OVER NIAGARA IN A BARREL

BRISTOL, Eng., April 23. (By Mail.)—Charles George Stephens, a barber of this town, has announced that he is going to try to shoot Niagara Falls in a barrel.

He has booked his passage from Liverpool to Quebec on June 18 and

says he intends to make the attempt at the end of June or early in July.

Stephens is 56 years of age and stands 5 feet, 9 1/2 inches high. The barrel will be 6 feet, 2 inches and in the middle 32 inches. Inside the barrel Stephens plans to be secured by straps and the barrel is to be weighted at the bottom with a hundred pound weight to keep it upright in the water. Special breathing apparatus is also being fitted.

Among the many other feats which Stephens claims to have performed are the following:

SAVE OREGON WILD FLOWERS

OREGON AGRICULTURAL COLLEGE, Corvallis, May 12.—Why not conserve in picking wild flowers? Great waste of native plants and wild flowers has been brought about by careless picking.

"We pull up the flowers by the armful and then throw them away as if they were baubles and cost no life process in the production," was the remark of Dr. L. H. Bailey, noted author of horticultural books.

Fragile and quick wilting flowers will not last long and when one reaches home they have lost their beauty beyond repair. Not only is there an actual waste of flowers but the woods are bereft of a great source of attraction for others, who also want a share of flowers. There is no harm in picking a moderate number of them, especially of the more common ones, but there is harm done where the flowers are pulled up by their roots and where shrubs are butchered by twisting off twigs.

Societies for the protection of native plants advise one to keep the woods as natural as possible. The roots are of no use to the persons who want flowers for their beauty, and in their removal a source of multiplication of the plant has been destroyed. The bulb of the angel slipper, an orchid, comes out of the leaf-mold very easily and when it is taken up there is nothing left in the ground to reproduce another one in its place. Cut the flowers from shrubs, leaving them attractive and in sound condition.—F. A. Abegg, student in industrial journalism.

OHIO HAS ALL SORTS OF TIME

COLUMBUS, O., May 13.—Ohio will have four different names for its clock time this summer, and three actually different kinds of time. They are: eastern standard, sun time, central standard and advanced central standard.

The last mentioned is a name only, for it coincides with eastern standard time. The name came about through action of communities in western Ohio deciding to advance their clocks one hour. It was the same as eastern standard time, but they preferred to call it advanced central standard.

About half of Ohio is on eastern standard time because the regular dividing line runs midstate from north to south.

To shoot Niagara Falls in a barrel has been the ambition of numerous persons seeking notoriety but few have accomplished it. Mrs. Anna Edson Taylor who went over the falls in a wooden barrel about 1904 was severely injured but recovered. "Bobby" Leach made the drop successfully and without injury in a steel barrel in 1911.

EAT LESS MEAT IF BACK HURTS

Take a Glass of Salts to Flush Kidneys if bladder bothers you

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney diseases.

DIRECTOR G. O. P. CONVENTION HAS LARGE SIZE JOB

CHICAGO, May 14.—The directing genius of four republican conventions in the past, Fred W. Upham, republican national treasurer, this year has planned his fifth and greatest one.

Mr. Upham has been chairman of the Chicago convention committee for 16 years and in that time probably has promoted more national political gatherings than any man living. He has organized and financed the local arrangements for the republican gatherings since 1904.

Every four years the planning of the big gathering has become a more complex and more costly affair. In 1904, the first year the republicans met at the Chicago Coliseum, the convention arrangements cost \$70,000. In 1916 the expenses had increased to \$110,000 and this year the sum will exceed \$150,000.

To raise this money, contract for building alterations, extra seats, decorations, tickets, badges and all the other myriad details of staging big quadrennial spectacle, in which more than 13,000 delegates and spectators will this participate, is Upham's task.

Cost of altering the Coliseum and decorating it will alone cost more than \$50,000 this year. The task of obtaining and then safeguarding the tickets, is a problem in itself. The admission cards are printed on safety paper, in special inks, and then locked in vaults until the Thursday before the convention. None are sent by mail, all being distributed here. In spite of these precautions, many fall into the hands of speculators, who retail them at anywhere from \$60 to \$100 each; and even counterfeiting of the cards is not unknown.

Mr. Upham, who has been treasurer of the national committee since February 1918, has been associated with national politics for 28 years. In 1892 he was a delegate to the national convention from the 8th Wisconsin district. He represented a Chicago district in 1912 and 1916.
