SEEK TO HEAD OFF PECULIAR COLLEGE JESTER

WELLESLEY, Mass., June 15.—Wellesley college authorities are trying to head off the activities of an ingenious news peddler who, making his headquarters in Boston, has sent to newspapers all voters the country complimentary but, the college officials say, untrue stories concerning young women in the student body and members of the faculty. His method is to query a newspaper as to whether it wishes a story of which a student or faculty member living in the city or town where the paper is published, is the central figure. The identical query is sent to anywhere from 50 to 100 papers, it is alleged, with a different name in each case for the heroine of the story. These names are taken from the college catalogue.

Regarding one of these stories the college publicity department says: "On April 23 there went out from Boston to newspapers all over the United States and Canada a set of telegrams like the following, except for name and address:

"Wellesley honors Anna Abbott, 60 Main street, to represent college sweeping government economic investigation."

"The story sent to those papers which wired acceptance was that the local student, or, in some towns whose supply of students at Wellesley was limited, a member of the faculty, had been elected by the student body and confirmed by the faculty as one of the 50 members of a Wellesley economic investigation committee, which was, it appeared, to conduct a systematic economic survey of the United States, in an endeavor to secure a basis for a plan to reduce the cost of living."

"The irritation of the victims, of whom there are at least 100 and of their families, especially of those whose parental pride had accepted the tale as not unlikely, has naturally been considerable. It is made greater for many of the victims because this is at least the second occasion that they have thus received honors bestowed only by this news agency."

An earlier instance was in January last when the agency sent out a story of an "unprecedented ceremony," the time of which was left indefinite, when General Pershing's helmet and staff flag and also "the imperial battle pennon of the German emperor" were bestowed upon the college by the Agora society. The story said a "touching, eloquent and impressive address" was made on behalf of the college by a girl whose name was different in each case.

As a matter of fact, the publicity department says: "About the only facts were the names and addresses gained from the college directory, though it was true, as published in an Associated Press dispatch last October, that General Pershing's helmet and flag are in the possession of an organization at Wellesley."

The department says that it has been learned that similar stories have been sent out by the agency concerning Smith college students and adds: "A regular set of rules seems to have been established by the agency. In the first place, the story must not be true, and must at the same time not be actionable; should, in fact, be supposedly flattering. It should have some timely note. In using the college directory the agency takes only one name to a town and even to a city."

The college has sent denials of the stories to as many as possible of the papers which printed them. It has also sent an explanation of the circumstances to each of the "victims," with the suggestion that they turn it over to their home town papers for their information.

Drinking a Glass of Hot Water is a Splendid Habit

Cleanse and sweeten the system each morning and wash away poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, gas, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before eating more food.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all of the sour fermentations, gases, waste and acidity and gives one a fine appetite for breakfast. A quarter pound of limestone phosphate costs very little at the drug store, but is enough to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism an enthusiast on internal sanitation.

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts if Back hurts or Bladder bothers.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constant on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood and poison the entire system.

When your kidneys ache and feel stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoon in a glass of water before breakfast every morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.
