

## PHILIPPINO ORCHESTRA COMING

Six Native Musicians From the Philippines, a Feature Musical Attraction at Chautauqua

During the past winter the Royal Filipino Sextet has been a feature musical attraction in the great hotels of the East. They have established firmly the claim so often made for them—that they excel any other Filipino orchestra ever presented in this country. These six natives from the Islands far across the Pacific have played together constantly for six years and they play today as one man. Their repertoire seems to be unlimited, playing classical music or popular in endless variety and always in a manner to delight even the most musically critical.

## AERIAL ROUTE AMONG ANDES

LONDON, April 27. (By Mail).—Establishment of an aerial route from the Pacific to the Amazon as a means of surmounting difficulties of road travel among the Andes, is advocated by G. M. Dyott, until recently a squadron commander of the British Royal Naval Air Service.

"There is no serious difficulty in the way, so far as the scheme's practicability is concerned," Mr. Dyott told the Royal Geographical Society. "We have heard of the great height of the Andes, but there are low altitudes at which they may be crossed. One of the Andes ridges can be negotiated at a height of 7000 feet, but there is another rising to 15,600 feet.

"Peru," he continued, "is peculiarly suitable for aerial traffic. Aerial highways will undoubtedly play a large part in the future development of that country. It is of importance that rapid communication should be established between the interior and the coast, and in order to do this the airplane must come to the rescue."

Discussing the difficulty of traveling by road, Mr. Dyott said that it took him five days to travel from one part in the Andes to another, whereas the airplane would cover the distance in fifteen minutes, and in another stage of the journey it took him exactly a week to travel a distance which would be negotiated by the airplane in 30 minutes.

Not to be outdone by the men and "overalls clubs," the women in several of the western states are forming "gingham clubs" as a means for combating the high cost of dress goods.

### WEATHER RECORD

Hereafter the Herald will publish the mean and maximum temperatures and precipitation record as taken by the U. S. Reclamation service station. Publication will cover the day previous to the paper's issue, up to 5 o'clock of that day.

## FIRE ENGINE NO MORE IN BOSTON

BOSTON, May 27.—The fire engine is to disappear from the streets of downtown Boston. The lively spectacle of galloping horses with an engine in tow went out with the advent of the motor-drawn engine, and now motor and steam engines are to be forced from the city proper entirely. A high pressure water system in which only hose trucks will be used is assured of early operation by the signing of contracts for three pumping stations.

A gridiron of pipe-lines has been constructed under the streets, the high-pressure pipe now laid aggregating 9.3 miles, with 262 hydrants. Eventually, under present plans, the system will be extended to include more than 18 miles of pipe.

Through this pipe 12,000 gallons of water a minute will be forced at 300 pounds pressure, or approximately 18,000 gallons at more practical pressure of 200 pounds, from four pumping units are planned, which will increase the volume of water to 36,000 gallons at 200 pounds pressure. Water will be drawn from three sources—salt water from the harbor, the domestic low pressure system and from high pressure feeds.

Operation of the new system, it is expected, will result in a considerable reduction in fire insurance rates in the districts covered. A mark-down of 15 per cent has been suggested as possible. The system, the construction of which was begun 8 years ago will have cost between \$3,000,000 and \$4,000,000 when completed.

## SAYS BOLSHEVISTS ARE MISUNDERSTOOD

MANILA, April 24. (By Mail).—Bolshevism is a word that is sadly misconstrued in the United States, says Major General William S. Graves, commander-in-chief of the American expeditionary force, which recently evacuated Siberia.

"At the mention of a Bolshevik the people instantly conjure a mental picture of a frowny anarchist with a bomb in one hand and a torch in the other," he said. "But the Bolsheviks in Russia are working for peace and the good of the country. In my belief they are trying to be eminently fair and just to the people. They have deplored the murder and bloodshed which took place before they first came into power in Siberia—January 31 of this year—and are doing everything possible to stamp this out."

The Duchess of Roxburghe, formerly Miss May Goelot of New York, on one occasion appeared as Cleopatra at a fancy dress ball, wearing pearls, diamonds and rubies to the value of \$100,000.

Among the first women to participate officially in a national convention of one of the leading political parties were Mrs. Clara G. Carlton and Mrs. Theresa A. Jenkins, who were sent from Wyoming as alternate delegates to the Republican national convention at Minneapolis in 1902.

## HOT WATER FOR SICK HEADACHES

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headaches are caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetaminol, aspirin or the bromides, which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drunk before breakfast will not only wash these poisons from your system and cure you of headache, but will cleanse, purify and freshen the alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar.

If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation or sour, acid stomach, begin the phosphate hot water cure to rid your system of toxins and poisons.

The seventy girls in the graduating class of the Oak Park high school of Chicago have solemnly pledged themselves to trip up the platform for their diplomas next June in gingham frocks costing less than \$15 each.

## JAPAN WANTS GERMAN TRADE

BERLIN, May 2. (By Mail).—Japanese commercial firms are making great efforts to resume business with Germany. One Japanese shipping company has opened its offices in Hamburg and a regular steamship service is running to Japanese ports. Copper and silk are the main exports from Japan to Germany while potash is the chief article demanded from Germany by Japan.

According to the Tageblatt, the Japanese government is considering a claim submitted by Germany that the Shantung (Tsingtau-Tsinanfu) railway is private and not state property. In the latter case, the railway would become forfeited to Japan, in accordance with the same terms of the peace treaty.

Japan proposes to release all German property under her control up to the value of 10,000 yen. Property worth more will be subject to a deduction of a certain percentage to indemnify Japanese who have claims against Germany for war damages.

An inquiry into emigration possibilities from Germany to Japan shows, the Tageblatt says, that although public feeling in Japan has become generally favorable toward Germans again, the prospects are not favorable, except for engineers and practical scientists. Foreign manual laborers especially are not wanted in Japan.

A Classified Ad will sell it.

Standardized Quality

No matter where you buy "Red Crown," you always get the same high-quality fuel. It is made to meet the requirements of your engine.

"Red Crown" is all-refinery gasoline with the full and continuous chain of boiling points necessary for ready starting, quick and smooth acceleration, steady, dependable power and long mileage. Look for the "Red Crown" sign before you fill.
