SPOP!

Chautauque days are just ahead. They provide for you and your family a week supremely worth while in every respect. World lecturers, musicians and entertainers bring to you a six days' program of Ellison-White quality whose value cannot be measured by money alone. The cost is small—the dividends big.

LOOK!

Three Entertainments
Six Splendid Lectures
Twelve Programs of Music
Twenty-one Attractions

LOOSEN!

Buy that season ticket today. H. C. of L. has not touched it. It is still \$2.50—less than 12 cents apiece for attractions worth many times that much. It saves you a five dollar bill over buying single admissions.

MAY 24-29

WHAT THE REPUBLICAN CONGRESS HAS DONE

BY SCOTT C. BONE

Here is the record:

- Submitted the woman's suffrage amendment to the states for ratification.
- Reduced appropriations a billion dollars—yes, \$1,000,000,000—below the Democratic administration's estimate.
- Returned the telegraph, cable and telephone lines to their owners.
- Enacted a railroad reorganization law which is pronounced one of the greatest constructive measures ever placed upon the statute books.
- Extended and enlarged the food control act to prevent hoarding.
- Amended the war-risk insurance law to increase the allowances to seriously injured soldiers.
- Repealed the daylight saving law because of the hardships it entailed upon agricultural interests.
- Provided additional compensation for ill-paid and overworked employees of the postal service.
- Amended the federal reserve act to provide for organization to promote and extend our foreign trade.
- Authorized by law the incorporation of the American Legion.
- Passed and passed a measure to facilitate the marketing of agricultural products, including live stock, and increasing the acreage banks may lease on paper secured by farming commodities.
- Added a provision to the federal criminal code to more vigorously punish theft of motor vehicles in transportation.
- Increased the allowances to wounded and disabled soldiers of the World War.
- Passed an act to enforce the national prohibition amendment.
- Created more liberal provision for the vocational training of wounded soldiers and sailors.
- Passed upon the statute books an oil and mineral land-leasing law which opens up the natural resources of the country and promises to be of untold benefit to the people.

But this is not all.

The Republican Congress has exposed the prodigious waste perpetrated by Democratic officials in the name of war and called a halt to further extension of public funds which took the form of extravagant and profit. Investigations have clearly established that millions upon millions have been squandered in get-rich projects for which the taxpayers are today carrying the heaviest burdens in history.

The Republican Congress, in the face of obstruction of all department heads at Washington, has compelled reorganization and economy by cutting off appropriations for thousands upon thousands of useless employes and the curbing the orgy of governmental extravagance.

But this is not all.

The Republican Congress, through a Republican United States Senate, removed by pressure at home and abroad, Americanized through and through the proposed League of Nations covenant which, otherwise, would have spelled the surrender of American integrity to foreign domination, sound the Monroe Doctrine and imperiled the future of the nation.

No Congress has ever served the country more wisely or patriotically than this Republican Congress. Its record is brilliant with achievement and its great constructive work is yet only fairly begun.

ISLAND SUGAR CROP IS LARGE

MANILA, P. I., April 15. (By Mail).—The sugar crop of 1919-1920 in the Philippine islands, now being harvested, aggregates 225,000 tons for export, and between 75,000 and 100,000 tons for home consumption, according to figures compiled by chambers of commerce, and manufacturers and exporters.

Centrifugal sugar, 95 per cent pure, forms only a small percentage of the production of the islands, the bulk of the sugar produced being muscovados, in which a large percentage of molasses remains after being produced by the open boiler process.

Out of the 225,000 tons estimated available for export this year 75,000 tons are centrifugals and 150,000 muscovados. Practically none of the latter variety is exported to the United States, China and Japan taking the most of it.

Growers and manufacturers, however, predict that within a short time the ratio of centrifugals to muscovados will be reversed, by reason of the modern methods of manufacture being introduced.

There are at present 20 sugar cen-

trals in operation in the Philippines, and eight others are under construction or are planned for immediate development.

The labor problem is becoming serious, according to producers and manufacturers. Many of the natives have left the island. Some have gone to the Alaska fish canneries, others have taken up a seafaring life, while a number have migrated to the Hawaiian sugar fields.

The tractor has replaced the carabao in some localities. Producers and manufacturers assert that double the present output could be cared for, if a supply of common labor could be obtained to plant and harvest the cane.

Efforts are being made to induce the government to render assistance along the line of more intensive cultivation of the soil. According to statistics, the yield per acre has been stationary for many years, as little more than three quarters of a ton, while in some cases producing countries five tons an acre are obtained.

