CHINESE STATESMAN FLAYS JAPAN POLICY

(Continued from Page 1)

province and they still come by the shipload.

This, said Dr. Chew, does not look like evidence of good faith on the part of Japan, which has asserted that Shantung will be restored to China at the proper time. And, in the plainest language, he said that the statesmen of China did not accept a single Japanese promise as worth the slightest attention, for the diplomacy of Japan was a proven policy of lying intrigue.

"We do not believe them," he said, "any more than you people here would believe the statement of any proved liar."

The keynote of the whole address, although not plainly expressed, was necessity for continued support of China by the United States, so that when the hour of need comes China may grapple with her own problems and obviate the alternative of the United States being embroiled in a war with a strongly entrenched and arrogant Japanese government.

A more brilliant speaker has not addressed a Klamath Falls audience in a long time than this Chinese statesman, scholar and editor. The large audience of over a thousand men and women who heard Dr. Chew last night can not help but be better citizens as a result of his lecture.

The music at Chautauqua last night was furnished by the Morrison girl entertainers. The program presented by these four young ladies was one of the finest musical programs yet given on Chautauqua. Their program is distinguished by an originality seldom found in a musical company. The old fashioned songs and stories given by the Morrison girls in the afternoon were equally as pleasing as the program given last night.

Today Taylor's singing band of Chicago under the direction of High C. Taylor will give two concerts—afternoon and evening.

As an added feature Tom Corwin, the polyphonist, or imitator of sounds, will appear both this afternoon and tonight.

WIRES WILL BE HOT WITH NEWS OF CONVENTION

SAN FRANCISCO, May 27.—Telegraph companies operating from San Francisco are preparing to handle virtually an unlimited amount of press reports on the Democratic national convention to be held here beginning June 25.

One company alone, the Western Union Telegraph company, has announced that it is completing at a cost of \$500,000 improvements in its plant that will take care of 1,900,000 words daily in addition to its regular business. The Postal Telegraph Cable company is also increasing its facilities and news agencies and associations are getting ready to move quickly an augmented "load" they will carry over wires leased from telephone companies.

Under the multiplex automatic system, that permits four messages to be carried each way, eight altogether, on one wire, the Western Union is preparing to take care of 250,000 words of press matter for evening papers and 750,000 for morning papers each day. R. B. Calkins of the general manager's office here announced. No additional wires are being put in, only "channels" for extra sets of automatic instruments being added. The multiplex system is almost twice as fast as the Morse, in which the message is ticked off by hand, and the company now handles 65 per cent of its business by the new methods.

The company will have installed here at the time of the convention 13 miles of pneumatic tubes to carry messages directly into its main operating room, where an intricate system of belt conveyors makes it possible to get each message sent within one minute.

With its new improvements, the plant here, the Western Union announced, will be the most modern in the world and the third largest in the United States.

A Classified Ad will sell it.

DIDN'T ENLIST TO DRAW HIS WAGES

SHERIDAN, Wyo., May 27.—To prove that he was not enlisted in the army for financial gain, Frank Peck of Gillette, Wyo., presented a seven passenger touring car to the local recruiting station when he was accepted for service in the 55th Coast Ar-

tillery. Peck, who has acted as foreman on many large ranches in this part of the country, said that he desired to secure the advantage offered by the educational classes and vocational training schools in the army.

King Gustav of Sweden is said to be the only monarch ever known to wear eye-glasses on State occasions.

SACRED HEART FINAL PROGRAM

Arrangements are complete for the closing exercises of the Sacred Heart school which will be held Friday (tomorrow) evening at the White Pelican hotel. The principal address will be given by the Rev.
