FEAR JAPANESE PREDOMINANCE

HONOLULU, T. H., April 21. (By Mail.)—Robert W. Shingle, territorial senator and member of the legislative commission which recently returned from Washington, in an open letter to the Pacific Commercial Advertiser published here today declared that many congressmen opposed opening of public lands in Hawaii to homesteading because of increasing numbers of Japanese in the territory obtaining American citizenship.

"The United States Congress is almost unanimously averse to the granting of homestead privileges on highly developed public lands in the territory of Hawaii, because it is by no means satisfied of the complete sincerity of Americanism in the growing class citizenship in these islands," the letter said.

"I allude to Hawaiian-born Japanese, thousands of whom annually come into the sacred inheritance of American citizenship.

"Neither Congress nor I have any intention of calling into question the loyalty of Hawaiian-born Japanese in this territory. However, America learned a bitter lesson of nationalization during the past five years, one of which cost dear in blood and ideals."

The problems involved in efforts to obtain a homesteading law, were based upon a desire of the territorial legislature to provide some means for restoration of public lands to Hawaiians. Public lands have been leased and control obtained by others than Hawaiians. To secure a return of these lands, as expiration of leases, to Hawaiians, a rehabilitation bill was submitted to Congress and urged by the commission.

AT THE THEATERS

Louis Grantaire inherited a timber kingdom from his father and set out to view his holdings through the eyes of a lumber-jack. He wandered from camp to camp seeking information.

The north woods bore an evil name that grew with each orgy of immorality that flamed in the camps whenever the men acquired a little money. Grantaire determined to break the brutes that lead the weaker men astray, and to use his own fists and muscles to do it.

He started with LeBlanc, the bully of one camp, who lusted for blood and marked the faces of weaker men with the calks of his boots to satisfy his craving to see men suffer. Grantaire thrashed him and sent him whining into the woods, plotting revenge.

Brute after brute fell before him. His strength was greater than any man's and only a woman could break down the barriers of his reserve.

In pretty Annette Bossuet he found the woman who lured him almost to death in his quest for love and honor.

The story will be told at the Liberty Theatre tonight when "The Brute Breaker," the Universal photoplay, will show.

Frank Mayo and Kathryn Adams are seen in the star roles. An admirable supporting cast includes Harry Northrup, Jack Curtis, Burwell Hamrick, Bert Spottle, Frank Brownlee and Charles LeMoyné.

If you saw your wife hugging to her bosom a bundle of old love letters, and she refused to show them to you, what would you think? And Mrs. Young Wife, if you saw your husband doing the same thing, what would be your condition of mind? An answer, which led to a remarkable complication of events, is given in "Wives and Other Wives," of which Mary Miles Minter is the star, to be shown at the Liberty Theatre on Saturday.

"Wives and Other Wives"—are you one of them? Or, to you, Mr. Man—in which class is yours? See this wonderfully diverting picture—a salient lesson—and you will be answered fully, and laugh when you have been enlightened.

R. R. HELPS MINING

ANCHORAGE, Alaska, April 18. (By Mail.)—That construction of the government railroad has greatly stimulated mining activities along the line, is declared in the current issue of the Alaska Railroad Record, which points to proposed new development in the Talkeetna, Cache Creek, Falls Creek and other districts as an example of the practical interest mining men are taking in the road construction.

A large quantity of machinery will be forwarded to the different claims before May 1, 1920.

ALBERTA AIR PATROL

EDMONTON, Alta., Apr. 10. (By Mail.)—The scheme to establish an air patrol of Alberta forest reserves

Make a Trap!

Kiddies! Do you want to catch a mouse? Here's a simple diagram for a trap which gets 'em every time. A cardboard box—round hat box preferred. A piece of common wrapping paper for a top—ties with a string. Then cut a square X—(No. 5) and hang a piece of cheese or cake directly over the center. A thin board or strip runway for Mr. Mouse to get up to the top. He walks out to get his supper, the paper bends under his weight and he slips down into the box—trapped.

will be put into effect during the coming summer, according to Col. R. H. Palmer, chief fire ranger for the northern section of the province.

A Classified Ad will sell it.

Try it first—Then decide

Pay Nothing—Deposit Nothing—Use for 30 Days

Strops, shaves and cleans without removing the blade.

Five hundred clean, comfortable shaves guaranteed from each dozen blades.

Every Auto-Strop Razor set includes a fine leather strop and 12 keen-edged blades.

Take it home with you or write and we will mail it.

UNIFORM RULES FOR PLANT QUARANTINE

SALT LAKE CITY, Utah, Apr. 29.—Measures to co-ordinate plant quarantine restrictions of 11 western states, the Canadian province of British Columbia, territory of Hawaii and the northern district of Baja (Lower California) will be considered at the second annual meeting of the western plant quarantine board to be held here May 11 to 13.

G. H. Hecke, director of agriculture for California, is president of the board and the meeting call came from his office in Sacramento. Governor Simon Bamberger of Utah has accepted an invitation to address the board.

The organization was founded at Riverside, California, in May 1919, and the membership is made up of quarantine officers. Its purpose, as announced at the time of formation, is to erect a barrier against importation west of the Rocky mountains of plant pests and diseases that have not already found root on the Pacific slope. The best means of accom-

plishing this purpose, it was agreed, is through uniform quarantine restrictions.

Methods of enforcing restrictions will be one of the chief topics at the May conference.

According to one authority, a woman's feet should be to her height in the proportion of fourteen to one hundred—that is, as nearly as possible one-seventh of the height.

In certain parts of the New Hebrides the girls who hope to become a wife must have her upper front teeth knocked out on reaching the age of maturity—generally about thirteen years. This operation is performed by an old woman, who gives either one smashing blow with a stone or several lighter taps. If the girl refuses the ordeal she remains unmarried and the scorn of all the beholders.

THERE IS A REASON

WHY GOODYEAR MANUFACTURES AN AVERAGE OF 20,000 SMALL SIZE TIRES PER DAY

These 30x3, 30x3 1/2 and 31x4 Clincher tires are built in the Goodyear Plant No. 2 at Akron which is the world's largest factory devoted exclusively to the construction of these sizes.

CHARACTERISTIC GOODYEAR QUALITY IS BUILT INTO THESE TIRES

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the toughened calluses or "hard skin" on bottom of feet, then lift those painful spots right off with fingers.

When you peel off corns or calluses with Freezone the skin beneath is left pink and healthy, and never
