CAMPAIGN TO RAISE SCHOOL EFFICIENCY

NEW YORK, May 3.—A nationwide campaign to "measure service of teachers, school equipment and courses of instruction," so that every municipality may know how to deal with its public school problem, has been started, it was announced here today, by a national committee composed of secretaries of chambers of commerce and superintendents of schools representing 64 American cities.

On the ground that the public schools of the United States are facing a grave crisis due to the alleged need of \$2,500,000,000 to provide adequate buildings, and \$200,000,000 for raising salaries to stop the increasing shortage of teachers, the national committee says that it is enlisting the aid of chambers of commerce all over the country for the purpose of acquainting every citizen and taxpayer with the facts.

The committee was organized last February at a meeting in Cleveland, O., called by Dr. George D. Strayer of Columbia university, chairman of the commission on emergency in education of the national education association, and the American City Bureau. Officers of the committee were elected as follows: Dr. Strayer, chairman; Herbert S. West, Rochester, N. Y.; Harold Davidson, Erie, Pa.; Fred A. Richards, secretary, New York; executive committee: Henry Snyder, Jersey City, N. J.; R. G. Jones, Cleveland, O.; J. H. Beveridge, Omaha, Neb.; Raymond B. Gibbs, Kansas City, Kan.; S. B. Price, Bridgeport, Conn.; E. L. McColgin, Dayton, O.

The conference decided that the chambers of commerce could render effective aid only upon the basis of a careful survey of local school conditions for the purpose of comparing them with other cities, the idea being thereafter to enlist all community forces for the development of the public school system.

The first questionnaires sent to chambers of commerce and superintendents of schools of all cities with a population of 8,000 and more, and which will be followed by four other questionnaires makes the following inquiries: "How much training do your teachers have? How well do you pay your school employees? What

special inducement do you offer the teachers in your schools? Later questionnaires will ask, among other things: "How well do you house your school children? What is your educational program? How adequately do you safeguard the children's health? How much does education cost your city? How will the rising costs be met?"

The American City Bureau here which, with Dr. Strayer, initiated and is carrying out the present plans, announced its desire "to make the main facts in the present emergency quickly available" for those cities where school problems are pressing hardest for solution. The question of getting high grade teachers and school employees, he said, has become a more perplexing one than ever before. Many men and women, it is said, have stopped going to normal schools and teachers' colleges to prepare themselves as pedagogues. In round numbers, Secretary Richardson said, there will be 50 per cent fewer graduates from these schools in the United States in 1920 than in 1917.

"The United States is now actually 35,000 short of the number of teachers required to fill positions," said Mr. Richardson. "This shortage exists after about 65,000 make-shift teachers have been employed; in other words, the real shortage of trained and experienced teachers is fully 100,000. The cost of living has increased at least 80 per cent in the past six years and yet teachers have had a salary increase of less than 30 per cent since 1914. Building programs also have been held up by the war. Many communities have outgrown their school plants and overcrowded half-day sessions, and the forced use of portable and temporary school buildings have been evils which cry out for remedy."

JAPANESE COLONISTS FLOCK TO MEXICO

TOKIO, March 19. (By Mail).—Indications of an increased Japanese population in Mexico are pointed out by the newspapers here as a result of the proposed re-establishment on April 1 of the postal money order system between Japan and that country. The American designation of dollars and cents will be used and the amount of a single order will be limited to not more than \$100.

BE PRETTY, TURN GRAY HAIR DARK

TRY GRANDMOTHER'S OLD FAVORITE RECIPE OF SAGE TEA AND SULPHUR

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, gray or streaked. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it, and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Among the non-Burmese tribes that live in Burma women are not thought much of. The Bunyak, or Banyuags, for instance, will not marry unless they are ordered to do so, and the prospective bridegroom often has to be dragged to the bride's house.
