K. SUGARMAN

MARIA ROSA ISG HIT

Geraldine Farrar's great Paramount starring vehicle, "Maria Rosa," in which Wallace Reid is her leading man, has scored a tremendous hit at the Mondale theatre this week. It is a dramatic picture which affords the star ample opportunities for effective work. The supporting company is excellent.

Mrs. Helen B. Hight, New Orleans' only woman barber, runs a no tip shop. She is of the opinion that women make better barbers than men because they have a lighter touch.

In Finland fifty years ago there was not a single high school for girls and now most young women whose parents can afford it are given a university education.

EVERY OREGON BOY and EVERY OREGON GIRL Is a possible College Student

Oregon sends a bigger percentage of its children to college than any other state, without exception.

That is one of the State's proudest records

No state can have too much education. Education is the safeguard of freedom and of right, and higher education is the capstone of the public school system. But higher education in Oregon is in great danger. The State University and the Agricultural College have twice as many students as they have income to train.

Protect these Schools and their great work

by voting on May 21 for the Higher Educational relief measure. Higher Education pays the state in dollars and cents, in improved living, in scientific progress, in farm, orchard, garden, and stock ranch development, and in the better quality of its public and high school teaching.
