EDITORIAL

For this store to have reached its present success, it must have had the confidence of many families. In our larger sphere we seek to cultivate the acquaintance—the friendship, the final confidence—of hundreds more of just such families. The confidence of the families we now enjoy has been worked up by years of patient effort, by performance and not by word. Yet, today perhaps if you were to inquire among the thousands who come to this store first for their wants, you would receive assurances that would warrant your faith in The Woman's Store. To it shall always be our effort to be worthy of the confidence you give and we will endeavor by every possible means to help you stop this High Cost of Living.
