

150 Shaves!

Every tube of Purola Shaving Cream contains the "makin'" for about 150 cool, satisfying shaves. Each particle of cream multiplies itself hundreds of times with water.

We waited years before we put out a "Purola" Shaving Cream. We were not satisfied to put the "Purola" name and guarantee on record until we had a cream that represented a real improvement.

Now, make this test! Take a several days growth of beard—those boasting of tough, wiry beards, especially invited. Use hot water and a pinch or so of Purola Shaving Cream. Sixty seconds of lathering and you'll have the face covered with the creamiest, softest lather a man could want. It'll retain its creaminess without replacing until you've been over the face, and leaves a comfortable, exhilarating impression that lasts long after you shave.

Get a tube at your druggist's. Try it tomorrow, and if Purola Cream doesn't do what we say, the trial is on us. That's our guarantee.

The San Remo (Italy) city council has changed the name of a beautiful drive from Corso Wilson to Corso Flume. Formerly it was called Corso William II. The councilors have not yet agreed on what its next name shall be.

The mayor of Sayreville, N. J., after a year of hickering with the borough council over which he presided, advertised all his property for sale at a sacrifice, because he meant to leave town and move to the United States of America.

Chicago mechanics are making such high wages that they use taxicabs in going to and from work.

A Poland-China hog, which brought \$255 fifteen months ago, was lately sold to an Iowa man for \$40,000, the highest price ever paid for a hog.

Britain's latest afship is 545 feet long and has a lifting capacity of 17 tons.

'PRESIDENTIAL ROW' IS READY

CHICAGO, June 1.—"Presidential Row," an institution unique in American politics, is preparing for the final drive that will culminate the week of June 8 in the nomination of a Republican candidate for president of the United States.

The "Row," which each four years is the center of national pre-convention politics, is going through the biggest season in its history.

"Presidential Row" includes parts of two Michigan boulevard hotels, which are connected by a subterranean passageway, and along the row every leading Republican presidential candidate has established or will establish his headquarters. Here too the Republican national committee maintains extensive offices, while the Democratic committee meets here on occasion.

Since the Republicans began holding their conventions here regularly in 1904 the "Row" has become an institution of the party.

National headquarters of Governor Frank O. Lowden and Major General Leonard Wood were the first to open this season. The Wood delegation has been active on the "Row" since early last winter and the Lowden camp has been on the ground since January 1.

Later arrivals included western headquarters for Herbert Hoover and Attorney General A. Mitchell Palmer, and the regional offices of the National Personal Liberty league, working in the interests of Governor Edwards, Democrat of New Jersey.

Reservations have been made for Senator Hiram Johnson, Senator Miles Poindexter and Governor Coolidge, of Massachusetts. They will open offices several days before the convention.

The Republican national committee has had offices on the "Row" for several months. The committee will move to convention headquarters at the Coliseum about May 24, and there will begin hearing contests for convention seats on May 25 or 26, according to present plans.

Following the convention the Republican committee will occupy an entire floor, including the ballroom, in a downtown hotel, and also establish work rooms in a loop office building.

Will H. Hays, chairman of the committee, is expected to spend considerable time during the campaign here, and one of the large hotel parlors is being prepared for his private office.

The Democratic national committee will maintain headquarters here, but has not yet selected a location. Chairman Homer S. Cummings will divide his time between the offices here and those at the Grand Central Palace, New York.

EAT LESS MEAT IF BACK HURTS

Take a Glass of Salts to Flush Kidneys if bladder bothers you

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney diseases.

The Independent Labor party asks for democratic control of foreign policy and establishment of international standards of labor conditions. It requests that the convention put itself on record as opposed to all militarist and imperialist projects and programs.

Eight resolutions have been sent in by local labor parties dealing with Ireland. Some of these call for self-determination in that country and withdrawal of British troops. The Northwest Hull Labor party asks the convention to express disapproval of the government's policy in Ireland and to arrange for mass meetings all over the country to agitate for a policy of "hands off Ireland."

Other resolutions raise the questions of direct action, nationalization of the railways and public ownership and control of the liquor trade.

The remarkable feature of nearly all Asiatic marriage customs, and nearly all European customs too, is that marriages are arranged, and not the result of natural affection. It is difficult for the American of the Englishmen to realize the fact that there are millions of married couples who have never seen each other's faces till the wedding day. Yet this is the case with half the married people in the world, and half the remainder could count the times they have seen each other before marriage on the fingers of one hand.

The popularity of "Petticoat rule" will be put to the test in the election about to be held in Umatilla, Ore. For more than a year the city has been ruled by women, who fill all the municipal offices, including the mayorship. All of the incumbents are candidates for re-election and as they seem to have "made good," they probably will be successful at the polls.

The New York Methodist Episcopal Conference, in session at Kingston, N. Y., voted by an overwhelming majority to memorialize the Methodist General Conference in favor of lifting the ban on dancing, theaters and other amusements.

ENGLISH LABOR DEMANDS PEACE WITH SOVIET

LONDON, May 1. (By Mail).—Demands that Great Britain and her allies in the war make peace with the Soviet government of Russia will be submitted to the annual conference of the Labor party, to be held at Scarborough in the latter part of June. The Independent Labor party which is affiliated with the Federated Labor party has suggested a resolution for adoption in the convention which proposes not only recognition of the Soviet government but that fraternal greetings be sent to the Russian Socialist republic. Another proposal calls for an international conference of all labor parties throughout the world and requests that the Russian government would be expressly asked to send delegates here.

The Hampstead Labor party has given notice that it will propose a motion that the Labor party secede from the second internationale.

The Birmingham central offers a resolution declaring that the allied peace treaties grossly violate the professed objects for which the governments of the allied and associated nations entered the war.

The Glasgow trades and labor council suggests the adoption of a resolution in favor of the cancellation of the war debts of the allied nations and advocates an international loan and the establishment of machinery for a world organization of raw materials in order to restore European production.

AN INSIDE BATH MAKES YOU LOOK AND FEEL FRESH

Says a glass of hot water with phosphate before breakfast keeps illness away.

Physicians the world over recommend the inside bath, declaring this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the alimentary canal before eating more food. Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who have bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to show the value of inside bathing.
