### HAS THE PEAK BEEN REACHED?

SOME say conditions will change; that this period of inflation, extravagance and high prices is passing.

Whether that be the case or not, CAREFULNESS should be the watchword upon the part of individual and institution too. Reckless spending and speculative investment should not be indulged in.

### JERSEY SOLON

Hon. Frederick R. Lehibach

The chairman of the House committee on reform in the civil service is Representative Lehibach, Republican of New Jersey. He has reported the pension and retirement bill for clerks and employes in the classified service of the government and expects to get this bill through the House at an early date. A similar bill has passed the Senate.

Representative Lehibach represents the Newark district in Congress, is a graduate of Yale University and the New York Law School and served three terms in the New Jersey Legislature before coming to Congress.

## IMMIGRATION IS INCREASING

NEW YORK, June 5.—Though the tide of immigration has begun to flow again into the United States from Europe so that incoming ships have their lower decks crowded with homeseekers from other lands, there is little prospect that relief is in sight for the American housewife who has been promising herself a cook or maid-of-all service to be recruited from the newcomers. At least that is the opinion of Superintendent P. A. Baker of the United States Immigration Station at Ellis Island.

"Immigration has been increasing by leaps and bounds," Mr. Baker said, "and it is a hopeful sign that the aliens arriving in this port during the last few weeks have exceeded the number going back to their native lands by many thousands. Last week six times as many come in as qualified to leave the country."

"People who think the servant girl problem is going to be solved soon will be disappointed if they are depending on the women immigrants from Ireland and the Scandinavian countries. Plenty of these are arriving on every boat, but they turn up their noses at the thought of menial labor. They have their minds set on getting work in the better factories, principally those manufacturing luxuries such as candy and women's finery. They want to get into places where employes are well treated and into localities where housing facilities are best so that they can live on the scale justified by the high wages paid them. If employers want to attract these classes of women immigrants they had better look to the reputation of their factories for pleasant working conditions."

Mr. Baker scouted the idea that prohibition was one reason why immigration was not gaining more rapidly. He said the foreigners were coming in at about one-third the rate of the year immediately preceding the European war. The principal reason why more were not coming was that the men are urgently needed in their own countries, some of which, notably Poland, are supporting huge armies which use up a large part of their man power, with the result that those who are free to do civilian work command wages comparable to those paid in this country.

The present wave of immigration originates in about the same countries as before the war, with the exception of Germany and Austria-Hungary. Italy furnishes by far the greatest number. These are largely unskilled laborers who find their way into the big cities all over the country where they go into the big industries and mines.

Only in the case of one country is the outgoing population greater than that coming in. This is Poland whose nationals besiege the Polish Consulate daily in great numbers seeking passports. About 8,000 of these passports were issued last month and nearly as many in each of the months preceding since the first of the year. They are going back, it is generally believed, because of homesickness and anxiety over the welfare of relatives in the war zone.

## CLOTHIERS HAVE SOLUTION FOR LABOR TROUBLES

ROCHESTER, N. Y., June 5.—Collective bargaining is the method adopted by the clothing industry in Rochester to solve its labor problems. Manufacturers declare that it has been so successful here that the National Industrial Federation of Clothing Manufacturers has been formed to deal with a national organization of the workers. In a time when strikes have been frequent in other industries there has been peace in this industry here, except in

one plant which is not a party to the and workers.

Shoe manufacturers of Rochester have adopted the plan and ended a strike by an agreement similar to that in the clothing trade.

Under these agreements, the strike and lockout are believed to have been eliminated and the open shop prevails. The union relinquished its claim for a closed shop. One of the labor managers, representing the employers, says that the union suffered no loss by doing so but that on the contrary the number of clothing workers organized has increased from 50 per cent of the total employed to 90 or 95 per cent.

As the collective bargaining plan agreements between the workers and employers are made by a Local Joint Board, composed of representatives of the clothing manufacturers and the workers. Working conditions are formulated by a Labor Ad-

justment Board composed of representatives of both sides. Its decisions become the laws of the industry. Appeals can be taken to a court presided over by an impartial judge whose decisions are accepted by both sides as final.

In the shops labor managers represent the employer and shop chairman of the unions. The manufacturers have their price committees and time-study men and the unions retain their local business agents.

The plan had its conception as the result of a threat of the workers to go on strike. In its adoption the manufacturers obtained the advice of Dr. Meyer Jacobstein, of the University of Rochester, who has been teaching methods of service management.

### MYSTERY SKELETONS

WINCHESTER, Va., June 5.—Officials of Loudon county are endeavoring to unravel the mystery surrounding two skeletons found in a cave difficult of access in a high bluff of rock near Bluemont, Va. Anatomists declare the skeletons to be those of a man and woman. Beside the bones were found a revolver and eight glass eyes. Hunters last winter found a skeleton not far away from the cave.
