## SALTS FINE FOR ACHING KIDNEYS

We eat too much meat which clogs kidneys, then the back hurts

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally. else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulates them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless, inexpensive, makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

## PENNANT RACE ON TOMORROW

NEW YORK, April 14.—Major League baseball teams swing into pennant action tomorrow with the formal opening of the 1920 season. Based upon the form exhibited in the spring training on southern diamonds, the sixteen clubs of the National and American leagues appear to be in excellent physical condition and baseball prophets forecast close races for the respective league flags as well as exceptional attendance and financial receipts due to the unusual interest in the game this year.

Eastern and western city clubs share equally in the allotment of opening dates. In the National League Boston plays at New York while Philadelphia will make its initial appearance at Brooklyn. The Western division teams of the senior organization clash with Chicago at Cincinnati and Pittsburgh at St. Louis. The American League schedule calls for New York to open at Philadelphia; Washington at Boston; Detroit at Chicago and St. Louis at Cleveland. The initial return contests are set for April 22 when the order of the schedule will be reversed.

The games to be played in the National League tomorrow will inaugurate the 45th consecutive season for the senior major league for the organization dates back to 1876 when the Chicago club won the first pennant. The teams of that city still hold the lead for since 1876 Chicago clubs have captured eleven championships. Boston comes second with nine and New York third with eight. The American League will celebrate its 21st annual opening, having started its major career in the spring of 1900. Since that date the pennants have been distributed among four clubs, Philadelphia and Boston each having won six; Chicago five and Detroit three.

## AMERICAN EAGLE NEAR EXTINCT

NEW YORK, Apr. 13.—A warning against the threatened extinction of the bald or American eagle, the national bird of the United States, was issued here today by the American Museum of Natural History which stated that reports indicated that "more than one-half and, perhaps three-quarters of the entire species already have been sacrificed."

Destruction of the birds is attributed to hunters in Alaska who are killing them for a bounty paid by the territorial government. Never numerous, the museum authorities say, more than 5,600 eagles were slain in a few months in their favorite breeding ground, the Alaskan peninsula. Hunters have extended their operations into the British provinces adjoining Alaska, it is said, to swell their gains.

After declaring that the American eagle preys chiefly on large rodents harmful to farm crops, for the control of which the government annually expends large sums, the museum declares that "tales of the American eagle's destructiveness to game or domestic animals are for the greater part pure fiction." The bird, it says, is migratory and therefore no state or territory can claim the right to destroy it, that right being vested in the federal government.

Recalling the fact that the wild pigeon, formerly found in incredible numbers in certain parts of the United States, had been "utterly wiped out by unrestricted shooting and the destruction of its nests" the museum says that only the prompt passage of a federal law will save the American eagle from the same fate.

Michigan's baseball nine will make a southern trip this spring, having scheduled games with Auburn, Vanderbilt and the University of Georgia.
