**JONES FOR CONGRESS**

The people of this county were somewhat taken aback this week when there loomed on the political horizon one Owen F. Jones of Baker City, Oregon, seeking the republican nomination for congress for the second district.

No one in this neck of the woods ever heard of the gentleman before, and doubtless no one will ever hear of him again after May 21st. Mr. Jones is seeking the nomination over Nick Sinnott—Sinnott, the man of the people; the man who has put Oregon back on the map after nearly twenty years of eclipse following the vicious assault made upon the state by Mitchell, Pinchot and their tribe; the man who has forged the very front ranks of the big men of congress, until today he is head of one and member of all of the powerful committees of the house of representatives; the man who does more for his constituents than any man Oregon has ever had in congress; the man who has gotten homesteads released, who has had the prayers of the farmers listened to and answered by the reclamation and forest services, who worked day and night for the soldier boys both

during and after the war; the man who is better loved by more people than any other public man in the state of Oregon. This is the man Jones is trying to unseat.

We have no fear that he will even make a start in the undertaking. What arouses our resentment is that he has even dared to start. Rather should he be travelling up and down this district telling the people to keep Sinnott in congress. Ingratitude is the basest sin of which mankind can be guilty, and Mr. Jones is out asking the people of the second congressional district to play the part of the ingrate to the man who has sacrificed more for the welfare of his constituents than any man they have ever honored with office.

Today Sinnott is head of the Public Lands committee—the committee that has to do with all of the vast land holdings of the government in the west. In every line of this legislation Eastern Oregon is vitally interested. To gain this chairmanship Sinnott has had to fight every inch of the way, contending with the brightest men in the house of representatives. Only the biggest of the big men can ever hope to gain this goal, and then only after years of proven ability. Are the people of Eastern Oregon going to sacrifice their interests by voting against such a man? Are they going to listen to appeals from an obscure, untried, unfitted individual who has nothing to advance in his behalf except the cry for public office? No, not today. Eastern Oregon will never stand before the rest of the state pleading guilty of such assinine conduct. Rather will it stand before its neighbors, head erect, towering above all the congressional districts of the nation as the possessor of the one really big man in our national house of representatives.

**SPOKANE TRANSFORMS UGLY YARDS AND ALLEYS**

SPOKANE, Wash., May 12.—As a result of an "alley beautiful" contest conducted here recently by the local chamber of commerce, 7,300 vines or strawberry plants were planted this spring in the back yards and alleys of Spokane homes, numerous alleys were improved otherwise and the rear of many premises were painted.

**Goodyear Leadership— and Tires for the Smaller Cars**

Enormous resources and scrupulous care have produced in Goodyear Tires for the smaller cars a high relative value not exceeded even in the famous Goodyear Cords on the world's highest-priced automobiles.

In addition to its larger sizes, Goodyear manufactures an average of 20,000 small car tires a day in the world's largest tire factory devoted solely to the 30x3-, 30x3½-, and 31x4-inch sizes.

Last year more cars using these sizes were factory-equipped with Goodyear Tires than with any other kind.

Their extreme worth is available for your Ford, Chevrolet, Dort, Maxwell, or other car using one of these sizes, at the nearest Goodyear Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Double-Cure \$23.50  
Fabric, All-Weather Tread

30x3½ Goodyear Single-Cure \$21.50  
Fabric, Anti-Skid Tread

Goodyear Heavy Tourist Tubes are built to protect casings. Why endanger a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of \$4.50 less merit. 30 x 3½ size in waterproof bag \$4.50

**GOOD YEAR**

**Every State in the Union Supports Higher Education**

In America, Education has always been recognized as the chief safeguard of our free institutions, and the principal bulwark against the forces that tend to destroy democracy. Education, free to all alike, is the first necessity of a self-governing people.

