

DO YOU KNOW THE ADVANTAGES OF A FIRST NATIONAL SAFE DEPOSIT BOX?

WELL in the first place it affords you a safe place to keep your valuable papers under lock and key, behind steel and concrete.

YOU have access to your Deposit Box whenever you desire, but no one else can get in it. Your papers are therefore removed from prying fingers and curious eyes.

IN it should go your Deeds, Notes, Warrants, Contracts, Abstracts, Insurance Policies and other important papers.

THE YEARLY RATE OF RENTAL IS VERY SMALL.

At Home or Abroad
—the church stands back of civilization

THE Presbyterian Church has always been forward in evangelism and social service. It seeks to turn men to God and to uplift life in every community it touches.

Teaching and preaching amid the snows of the Arctic and the jungles of Africa—
Tending the sick on five continents—a colossal Samaritan ministering to suffering humanity in super-saturation-ridden regions, where the only hospitals are church-maintained—
Teaching India's millions to impound their waters against coming drought, showing Brazil how to plow its land, and combating Bolshevism in the mines, lumber camps, and congested areas of cities—
This is how the Presbyterian Church is helping to make a better world.

Every Presbyterian adherent is a partner in this magnificent enterprise. What can the church count upon from you in the financial canvass April 25 to May 2?

Attend the nearest Presbyterian Church if you have no regular place of worship

GLORY OF OLD SEAPORT GONE

WASHINGTON, Apr. 7.—Hamburg today may be described as an imposing monument to the dead glories of the German merchant marine, according to Consul Francis R. Stewart, who was detailed by the American commission in Berlin to investigate conditions at the former premier German port for that body. A report from Mr. Stewart detailing the results of his inquiry has just reached the department of commerce.

"A short trip through the harbor quickly discloses what a graveyard the port has become," the consul reported. "Tugs and lighters are tied up here and there, apparently forgotten. One small cruiser rests, deserted, alongside a pier; electric cranes are motionless on unused docks; floating elevators and docks are moored in rows, probably in readiness for delivery to the allies."

"The giant Blamarck (56,000-ton Hamburg-American liner) floats at a fitting-out pier without a sign of life on board and from a launch no new work could be seen in any of the big shipyards. Tied up to another pier in the outer harbor is the former Atlantic record-holder, the steamship Deutschland, relic of the war, painted a deep black over-all, with spots of white showing here and there where passing craft have scraped her sides, a grim reminder of the glories once held by the German merchant fleets."

Regular service is being maintained with Holland, England and North America and lines were about to start service for Spain and South America, but the "free port" is apparently dead, Mr. Stewart reported.

APPEARANCE IS VITAL FACTOR

OREGON AGRICULTURAL COLLEGE, Corvallis, Apr. 7.—Personal appearance is of vital importance to a young woman in the business world, according to Miss Helen Lee Davis, head of the department of household art. Keen business men assert that personal appearance is one of their determining factors in choosing employees from large numbers of applicants.

"By experience and observation," says Miss Davis, "employers have found personal appearance to be an accurate indicator of the working habits, ability, state of mind and attitude toward life of employees. Young women with a careless, hurriedly gotten together appearance have been found to be restless, to have disorganized habits of thought and of work, to lack punctuality and care in details, and to be generally inefficient, whereas the person neatly, appropriately and becomingly groomed possesses exactly the opposite qualities. She is thorough, methodical, accurate, painstaking and dependable."

TEXAS COTTON IS MENACED BY PEST

GALVESTON, Tex., Apr. 5.—The cotton industry is facing prospects of a loss of \$129,000,000 annually through the pink boll worm pest, according to a report by entomologists of Texas A. & M. college, to the Texas chamber of commerce here.

"If Texas does not take prompt steps to eradicate this pest other cotton-growing states will impose a rigid quarantine against Texas cotton products," Walton Petzet, manager of the agricultural department of the chamber of commerce said, in making the report public.

"Infestation has been found in Louisiana just across the Texas line. Rigid quarantine measures have been taken."

"The pink boll worm appeared at Hearne, Texas, in 1917. The pest was entirely wiped out by abandoning cotton cultivation for two years."

"In Mexico the annual loss from the pink boll worm is 20 per cent of the crop; in Hawaii 50 to 90 per cent. In Egypt the yearly loss is \$15,000,000."

"If you want to know whether you are destined to be a success or a failure in life you can easily find out. The test is simple and infallible. ARE YOU ABLE TO SAVE MONEY? If not, drop out. You will lose. You may think not, but you will lose as sure as you live. The seed of success is not in you."—James J. Hill.

