

WOULD YOU

Be a "Happy Farmer?"

You know the La Crosse "Happy Farmer" Tractor? The one that goes anywhere with three 14-inch plows or any other tool that requires the same power? We are prepared to put that Tractor and 3-14 plow with extra shares at work in your field in any reasonably accessible place in Klamath county for \$1,200 cash. You don't need to lose any time or spend any money. Deposit that amount in the Bank of Bonanza, subject to our order when the machine is delivered, and we do the rest.

Call us up, write or come and see us before you buy. We are farmers and tractor operators. Our machine is at work every day but Sunday.

DANIEL & LYTLE

BONANZA

H. P. ENLARGING
 SACRAMENTO, Cal., April 28.—The Southern Pacific company announces plans to enlarge its shops at Sacramento. New buildings will be erected to house the brass foundry, the suring factory and the sawmill.

How much should I give to make this a better world?

A CERTAIN man in New York filled out his income tax report. It showed an income so large that his tax was 53%. And his total gifts to church and charity for the year were \$148.

Think of it—thousands spent for luxuries and pleasure for himself; and \$148 to leave the world a little better than he found it!

Most of us do better than that; but not so very much better.

Our average daily gift for all church causes is

- less than we spend for daily papers
- less than a local telephone call
- less than a third of the day's car fare
- less than 3 cents a day

No wonder that 80% of the ministers of America are paid less than \$20 a week. No wonder that the church hospitals turn away thousands of sick people a year. No wonder that China has only one doctor for every 400,000 people. No wonder that every church board and charity society is forever meeting deficits, forever passing the hat.

It isn't because we are selfish; it isn't because we don't want to help. It's just because no one has ever put up a great big program to us, and asked us to think of the work of the church in a systematic businesslike way.

The Interchurch World Movement represents the united program of thirty denominations. They have surveyed their whole task, no business could have done it better.

They have budgeted their needs; no business could have a more scientific budget. They have united to prevent the possibility of waste and duplication. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

And they come to the men or women who love America—to you—this week asking you to use them as the channel through which a certain definite part of your income can be applied to make this a better world.

Only you can determine what part of your income that should be.

It's a good time right now to answer that question. We're passing through the world just once; how much better will the world be because you passed through?

AUSTRALIAN TARIFF PROMOTES INDUSTRY

SYDNEY, Australia, Mar. 18. (By Mail).—The proposed new Australian tariff is not intended to encourage manufacturers in "slothful ease" or to enable them to operate on any other basis than merit, declared Prime Minister Hughes, at a luncheon given here by the Australian Industries Protection League.

"The manufacturers of Australia," he said, "must take advantage of the opportunity which now unfolds itself before them. The government intends to lay upon the table of the house a tariff bill which has been carefully prepared with the deliberate intention of encouraging effectively the industries of Australia; but I want to tell the manufacturers that they must not think to find a safe and permanent shelter behind that tariff wall."

"You must live on your merits. The manufacturers of Australia must realize, as some have already done, that the bulwarks are imposed by the sparseness of our population. They must build their plants with the fullest intention of competing in the markets of the world. Tariff can set you on the road; but you must walk alone."

PAGO PAGO, American Samoa, Mar. 23. (By Mail).—The South Sea Pacific company of New York, a subsidiary of the Pacific Development corporation of New York has been awarded the copra contract of American Samoa at the sum of \$156 per ton.

Agricultural College State University and Ore. Normal School

At the Agricultural College State University and Ore. Normal School classes are so overcrowded, rooms so overloaded, and teachers so few, that the three institutions will have to close the door on at least 1,000 Oregon boys and girls, and perhaps upon twice that number next fall, unless the new millage support bill passes on May 21.

These three institutions have, when compared with the year when the present millage support bill was passed,

150 per cent More Students but only 15 per cent More Classrooms and less than 4 per cent More Income

The fact that higher education in Oregon is in a crisis cannot be said too strongly. You are urged to work for the Higher Educational relief measure, and to help it with your vote on May 21.