**Higher Education in Oregon is Imperiled**

These are outstanding facts in its present day of crisis:

1. The Agricultural College, State University and State Normal School have 150 per cent more students than in 1913, but less than FOUR per cent more income.
2. The worldwide rise in costs has reduced tremendously the buying power of even that income.
3. There is no sign of a let-up in the increase of students. (It is well that there should not be, for the best educated state is the best producer, the most stable, and the best to live in.)
4. Attendance has increased ten times as fast as classroom and laboratory space.
5. All three institutions have been conducted with utmost economy. Their cost per student per year and their building investment per student are far below the general average.
6. They are fast losing their faculty specialists, who cannot make even a bare living while training the boys and girls of Oregon.
7. Their classes are overloaded, their floor space over-crowded, their scientific instruments and apparatus low.
8. They can no longer go on with an adequate program of teaching unless adequate support is voted.

**HOW MUCH WILL IT COST TO PROTECT HIGHER EDUCATION ON MAY 21?**

Do you not want your boy and girl, or your neighbor's to have the same educational chance as the boys and girls of today?

The Higher Educational Tax Act is No. 310 on the ballot. You are respectfully urged to vote 310 X Yes.

MRS. NELLIE PECK, of Kansas City, who says her little boy never had a well day until he began taking Tanlac. Declares she will never be able to pay the debt of gratitude she owes the medicine.

"I will never be able to pay the debt of gratitude I owe to Tanlac for what it has done for my little boy and me," said Mrs. Nellie Peck, No. 1421 Charlotte St., Kansas City, recently.

"My little boy Curtis is fourteen years old and never in his life had he seen a well day until he began taking Tanlac. I worried and worried over his condition, but in spite of everything I could do he didn't seem to gain any strength and was weak and delicate practically all his life. He seemed to have a very weak stomach. It just looked like he couldn't eat anything and digest it like other children.

"He had no appetite at all and what little he did eat seemed to sour on his stomach. Sometimes his heart would palpitate terribly and he would get so dizzy he could hardly walk and as I stood and looked at him I thought he would surely fall over. He would have bad headaches

and was nervous and could never sleep well at night. At school he was never able to keep up his work and he had to stay out a great deal on account of poor health.

"I had heard so much about Tanlac I decided to try it and see if it wouldn't help him. Well, you just can't imagine how overjoyed I was when he began to improve! I kept right on giving him the medicine until now it is hard for me to believe he is the same child. His health is better than ever before in his life and he is bright and playful all the time and he enjoys going out and playing with other boys. He has a splendid appetite and I let him eat anything he wants. He is not the least bit nervous any more and is asleep as soon as he goes to bed. In fact, he is perfectly well in every way.

"After seeing what Tanlac did for him I began trying it myself as I have been suffering from stomach trouble, headaches and dizziness for five years. Since taking this grand medicine I am now happy to say that I never suffer any more with those troubles.

"Tanlac has been one of the greatest blessings that ever came into our home and I expect to praise it as long as I live."

Tanlac is sold in Klamath Falls by the Star Drug Co., in Lorella by the James Merc. Co., and in Merrill by the Southern Oregon Drug Co. Adv.

**SLEEPING SICKNESS PUZZLES LONDON**

LONDON, April 18. (By Mail).—Eight or nine cases of what appears to be a new phase of the deadly "sleeping sickness" are puzzling the London hospital doctors.

The disease to which the name encephalitis lethargica has been given, presents many of the symptoms of the African sleeping sickness, but so far the trypanosoma hitherto thought to be responsible for the sleeping sickness common to the Congo natives has not been found in the blood of patients at the hospital.

A representative medical committee is investigating the new disease. The house surgeon states it is too

early to make a definite statement. So far no common factor save the overpowering desire to sleep has been found in cases under notice, nor has

it been possible yet to trace the origin of each. There is said to be no cause for alarm as to the possible spread of the disease.

Quality in roofing is what gives it resistance to sun and rain—the two worst enemies of roofing. Quality in Malthoid is built-in. That's why it lasts so long—why it's the cheapest roofing you can buy. No better protection for house, barn, shed, fruit warehouse, shop, garage, etc. Comes in three thicknesses. Cement, nails and directions in each roll.

**Big Basin Lumber Co.**

**ARE YOU THE MAN WE'RE LOOKING FOR?**

A man well regarded in Klamath County has the opportunity of his life to secure an agency for one of Oregon's big corporations doing the largest business in Oregon. Over twenty of our Oregon representatives averaged more than \$8,500 each last year. See Mr. Strong at the Hotel Hall.
