportunity for recovering its former position in the foreign markets.

"In one thing America excels," Mr. Griffiths concluded. "The output of their steel mills would be al-

BRAZIL WILL NOT MEDDLER IN EUROPE

RIO DE JANEIRO, Apr. 6.—Brazil's refusal of the supreme council's recent offer of representation on the Saar valley commission under the league of nations is understood to be part of the Brazilian government's policy of keeping aloof from purely European affairs.

The Russian likes no sleeping place so well as the top of the big soapstone stove in the dwelling, and, crawling out of his blistering bed in the morning, he delights in taking a plunge in a cold stream, even if he has to break through the ice to do so.

Klamath Falls and Vicinity is justly conceded to be the most progressive community ever. We are proud of our business concerns, the large and complete stocks of goods carried; the excellent arrangement of the stores; the quality and variety of goods handled; the effort and expense every business displays, to give the best service possible—nowhere can people get better service or receive more special attention than right here in Klamath Falls. If you don't believe it you should try some of the other cities, under present conditions. For example, the Link River Battery Station at 7th & Klamath Ave. have one of the best equipped Willard Storage Battery service stations on the coast, and by far in advance, with any comparative size city. Automobile owners are assured the best of service, regarding their electrical equipment, on their cars, there being an expert on repairing batteries and another expert on repairing starters, generators, wiring, etc. Still another expert to inspect, test and fill your batteries with distilled water. No expense has been spared in selecting, planning and arranging the building or providing the latest instruments, tools and equipment to produce efficient work, and procuring the best trained experts in their respective lines as mechanics, which is bound to give the motor public service unexcelled anywhere.—Right here in Klamath Falls.

Club Woman Writes Following Letter

No one can doubt the word of a person who has suffered with rheumatism for seven years and then endorses a remedy claiming that it has cured her of this ailment. A person who has suffered for that length of time and even gets relief is very grateful to the remedy used. Mrs. Augusta Boyd who lives at 539 Castro Street in San Francisco is the lady referred to above. Mrs. Boyd made the following statement:

"I suffered with rheumatism for seven years and the pains at times were very severe. My joints were so swollen that I was afraid the swelling would become permanent and cause total disability. Anti-Uric cured me in a very short time. I will always recommend it to all that I may come in contact with as the only remedy for rheumatism. I am willing for you to use this endorsement in any way to let others know that Anti-Uric will cure them of their rheumatic condition."

Mrs. Boyd is prominently connected with several organizations in San Francisco and has a host of friends and acquaintances who knew of her trouble and that she is free from it now. We do not claim that Anti-Uric will cure everything but for rheumatism it is the one best remedy. It is made from herbs only and contains no miners of salicylates and can be taken by people with the most delicate organisms. Get an outfit of Anti-Uric today and give it a trial. It will not disappoint you and if you are not pleased with the results your money will be refunded. Get an outfit from the Star Drug Company today and give it a trial.

DRYEST YEAR YET

SALEM, Ore., Apr. 6.—Oregon irrigationists are threatened with the driest season on record, according to Percy A. Cupper, state engineer. Cupper has asked water users to cooperate in the equitable distribution of the depleted supply of water.

'DRY' TICKET DEPENDS ON OLD PARTIES

CHICAGO, Apr. 6.—Whether the prohibition party will nominate a candidate for the presidency and take an active part in the coming presidential campaign depends upon the attitude of the major parties toward the strict enforcement of prohibition, says Virgil G. Hinshaw, of this city, chairman of the party.

There has been considerable speculation among political observers as to whether the prohibition party would or would not continue its political activity now that prohibition has become a constitutional enactment. Questions have been asked whether the prohibition party leaders would feel that the party's object had been attained and the time at hand when prohibitionists might return to or become affiliated with one or the other of the major parties.

Chairman Hinshaw believes the battle is not over; that the fight for enforcement of prohibition is still to be won.

"Our organization," he declares, "will continue as long as the alcoholic serpent continues to wiggle its tail." Concerning the party's attitude in the presidential campaign, Mr. Hinshaw said its policies to be enunciated in its national convention at Lincoln, Neb., July 12, would depend entirely upon the action taken at the conventions of the major parties.

"If the major parties fail to come out unequivocally for strict enforcement of existing dry laws we will certainly run a prohibition candidate for president," said Mr. Hinshaw.

"Of course, it is up to the convention whether we will or will not run one anyway. But if the major parties fail to enforce not only the 18th amendment but existing prohibition laws as well, I believe there will be break-ups that will bring many of their voters and their big men to our side.

As to the party's probable action concerning lesser candidates, it is said that it "will seek the election of representatives in congress, governors, members of legislatures and others who are charged with the enforcement of the dry law."

Ernest H. Cherrington, of Westerville, O., declared that the Antisaloon League, of which he is secretary, will work to defeat candidates who are avowedly opposed to prohibition enforcement.

HONOLULU TEACHERS WANT SALARY RISE

HONOLULU, T. H., Mar. 25. (By Mail).—The territorial department of public instruction will ask the legislature at its special session expected to be held late in April or early in May, for a 25 per cent increase in salaries of teachers in elementary and high schools and 10 per cent increase in the salaries of principals in elementary schools.

The proposed increases would add \$35,000 a month to the payroll, the department announced.

Salaries will be sought for 108 additional teachers to care for the rapidly growing school population. This would add another \$13,000 or more to the payroll.

DO NOT TASTE TAINTED FOOD

STANFORD UNIVERSITY, Cal., Apr. 6.—Use your eyes and your nose, and never under any circumstances your tongue to determine whether any canned food is fit to eat, is the advice of Dr. Ernest C. Dickson of the Stanford medical school, who is investigating botulism, the poison which has recently caused deaths among people eating canned food products.

The bacillus of botulism is destroyed by heat and there will be no danger from this source if canned foods are boiled before they are eaten, according to Dr. Dickson, who said this is the sum and substance of what science can tell the general public for its protection.

The Stanford university medical school laboratory under Dr. Dickson in co-operation with the Hooper medical foundation of the University of California, with Dr. Karl Meyer in charge, is conducting an extensive investigation of the methods of food preservation. This investigation is being financed by canning interests.

In 1913 there was an outbreak on the Stanford campus that was quite clearly the result of home canned string beans eaten as a salad. This started the medical school of the university on a careful study of the whole question.

In most cases of botulism in the United States the source has been home canned vegetables, the great majority of these cases being on the Pacific coast. Botulism, however, was known in Europe many years ago and was then attributed to meat poison.

1920 BERRY CROP ALL UNDER CONTRACT

VICTORIA, B. C., Apr. 6.—Contracts for the entire 1920 small fruit and berry crop of the Frazer River valley have been offered by canners, E. B. Barrow, provincial minister of agriculture announced. The estimated crop will be 400 tons under the demand, according to Mr. Barrow.
