

PERSONAL MENTION

Captain and Mrs. J. W. Siemens spent Sunday at their ranch in Fort Klamath. They report the roads dry but quite rough and that Fort Klamath is green and prospects looking bright for a good year in the Fort country.

Sunday morning Mr. and Mrs. H. N. Moe, accompanied by Mr. and Mrs. C. R. Bowman of Chiloquin motored to Medford. They found the roads via Topsy grade in very poor condition but the Green Spring mountain road by which they returned in a much better condition.

Scott Mills, who for some time has been connected with the Crocker National bank of San Francisco, has taken a position with the First State & Savings bank. Mr. Mills is quite enthusiastic over the Klamath country, both its beauty and prospects and speaks highly in his praise of the country generally.

Ben Pickett of Merrill was in the city yesterday on business connected with his big sheep ranch in that locality.

Dan Puckett of Keno spent the day in town yesterday.

Herman Schmor of Dairy was a business visitor in town yesterday.

Mrs. Harry Wilson and little daughter of Klamath Agency were in the city today on business.

Miss Kathleen Palmer of North Bend, Ore., has taken a position in the Reclamation office as water reporter.

Miss Idella McElrath who is employed in the kodak department of Underwoods Drug store, expects to leave in the morning for a vacation visit in San Jose and San Francisco.

R. P. Breitenstein has purchased a modern home from M. R. Doty at the corner of 9th and Prospect streets.

C. E. Spear, of Sacramento, district freight and passenger agent of the Southern Pacific, is a visitor in this city on business connected with his position.

CONTROL OF WIRES
COST U. S. \$14,000,000

WASHINGTON, May 4.—Operation of telegraph and telephone companies during the war cost the government \$14,000,000 Postmaster General Burleson informed congress today, in asking the immediate appropriation of that amount to liquidate affairs of the federal wire administration.

Jewett has the distinction of being the first municipality of Texas to turn its city government over to women. In the recent election women were chosen to fill practically all the city offices, including the mayorality.

A GREAT SEASON FOR RACQUETERS

NEW YORK, May 4.—Close to 200 sanctioned tennis tournaments are listed in the annual schedule of the United States Lawn Tennis Association issued here today. Every section of the country is represented in the distribution of dates and indications point to one of the most successful seasons for the sport in the history of the organization.

Among the early season tournaments of importance is the Church Cup match to be played at Forest Hills, N. Y., May 21 and 22. Unusual interest is attached to this inter-city contest between New York, Boston and Philadelphia, because of the bearing it will have on the selection of the team to represent the United States abroad. As the team will sail early in June to enter the English championship and play Davis Cup ties in July, this will be the last important event before its members are chosen and the Davis Cup Committee will doubtless be guided in their selections by the showing made there.

An innovation is the change in the date of the intercollegiate championship which will be held June 23 instead of in September as heretofore. The women's national championship has been changed from June to September and will be played at Philadelphia, during the week beginning September 13. A new national event for women has been created in a separate tournament for the clay court titles, which previously have been played with the men's events. This year the women's titles will be contested at the Detroit Tennis Club the week of June 21, while the men's events take place July 10 at Chicago. The men's championship of the United States is scheduled to begin August 30 at Forest Hills, N. Y.

All the sectional doubles tournaments are listed except the Inermountain event, covering Colorado and Utah which has not been arranged. These precede the national doubles championship at Longwood on August 16. The New York event has been awarded to the Crescent Athletic Club. A new event—an inter-city doubles match, has been awarded to Cleveland for July 21.

LANE TO FOLLOW
KLAMATH EXAMPLE

EUGENE, Ore., May 4.—Lane county is due to look like a transplanted section of Kansas this summer when the 100 farmers, whom the Bank of Commerce of Eugene is supplying with sunflower seed, get busy. Success of experiments with the sunflower in Klamath county led to the bank's action.

CHILDREN'S HOSIERY AND UNDERWEAR

Are Priced Lower Here

3 PAIR FOR \$1.00

CAN'T BAMBOOZLE THESE STUDENTS

WASHINGTON, D. C., May 4.—Students and faculty members of George Washington University here have refused to join the overall wearing campaign to lower the price of clothes, because it tended to boost the price of overalls for the working men. They have gone the overall wearers one better and, incidentally, have touched the rock bottom of common sense by forming an organization whose oath of membership is to "wear my clothes until they fall off."

IOWA LEGISLATORS VOTE BY MACHINE

DES MOINES, Ia., May 4.—The day of the roll call for the vote of the members of the Iowa house of representatives is past. Hereafter all voting will be by machine. The machine cost \$18,000. Each representative will use a little contrivance on his desk. A light on his desk will show him how he voted, and an electric light on a large board at the front of the chamber will show the public how he stood. Legislators may vote as rapidly and in any order they please. When completed the result is flashed to the speaker and clerk by an electric contrivance, and for permanent record a photograph is taken.

A Classified Ad will sell it.
