QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts if your Back hurts or Bladder troubles you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

POISONS FOREST RATS

PRINEVILLE, Ore., Apr. 8.—V. V. Harper, supervisor of the Ochoco forest, has just been given the task of mixing 3,300 pounds of poison oats for the extermination of rats in the forest.

Farmers of the forest reserve are buying the poison from the supervisor. The "poison fund" is revolving as the money taken in on sales is used to purchase more poison.

STILL JOE CANNON WITHOUT STOGIE

Thomas Shea, retired railroad man of the Pennsylvania Lines, now living at Indianapolis, Ind., proves that every man has a "double." All his life Mr. Shea has been mistaken for "Uncle Joe Cannon, Illinois congressman and national figure. Even without "Uncle Joe's famous" black stogie, Mr. Shea, as pictured here, bears out the claim.

RUSS WIFE HAS TO KEEP HUBBY

LONDON, Mar. 22. (By Mail).—A Russian wife is required to support her husband if she is able to do so and he is unable to work and in need of her support, under the marriage laws of Soviet Russia. A copy of this code, translated into English has just reached London from the Russian people's commissariat of justice.

It provides that married persons shall be expected to support each other. Should one refuse and the other be what is classed as a "needful," unfit to work, the latter has the right to apply to the department of social security to compel the husband or wife, as the case may be, to pay support.

Mutual consent of husband and wife or merely the desire of one of them to be freed from the other may be considered as grounds for divorce. Local judges are authorized to hear divorce cases but their decisions are subject to appeal.

The matrimonial age is fixed at 18 for men and 16 for girls. Both must be of sound mind and mutually desirous of marriage. Differences of religion or vows of celibacy are no impediment. Married persons may choose to bear the surname of the bride or of the bridegroom or their joint names. Marriages contracted in accordance with religious forms are not binding unless the union is registered under the prescribed form of civil, or Sovietist marriages. Old forms of marriage law or, as it is termed, "the legalized forging together of men and women," are abolished.

Under the laws of succession in the Soviet, none but the "needful" and the state may inherit property. The estates of emigrants and of rebels are subject to confiscation by the state.

The weaving of a genuine cashmere shawl of ordinary pattern occupies three weavers for three months, and the more elaborate and costly, from 12 to 15 months.

Before the war only 345,000 persons held British government securities; the number now is 18,000,000.

RENT PROFITEERS CURBED BY LAW

Governor Calvin Coolidge, recently re-elected on a "law and order" platform in Massachusetts, has won additional favor in the eyes of home renters of that state by signing a bill which makes it unlawful to profiteer on rents for homes—and punishable by law.

OVER TWICE AS MANY TO EDUCATE BUT ONLY HALF AS MUCH MONEY TO EDUCATE WITH

That is why the Oregon Agricultural College, the State University, and the Normal School cannot maintain themselves on the old basis. In 1913 they

HAD ONLY 2,250 STUDENTS, BUT THEY NOW HAVE 5,400 STUDENTS

In addition, their income in 1913 had twice the buying power of their income in 1920, due to the worldwide rise in costs over which of course they could have no control.

The foregoing is one of many equally good reasons why you should vote for the Higher Educational relief bill at the election on May 21. Save the quality of higher education in Oregon, and give YOUR boy and girl, and YOUR NEIGHBOR'S, their rightful educational heritage.

AT THE THEATERS

Alice Lake, Jack Mulhall and Frank Currier head the cast of the Screen Classic, Inc., all-star special photoplay, "Should a Woman Tell?" from the story by Finis Fox, which will be shown at the Liberty Theatre Friday.

As the title implies, the picture is a dramatic depiction of the struggle within a woman's heart between her desire to confess her whole past to the man she loves and her fear such confession may cost her his adoration. The heroine of the story is Meta Maxon, a fisher girl in a little village on the Massachusetts seacoast, transplanted by circumstances seemingly kindly at first. What occurs after her introduction to Boston society under the sponsorship of Miss Clarissa Sedgwick constitute the item of Meta's past of which she dare not speak later to the man she is to marry, yet which she feels she must not conceal in fairness to him.

Direction of "Should a Woman Tell?" was done by John E. Ince, the excellent photoplay by Sol Polito and unusual artistic effects have been achieved by his co-operation with the special art director, Amos Myers. The production was supervised in entirety and personally by Maxwell Karger, director general of Screen Classics, Inc.

The setting of the piece for the most part is in the village where Meta was born and lived until the advent of the Bostonian society woman who takes an immediate fancy to the young girl and forthwith determines to do all within her power to improve her condition of life. This Miss Sedgwick accomplishes by sending Meta to a fashionable finishing school and later bringing her out as she would have her own daughter. This precedes the incident which later was to bring to the girl the necessity of deciding her terrific soul problem.

"The Westerners," which will be seen at the Liberty Theatre on Sunday, is the first of a number of Stewart Edward White's famous novels of the great American outdoors to be pictured by Benj. B. Hampton, for Great Authors Pictures, Inc., with all-star casts, and the noted author himself assisting in the production.

By a new invention, it is possible to speak a message into a telephone receiver and have it recorded on a phonograph record at the other end of the line.

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash poisons and toxins from system before putting food into stomach.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food taken into the stomach nearly an ounce of waste material must be carried out of the body. If this waste is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts, which should suck only nourishment.

A splendid health measure is to drink, before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the alimentary canal before eating more food.

A quarter pound of limestone phosphate costs but very little at the drug store, but is sufficient to make anyone an enthusiast on inside bathing.