PRICE OF MICE HAS SLUMPED

NEW YORK, Apr. 7.—A big slump in the mouse market is reported from Columbia University where large stocks of the little rodents are used for experimental purposes. Quotations for mice have fallen far below pre-war levels and many breeders have been forced out of business, according to Dr. Francis Carter Wood.

Hosts of mice were required during the war for medical experiments and high prices offered for them by the government stimulated the breeding of these animals. When the armistice was signed the breeders were caught "long" on mice and they found themselves carrying a heavy overload of a useless commodity.

This situation in the mouse market is disclosed in Dr. Wood's annual report as director of the George Crocker Special Research Fund, made public today. This fund was created to conduct scientific cancer investigation and many mice not used for experiments at Columbia University are shipped to other laboratories. As one means to reduce the surplus, the directors of the Research Fund have attempted to ship some of the mice to the Pathological Institute of the Imperial University of Tokyo.

In Germany the children are taught if they are good and mind their parents, and are truthful and kind to one another, a white hare will steal into the house on Easter eve, when everybody is asleep, and secret any number of gayly-colored eggs in the corners of the room. A search in the morning soon reveals a nest filled with Easter eggs.

We Believe--

a good dependable Electric Service is one of the important factors in community building—

WE BELIEVE it is a valuable asset to a community to be able to offer reliable Electric Service at an attractive rate to industries seeking location—

WE BELIEVE this asset is a direct benefit to every citizen of that community—

WE BELIEVE the responsibility is delegated to the Serving Utility to make every reasonable effort to insure adequate and reliable Service for all purposes required within its territory—

WE BELIEVE the mere name of the Company serving is not material—the value lies in the actual Service rendered.

COMBINING LARGE ENGLISH STORES

WASHINGTON, Apr. 7.—Amalgamation of department stores in England is noted in official trade reports received here as the latest development of a tendency toward combination in each branch of England's national industries. Big stores, especially those in the more important cities, are combining through purchase or consolidation and already it has become apparent to some observers that business soon will be concentrated in the control of a few big interests.

The American Chamber of Commerce in London reports that one of the largest department stores of that city recently absorbed three competitors and has branched out in South America through the opening of a large establishment in Buenos Aires.

"The value of advertising as a selling force is becoming more realized in England," the report said. "This movement towards amalgamation is not expected to destroy competition, though it may tend to narrow its scope."

RAILROADS HEAVY BUYERS OF LUMBER

PORTLAND, Apr. 7.—According to a bulletin just issued by the West Coast Lumbermen's association, the 128 mills represented in its report made total rail shipments last week of 2248 cars, or over 67,440,000 feet, and new business accepted was 83,416,608 feet, of which 61,950,000 will move by rail and 2,246,819 will be delivered locally. Of water shipments, 10,236,034 feet will be export-

ed and 8,983,755 feet will go to domestic markets.

The report says:

"Railroad buyers continue among the most active factors in the lumber trade. They are making heavy purchases regularly. While railroad business is brisk, demand for yard stock and material for industrial construction continues good."

"As a result, mills are maintaining a high average of production. The cut at 128 mills for the week ended March 27 was 86,373,705 feet, which was only 4,296,295 feet, or 4.74 per cent below normal. The prospect for export business is particularly promising."

"The car situation has not changed in the last few weeks. In the last four years the freight traffic of the railroads has increased 45 per cent, according to late estimates, but the supply of engines and cars has increased only 2 per cent."

"The mills are doing all they can to satisfy the insistent calls of eastern and middle western markets for lumber. The 128 mills represented in the report have a balance of 16,476 cars, or 314,280,000 feet of unfilled rail orders on their books."

MORE IMPORTS OF MEXICAN OIL

GALVESTON, Tex., Apr. 7.—The oil import trade through this port continues to increase.

Figures made public by the Galveston customs house show that at present 97 vessels, including tugs and barges, aggregating 196,868 net tons, were engaged in coastwise and foreign oil commerce during the month of February. During January, 79 vessels were in the oil-carrying trade.

One billion dollars represents about 4,000,000 pounds of gold, or 2,000 tons. Four hundred five-ton trucks would be required to transport this sum, and they would form a line about four miles long.

JEWEL CAFE

Take Breakfast here if you must "eat out." We serve the most deliciously fragrant and flavored coffee, the lightest of griddle cakes, the freshest of eggs, rolls, etc.

No matter if you have breakfasted because you thought you had to eat something. Breakfast here and you'll do so because you'll like to.
