### INSURANCE MAN PRAISES CITY

"Klamath Falls looks mighty good to me. You are doing more building than any city in Oregon outside of Portland, except Astoria," said E. N. Strong, assistant manager of Oregon Life Insurance company, who is paying a visit to this city.

"I note a wonderful change since my last visit in the fall when as a member of the delegation of the Portland Chamber of Commerce we were so royally entertained by the citizens of this city.

"Just before leaving Portland I heard favorable rumors regarding the extension of the railroad south of Bend. It is alleged the roads have come to an agreement and it is said the O. W. & R. N. will pull up their tracks up the Deschutes canyon. I also understand financial interests in Portland have promised assistance if the roads will use this equipment in extending the road south of Bend.

"In my eleven years travel over the state I have never seen such universal prosperity. Our business has been phenomenal. In 1919 we wrote more than \$6,500,000 worth of insurance in Oregon which again puts us in the lead in this state by a large margin. So far in 1926 we have exceeded our wonderful record of 1919 and I see no immediate let-up in business of all kinds. We invest all our funds in Oregon except Liberty bonds, putting money back into the community where we get it."

Mr. Strong is here to make a new agency connection for his company. Mr. Neppen, former district manager here is connected with the company in Portland, having been advised to remain in a lower altitude on account of Mrs. Neppen's health. Mr. Strong is staying at the Hotel Hall while in the city.

## PHOTO-PLAYER FOR LIBERTY

H. W. Poole got back from San Francisco Saturday evening. While there he purchased an American Photo-Player that gives all the effect of a full orchestra. It can be played either mechanically with rolls or by an individual operator. The instrument will be here in three or four days and will be immediately installed.

Mr. Poole also let the contract for the big organ that is to be used in the new Liberty Theater when his building is erected. It will take about six months to secure delivery on the organ.

Many special feature films were also booked on the trip. In fact so many big pictures were secured that Mr. Poole says it will be necessary to show some of them during the week, in addition to those shown on Saturday and Sunday.

While Harry was absent entirely on business and did a lot of it, he was not too busy to take a brief look around. He says they've taken all the frisk out of Frisco.
