

# N. Y. TO FRISCO AERIAL LINE

CAMBRIDGE, Mass., June 7.—A dirigible airship line to engage in regular passenger service between New York and San Francisco is a project in which war department officials would like to interest capital, with a view to having an air fleet immediately available in case of war, according to Professor Harvey N. Davis, of Harvard university.

Professor Davis is engaged in expert work on helium gas for the department, and is designing a plant to be built at Langley Field, Va., where the expensive gas after use in the military lighter-than-air craft may be washed free of impurities and used again. Estimates by Colonel William N. Hensley, of the war department, indicate that it will be possible for passengers to go by airship overland at a cost of about five cents a mile, at a speed of 65 to 70 miles an hour.

"The advent of the airship as a regular passenger carrier is much nearer than many persons in this country realize," said Mr. Davis. "I shall be surprised if the coming summer does not see a line of airships in operation by an English firm between the United States and the British Isles and I have no doubt whatever that a year from now will see regular weekly sailings.

"By the use of helium all danger of disaster from explosions such as have wrecked big balloons filled with hydrogen will be averted. There will be no fear of ignition of the gas by bullets, lightning or sparks from the engine. In fact, it is pointed out that the engines may be placed inside the outer shell of the dirigible, and that except for observation purposes no car need be carried outside the big bag."

While the present cost of producing helium is about 10 times that of hydrogen, Professor Davis believes that development of its manufacture will result in a cheaper product. Helium will be used to furnish the lifting power in the \$2,500,000 dirigible which the navy department expects to obtain from an English manufacturer soon.

## O. A. C. RETAINS WELL KNOWN LECTURER

OREGON AGRICULTURAL COLLEGE, Corvallis, June 5.—Dr. John A. Lomax of the University of Texas, a lecturer, entertainer, and scholar of national reputation, has been announced as a special lecturer for the 1926 O. A. C. summer session. The exact date of his lectures has not been set, but he will give two at the University of California, University of Idaho and Washington State College during their summer schools.

Dr. Lomax is the author of several books on "Cowboy Ballads." He spent years in gathering at first hand the remnants of popular songs surviving among the cowboys. He has gathered not only the words, but also the tunes, obtained in some cases by a phonograph placed in the back of some saloon frequented by cowboys when in town.

"I have heard him lecture and sing several times," said Dean M. Elwood Smith, director of summer school, "and while Dr. Lomax makes no boast of his voice, I have seen more than one audience convulsed with delight as he reproduced the rollicking or pathetic ballads of the plains."

## CHEROKEES KEEP FIRE FOR GREAT SPIRIT

MIAMI, Okla., June 7.—Another stomp dance has been held by the Cherokee Indians near the hamlet of Murphy, around the Indian campfire which has not been quenched for two score years. This is a watchfire of the Cherokee and is kept burning as a memorial to the "Great Spirit."

Not even Chief Charlie Tee Hee knows how many years ago the fire was started. B. G. Abernathy, a white man, says the fire was burning when he took up his residence in Murphy 23 years ago.

## HAWAIIAN CATTLE DYING

HONOLULU, T. H., May 21. (By Mail).—Dr. V. A. Norgaard, territorial veterinarian, has applied to the board of agriculture and forestry for 10,000 doses of serum with which to inoculate 7,000 head of cattle at Kauai, island of Hawaii, where a virulent form of hemorrhagic septicemia is killing off a number of animals.

Dr. Norgaard explained that the bacteria always are present in the air passages of the animals and develop when certain conditions prevail, such as poor feed and drought.

## PULP PAPER PLANTS STARTED, ALASKA

JUNEAU, Alaska, May 28. (By Mail).—First actual government steps toward opening Alaska's vast timber reserves to paper and pulp manufacturers were taken when the United States Forest Bureau recently advertised in Alaska papers offering for sale all merchantable timber on two tracts near here.

The sale is being made at the request of the recently formed Alaska Pulp and Paper Co., which proposes to buy the timber and establish a pulp mill as soon as possible. Work on the mill may be under way this summer. The tracts are on the Glass Peninsula and at Snettisham and are near the Speel River, from which power will be taken.

Spruce, hemlock, cedar and cypress trees are on the land. Government officials estimate there are 10,000 acres in the tracts containing approximately 100,000,000 feet, board measure.

The lowest price accepted is \$1.00 per 1,000 feet for spruce cedar and cypress and 50 cents per 1,000 feet for hemlock. Bids must be in the hands of the district forester at Portland, Ore., June 1.