In the island of Formosa under Japanese methods of intensive cultivation, a yield of one and a half tons an acre is obtained, and growers claim that the soil and climatic conditions there are inferior to those in the Philippines.

While figures on local consumption of sugar are not given as exact, various authorities place the quantity at between 15 and 20 pounds per capita

CUNARD LINE IS REBUILDING FAST

LIVERPOOL, April 18. (By Mail).—Names of several huge Cunard ocean liners sunk by enemy submarines during the war are to be perpetuated in new vessels now under construction. It is announced by the Cunard company. The company has nearly 500,000 tons of passenger ships now building.

Of the vessels whose names are given none will approach the size of the Mauretania or EQUITANIA, but they will be big liners of intermediate type, ranging from 520 to 660 feet in length. They will have spacious accommodations for passengers, and will also be able to carry large quantities of cargo.

There are four ships of the 600-foot class, the Franconia, the Laconia, the Scythia, and the Samaria. There is only one vessel under construction in the 550-foot class, the Tiburnia, a name which appears for the first time among the company's ships. The 520-foot class comprises seven vessels, the Alania, Ardanis, Aurania, Ausonia, Ascaria, Albania and Antonia. Of these the first five are the names of vessels lost in the war, and the Antonia appears for the first time.

FOREIGN LANGUAGES TO BE BARRED, T. H.

HONOLULU, T. H., Mar. 18. (By Mail).—One language in Hawaiian schools was the slogan offered Americans of the territory by Doctor Benjamin Ide Wheeler, president emeritus of the University of California,

a year, as against a consumption of about 90 pounds per capita in the United States.

"The introduction of 50,000 Chinese into the sugar industry of the Philippines, would, through the application of more intensive methods of agriculture, which are not possible under existing conditions, double the present sugar production from the area at present under cultivation for cane," said George H. Fairchild, a large exporter, in a review of the sugar situation, published in the April bulletin of the Philippine chamber of commerce.

on his way through Honolulu recently en route to the Far East as head of a trade mission.

Concerning the language school problem in Hawaii, which has upwards of 160 Japanese language institutions, Dr. Wheeler said:

"I am sorry for the situation in which the foreign language schools of Hawaii find themselves, but they must realize that Hawaii is American territory and that English is the language of America."

At a Commercial Club luncheon where Dr. Wheeler was the guest of honor during his few hours' stay in Honolulu, the California educator pleaded for a better understanding by Americans of the people of the Far East.

Among army officers in some of the European countries the custom still prevails of wearing a ring set with turquoise as a talisman against a violent death.

If the Wood Dealer Sold Service

We do not sell current; we sell service. That sounds odd doesn't it?

Well, suppose the wood dealer sold service instead of wood, he would tend to your furnace and your range, take away the ashes and clean the flues. You would buy so much heat.

Now you buy so much light, although you pay according to the current you consume. But the service is performed for you by this company at the substations and power plants.

That is what we want to give you—efficient service. It is the aim of this company to have none but satisfied customers. No matter what it is, if you have a grievance, or are dissatisfied about your bill or do not understand our rates, please come in and see us or write us about it.

If you have any suggestions to make, we will gladly avail ourselves of them as our aim is constantly to improve our service to you as fast as the development of science and human ability permit.

California-Oregon Power Company

National Forest Timber for Sale

Sealed bids will be received by the District Forester, Portland, Oregon, up to and including May 26, 1920, for 2,000,000 feet B. M. more or less, or any part thereof, wind thrown yellow pine, Douglas fir and white fir, upon a designated area within Townships 33, 34, 35 and 36, Range 6 E., W. M., within Crater National Forest, Oregon. Deposit with bid \$100. The right to reject any and all bids reserved. Before bids are submitted full information concerning the timber, the conditions of sale, and the submission of bids should be obtained from the Forest Supervisor, Medford, Oregon, or the District Forester, Portland, Oregon. 26-3-10-17

Whales' teeth pass as currency in the Fiji Islands. They are painted white and red, the red teeth being worth twenty times as much as the white.

Western Floral Shop

LEAVE YOUR ORDER FOR FLOWERS in person if at all possible. A visit here will show how thoroughly we are prepared to meet any floral need from flowers for the table to the decoration of the largest church for feast, festival or wedding. Our cut flowers are received fresh every day. You will find your favorite here at all times in the perfection of its beauty. Moderate prices are the invariable rule.
