

Luxite Hosiery

The Idea That Won Millions

Never forget that hosiery plays a far more conspicuous part in your appearance than many a larger and more costly item of dress. Luxite Hosiery is made with this idea in mind; hence made as shapely as the curves of the figure, and in a texture so wonderfully fine and soft you can draw a pure silk Luxite stocking through your finger ring.

As for serviceability, there is nothing better. That's why we recommend these hose.

PORTLAND PRODUCES MUCH FLOUR DAILY

PORTLAND, Ore., May 21.—Enough flour for 1,000,000 loaves of bread, or one loaf per day to every person in Portland, Seattle and Tacoma combined could be made from the daily output of only one of the many flouring mills in Portland, according to statistics presented by A. G. Clark, manager of Associated Industries, in a recent speech. This plant uses in one day the approximate yield of 480 acres of land or 150,000 acres of wheat each year. The output is 27,000 barrels of flour daily.

"WHITE MULE" HAS PLENTY OF KICK

DURANGO, Colo., May 21.—A mule was used by a wily dealer in illicit liquor near here, according to officials. The animal is white. In front of the owner's home a sign was placed reading: "White Mule For Sale." If the prospective customer was able to prove he was "all right" the dealer showed him a liquid with a real kick in it. If the visitor was not known, he was shown an animal with a real kick. The price of the animal was set at a figure which insured its retention by the moonshine dealer.

The world's babies born every 24 hours are more than sufficient to repopulate a city of the size of Houston or Duluth.