## PLANES WILL FLY OVER ALASKA

JUNEAU, Alaska, May 19. (By Mail).—United States army signal corps officers are locating landing sites for an army airplane flight across Alaska planned for July.

Lieutenant Colonel B. O. Lenoir, who has charge of the signal corps Alaska cable and wireless system, has written several points in the territory asking regarding landing fields and supply bases.

The route to be taken is not known here. Several months ago it was reported an army flight was planned from New York, across British Columbia and down the Yukon Valley in Alaska to Nome. Later the southeastern coast, cross the Alaskan Mountains and proceed down the interior valley to Nome.

Many points in Alaska have not been visited by airplanes and consternation probably will be caused in the Indian camps along the Yukon when the machines sail by.

## ARGENTINE CAN'T KEEP FOLKS ON THE FARMS

BUENOS AIRES, May 1. (By Mail).—Argentina, like the United States, has difficulty keeping people on the farms and out of the cities. To combat the tendency toward city life, the minister of the interior, Ramon Gomez, has asked all the governors of the provinces and territories to urge people to colonize the public lands.

Under a new law colonists are enabled to borrow from the National Mortgage bank up to 80 per cent of the value on land they have purchased and under the homestead law the government is permitted to give to colonists small lots of land in some districts.

## AMERICA LENDS IN CHINESE TRADE

SAN FRANCISCO, June 7.—American business interests in China are prosperous and this country does more business in China now than all the other countries combined, according to George E. Anderson, American consul-general at Hongkong, a recent arrival here. He said: "Legislation permitting American concerns to incorporate through the consulates is needed and the firms should be free from the restrictions now entailed in order to give them an equal chance with foreigners."

## THEATRE BUSINESS BOOMS UNDER DRY LAW

CLEVELAND, O., June 7.—The theatrical business has increased 50 per cent since the country went "dry," according to John Cort of New York, one of the country's leading producers, on a recent visit to Cleveland. He declared the dry era stayed off a disastrous period for the theatrical world.

## MORE COFFEE IMPORTED BY "DRY" UNITED STATES

SAN FRANCISCO, June 7.—Prohibition is reflected in coffee imports, the consumption of coffee increasing in proportion to the decreased use of intoxicants, according to the statistics of the customs import service here.

During March 21,052,362 pounds of coffee, valued at \$4,030,998 entered this port, the biggest coffee business for any month in the history of the customs, officials said.

# BRITON SEES CLEAR SAILING

LEEDS, Eng., May 19. (By Mail).—Sir Arthur Shirley Benn, who was head of the British mission to the International Trade conference at Atlantic City last fall, has just told the members of the Luncheon club that he believed the United States and Great Britain would continue to "pull together." If so, he thought they and their allies would be able to reconstitute Europe and get back to former conditions of trade.

A great many people had said there was no chance of Great Britain and the United States pulling together, because they were too much alike—too impetuous and aggressive. He did not believe it. He had known America since 1877 and had never known a better feeling to exist between England and America than exists today among the people who counted.

There were in America, he said, pro-Germans, Sinn Feiners, and others—"wild men who were trying to uproot the whole American constitution." There were people who were working, with pro-Germans and Sinn Feiners, to do all they could against England. But they would not succeed, he said. The class of people in America who were descended from Anglo-Saxon stock were not going to give up the government of the country to any "mixed cosmopolitan body of people like the Bolsheviks and their class who were making the trouble in America today."

The bulk of the people of the United States, he declared, had the most absolute faith in the honesty, courage and determination of John Bull. Great Britain, he said, owed America a big debt, but the allies owed this country a larger one.

# WILL ADVERTISE STATE SCENERY

PORTLAND, June 7.—Advertising was prescribed as the means of providing Oregon with more people to man its farms, expand its industries, and to bring tourists here to see the State's scenic wonders, by Julius L. Meier, in a talk before the Portland campaign executive committee of the Oregon State Chamber of Commerce.

Mr. Meier told of what might be. Mr. Meier told of what might be of the State organization, enlarged and strengthened to meet its opportunities as a state-wide development agency.

"Oregon's advantages and resources can be told to the world by advertising," said Mr. Meier, "after declaring that the State Chamber had a vast amount of work ahead of it to accomplish those things for Oregon which only a state-wide agency can do."

