**HARD ON SPEEDERS**

SPOKANE, Apr. 9.—Running down by automobile drivers of pedestrians in "safety zones" will be discontinued in Spokane, if Superior Judge R. M. Webster has his way about it. Judge Webster recently assessed damages of \$706 against the driver of an automobile who was alleged to have collided with a pedestrian between the "white lines," breaking the latter's leg. The court held that pedestrians are not charged with watching automobiles while in the safety zones.

**WARSAW FILLED WITH REFUGEES**

WARSAW, Mar. 19. (By Mail).—Warsaw is humming with war activity and is crowded to its very doors with hordes of poverty-stricken refugees from the areas for which the Poles and Bolsheviks are fighting. Travelers say it is the most crowded city in eastern Europe. The population is estimated to have increased from 800,000 to 1,300,000 since the world war began.

Everywhere there are officers and soldiers. Military automobiles, tractors and various other vehicles of war traverse the streets all day and most of the night. The cafe life is as bright and gay as ever, but the restaurants and theaters close at 10 p. m. to save food, light and labor. The refugees from the war-stricken areas began streaming into the city about a year ago, and have been coming ever since, hoping to find food and places to sleep. The problem of providing for them has baffled the city officials.

In the poorer districts, basements, which for generations were used for storage purposes have been used for refugees' sleeping quarters. In instances 15 to 20 persons, and even more, sleep on a basement floor, on straw. Others have found shelter in stables or in buildings intended for schools. Many of these refugees are women, with children who have come out of the east virtually without funds. During the day these people are partly supplied with food by the municipality or some of the welfare organizations. Many exist only by begging.

Warsaw's tenements, always crowded as New York's east side has been for years, are jammed with humanity as never before, and during the severe winter weather when there was an epidemic of influenza here old men and women and children died by the hundreds every day in this land of the poor.

City officials see no relief in sight until warmer weather comes when they hope the people will gradually begin leaving for the country to work on farms.

**DENOUNCES GOVT HOME RULE BILL**

GLASGOW, Mar. 20. (By Mail).—The government's home rule bill for Ireland was denounced by Joseph Devlin as a "humbug to throw dust in the eyes of the people of America and elsewhere" in a speech he delivered here recently. Mr. Devlin declared that it was not a bill for home rule nor a plan to settle the Irish question, but for the permanent division of Ireland into two sections. The best thing the government could do, he said, was to drop the bill, resign office and "let the enlightened judgment of the British electorate give Ireland what she wanted."

T. P. O'Connor called the measure "an outrage and an insult" and said that "a more impudent, arrogant, insulting, lying proposal was never made by any body of men in the world." He characterized the action of the government in suggesting a repeal of the home rule act of 1914 as a "more perfidious breach of treaty than the Germans' breach of treaty with Belgium."

**COUNTIES MUST AID**

BILLINGS, Mont., Apr. 9.—Because the government has not the funds with which to conduct the survey, the ten counties which will come under the proposed Yellowstone irrigation project are to be asked to contribute \$10,000, the cost of the survey, according to an announcement by the executive committee of the Yellowstone Irrigation association.

Upon deposit of the funds with the United States treasury, it is stated, the reclamation service will send surveyors to do the preliminary work.

No soap containing animal fat of any kinds are sold in India, because of religious prejudices. American exporters, disregarding this fact, were for a long time unable to build up any business in India. Finally they overcame the difficulty by printing on the soap wrappers the fact that their wares were made wholly of vegetable oils.
