

THE CHANCE

That the Business Man and the Professional Man of Klamath Falls and County should not miss

Get your tract of ground for your summer home and outing place to spend your vacation for yourself and family on the beautiful streams Spring Creek and Williamson River. It is but a two-hour drive from Klamath Falls, and there is not a man who would spend his time more pleasantly than to have his family there for the summer months and he joining them as often during the week as he could, and always spending the week-end with them without interference with his business. Gentlemen, your families, I feel sure, could find no pleasanter place than this one perfect spot.

I cannot drive this point home one-half as strongly as I would like to. I can see it and feel it as the facts are, and I admit the people cannot see it at this time as I do.

There is but a small bit of this place and I feel that you should have it. You will certainly realize it in the very near future and if you do not take advantage of this offer now, it is possible that you will never again have the opportunity to be the owners and controllers of the most desirable place that Klamath County has, and one of the most beautiful spots in the world. There is but one Spring Creek.

I know if any other people in the United States had a stream and country surrounding it as beautiful as this, it would be priceless, and could not be purchased at any price. At least I am sure they would not allow it to be controlled by outsiders to their exclusion, which is a possibility. I have fought it and have held this property intact for the past 10 years notwithstanding all offers to sell as a whole, and at a handsome price, were refused.

These are the advantages you will have if you are the owner of your own place.

When the summer colony is sufficiently large enough to justify, we can have cheap water-power for electric lighting system. A water and irrigation system can be had and all with small cost. Every tent and every house can have these conveniences. For our mutual protection we will keep the general public off and in this way our fishing will be preserved and each year with the proper management and care the numbers will increase until it will afford

each and every member of the colony with the finest sport on earth. To do this I need your assistance and you must have mine.

I think I have proven to you my sincerity in this matter without question. As my every word has been for you and you alone to buy this property. You are the only ones that I have offered it to. I cannot make you take it or buy it. All I can do is to plead your own cause for you, trying in my small way to cause you to see your own best interest.

There is not a person in our county but what can purchase one of these tracts and scarcely miss the money.

There are 150 of them.

I now offer them to you at \$150.00 each—on terms of \$25.00 down and \$10.00 monthly payment plan. No interest charged on deferred or monthly payments. These tracts are worth twice to three times the amount asked of you for them. They are 40x110 feet, all fronting on the streams. A normal valuation at least is \$10.00 per foot for them. Were this property within the same distance from San Francisco or Los Angeles, Calif., or any other large city, you could not purchase for \$100 a foot. Is it not worth the price I ask of you? The response so far is encouraging from my first offering. I would suggest that you interest your friends that you would like to have as your adjoining neighbor to get together and go up with me or come to Spring Creek and pick out your tracts together. This can be done while you are there. I would have the surveyor go with us and stake out the tracts on the spot.

I have no plat of this property as I do not intend to cut into a townsite. Its description will be described by metes and bounds, etc. It is better to not have it as a townsite. After this sale is closed, if it has been a success, I will then have a plat made of the property showing the lots and the buyers thereof.

This sale's proceeds will be every cent used in improving my property adjoining you. It will be your benefit in every sense.

I promise you if this sale is a success, this money is not all that will be expended upon Spring Creek. After my return from the south I will then devote my

whole time and means in making Spring Creek one of the most desirable and beautiful places that money and the handiwork of man can do.

Call on Mr. T. B. Watters, 620 Main St., Klamath Falls, Phone 279-W and place your name on this list of buyers and close up your deal. Or see me when in the Falls, write or call me over phone, either at Spring Creek or Chiloquin, Ore.

The quicker this sale is closed the better it will be for you. These tracts cannot last long, and to be sure that you are one of the few fortunates in on this deal I advise early action. You have all the summer before you to enjoy upon your own plot if purchased now. You will have its complete use for yourself from date of purchase.

Come on Klamath Falls people, make this your OWN right now. Get your tract, pay \$25.00 down and \$10.00 per month—you have something forever for the sum of \$150.00 that you will spend in one season on a vacation and then have nothing to show for it afterwards.

This sale will close July 10th. After this date no sales will be made of this property, unless for double the price now asked.

Everyone seems interested in this property, so do not delay in placing your order and getting in first show. There may be no more shows if you hesitate too long.

I cannot get to see everyone personally and put this before you, I have tried to reach everyone by placing it in our local paper and I would ask you to do your part by calling up, writing or coming to the office, 620 Main St., where you will be given every particular desired upon the subject.

R. C. Spink, Owner

The little town of Werda, in the kingdom of Dahomey, is celebrated for its temple of serpents, a long building in which the priests keep upward of 1000 serpents of all sizes.

To prevent thieves from getting at the money vaults by the tunneling method, the foundation of the strong room of the Bank of England extends for sixty-six feet below the level of the street.

Minor league ball players continue to jump to the industrial baseball leagues. The players say they receive more money from the shop leagues than they do in organized baseball.

WOMAN MAYOR RULES JACKSON

CHEYENNE, Wyo., June 5.—A woman mayor, Mrs. Grace Miller, now rules in Jackson, the population center of the Jackson's Hole country which long was famous in fact and fiction as the resort of outlaws, cattle rustlers, horse thieves and other bad men of the west that once was. For what is said to be the first time in the history, there is not a man in the city hall of an American municipality; for a city administration composed entirely of women has been sworn into office as a result of the election in May. There is not a man in Jackson's city hall.

Jackson is a diminutive city—with a population of not quite 300. Perhaps no other section of the United States is so far isolated from the railroads and from all-year traffic. The nearest railway station is 75 miles away, and from November until May the highway to that station is virtually impassable. Surrounded by the high mountains in the range south of Yellowstone National Park, the residents of Jackson make little or no attempt to travel during the winter months.

It was in Jackson's Hole that the bad men made their last stand against the advancing wave of civilization 30 or 40 years ago. There they socked after stealing cattle or horses or other robberies or hold-ups and banded themselves together for mutual protection.

Today Jackson, itself, has surrendered to the feminist movement and made a clean sweep of every male official. The only explanation thus far given for the overturn comes from the editor of The Cour-

ier, the city's sole newspaper, who says in his paper: "It is thought the novelty of being the first city on record to be governed entirely by women helped them to secure such a complete victory." The editor who was, himself, a candidate, accepts the results without repining but says the women surprised even themselves by the result.

There was no unusual campaigning, no special issues at stake, nor was there an unusually heavy vote. Mrs. Miller defeated Fred Lovejoy

for mayor by a vote of 56 to 28. Four women were elected members of the city council over four men candidates by about the same relative vote.

SAYS GERMANY WILL NOT PAY INDEMNITY

BERLIN, May 19. (By Mail.)—Whatever may be the size of the indemnity to be demanded from Germany by the Entente, the newspaper Germania says Germany cannot pay it.

Taxation, it adds, has already reached its utmost bearable limits and further burdens would be tantamount to confiscation.

The paper asserted there was danger that German delegates to the conference at Spa would be forced to sign undertakings which they knew could not be carried out.

Twenty championship yacht races, including the Lipton cup contest, are scheduled to be sailed at Marblehead, Mass., this summer.