"We have had many campaigns for money in the past, but this one is different," he said, after it had been pointed out what Portland and Oregon had done for America and Europe, but that "this is a movement for Oregon."

"By honest advertising the State Chamber feels that it can double the agricultural acreage of Oregon in three years," said Mr. Meier. "If it can do this it will add \$206,400,000 annually to the crop revenue of this state if we use last year's figures as a basis of computation."

The executive committee went over plans for the Portland end of the State Chamber's campaign on Wednesday, Thursday and Friday of next week. Portland's quota will be \$180,000 to cover three years' activities, or at the rate of \$60,000 per year. This is two-fifths of the total, the balance of the budget being raised in the state outside of this city.

## MAINLAND TEACHERS TO TAKE HAWAIIAN SCHOOLS

HONOLULU, T. H., May 19. (By Mail).—The territory of Hawaii has enough mainland teachers engaged to fill the bulk of the vacancies in its school staff next term, but, owing to the shortage of steamer accommodations, it is doubtful if they can be landed in the islands, according to Vaughan MacCaughy, superintendent of public instruction.

One hundred and fifty mainland teachers have accepted appointments. A plan is being considered to appeal to the government for a special army transport.

Allan Swede of Pinetown has a younger brother at Exeter who gives promise of becoming as great an athlete as the Tiger miler.

## NOTICE

TO WHOM IT MAY CONCERN: WHEREAS, the trout and other fish frequenting the waters of Spencer Creek from Buck Lake to the confluence of said Spencer Creek with the Klamath River, and all tributaries thereof, situated in Klamath County, State of Oregon, are being threatened with extinction from excessive angling and other causes, and

WHEREAS, the State Board of Fish and Game Commissioners is desirous of protecting the trout and other fish frequenting said Spencer Creek from Buck Lake to the confluence of said Spencer Creek with Klamath River, and all tributaries thereof, situated in Klamath County, State of Oregon;

THEREFORE, NOTICE IS HEREBY GIVEN, by the State Board of Fish and Game Commissioners that all of Spencer Creek from Buck Lake to the confluence of said Spencer Creek with the Klamath River, and all tributaries thereof, situated in Klamath County, State of Oregon, are all and each of them hereby closed to fishing of any kind and in any manner, for trout and other fish, from and after the 1st day of July, 1926, until said streams are again opened to fishing.

And it is and shall be unlawful to take or fish for trout or other fish in any of the above named closed waters during the period of time above specified.

Any person or persons violating the provisions of this order will be prosecuted as by statute provided. Dated at Portland, Oregon, this 10th day of May, 1926.

STATE BOARD OF FISH AND GAME COMMISSIONERS. By E. V. CARTER, Chairman of the Board. By C. F. STONE, Commissioner. By I. N. FLEISCHNER, Commissioner. By F. M. WARREN, Commissioner. By MARION JACK, Commissioner. By CHRIS SCHMIDT, Commissioner. By CHAS. HALL, Commissioner. By E. C. SIMMONS, Commissioner. By JOHN GILL, Commissioner.

## SUMMONS No. 1161 May

In the Circuit Court of the State of Oregon for Klamath County. Klamath State Bank, a Corporation, Plaintiff, vs. W. E. Smith, Defendant.

TO W. E. SMITH, DEFENDANT: In the name of the State of Oregon:

You are hereby required to appear and answer the complaint filed against you in the above entitled action on or before Monday, July 19, 1926, and if you fail to answer, for want thereof, the plaintiff will take judgment against you for the sum of \$150 with interest thereon at 5 per cent per annum from November 1, 1919, together with attorney's fees in the sum of \$50, and plaintiff's costs, disbursements and expenses herein, and for the sale of that certain stock of goods, wares, merchandise and all fixtures, paraphernalia, and utensils attached in Number 208 and 210 Main St., Klamath Falls, Oregon, in the above entitled action, and that the proceeds from said sale be applied to the satisfaction of plaintiff's judgment.

July 19, 1920, is the last day of the time prescribed in the order for publication of this summons, the first publication being June 7, 1920, publication being by order of Honorable D. V. Kuykendall, Judge of the above entitled court, dated June 4, 1920, which order requires that this summons be published once each week for six successive weeks.

WM. GANONG, Attorney for Plaintiff, whose business and postoffice address is Loomis Bldg., Klamath Falls, Oregon.

# TAKES SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Back-ache or have Bladder trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, ease you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush out the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.
