If the Wood Dealer Sold Service

We do not sell current; we sell service. That sounds odd doesn't it?

Well, suppose the wood dealer sold service instead of wood, he would tend to your furnace and your range, take away the ashes and clean the flues. You would buy so much heat.

Now you buy so much light, although you pay according to the current you consume. But the service is performed for you by this company at the substations and power plants.

That is what we want to give you—efficient service. It is the aim of this company to have none but satisfied customers. No matter what it is, if you have a grievance, or are dissatisfied about your bill or do not understand our rates, please come in and see us or write us about it.

If you have any suggestions to make, we will gladly avail ourselves of them as our aim is constantly to improve our service to you as fast as the development of science and human ability permit.

O. A. C. LEADS IN MILITARY EFFICIENCY

WASHINGTON, June 14.—The annual inspection of the leading colleges and schools of the country which conduct the reserve officers' training units show a grade of military instruction "decidedly more thorough and of higher quality than ever before in the history of our country," says an announcement today by the war department.

Among 20 colleges listed in the distinguished class "for the general efficiency" of their military instruction is included the Oregon Agricultural college.

As a result of inquiries, it is stated that motion-pictures of domestic interest are most popular, with Western "thrillers" and comedies tying for second place.

A Classified Ad will sell it.

POT POURRI

By LONE STAR

He who is false to present duty breaks a thread in the loom, and will find the flaw when he may have forgotten its cause.

The above is by that once-celebrated preacher, Henry Ward Beecher. When he spoke those words in Chicago, little did he realize how true they would be in his own life. When he spoke those words, his heart was in his business of preaching the gospel. When he spoke those words, the future seemed bright and rosy to him. But—sometime—somewhere, Henry Ward Beecher broke a thread in the loom. Sometime—somewhere Henry Ward Beecher was false to present duty. And he found the flaw—when, doubtless, he had forgotten the cause.

Far be it from us to talk against one whose life was as useful as was the life of Henry Ward Beecher—I merely call attention to how the truth of one of the famous preacher's famous statements was brought home to him.

Lone Star's wife said to him the other day: "I wish you would buy me a silk dust coat."

"I would," said I, "if I could raise the dust."

We hear that New York telephone girls are marrying off so fast that the service is seriously impaired. Seems that they got someone's number all right.

Someone once asked a Missourian why Missouri stood at the head in raising mules.

"Because its the only safe place to stand," replied he.

"The world seems to have beaten a path to this man's door."

"Yes; maybe he makes mouse-traps."

"And maybe he makes moonshine, too."

We heard this one on Main street the day before yesterday.

Mr. Murray and Mr. Soule were talking in the Herald office the other morning as the Lone Star strolled in. This is what he heard:

Murray: "That young fellow Scribblor sent in a paper this morning entitled 'Why Do I Live.'"

Soule: "What did you do with it?"

Murray: "Returned it with an enclosed slip saying, 'Because you mailed this instead of bringing it personally.'"

(P. S. Don't expect to ever see this one in print.)

"What is this Spiritualism all about?"

"Remains to be seen."

Mr. Murray asked Lone Star the other day, as he was handing in an article, "Are you sure that this article is original?"

"Yes," we replied, "all except a few words you might have run across in the dictionary before."

Listen to this one folks. It was composed at the recent circus which visited our town. It goes to show that Lone Star does have a glimmering of humor once in a while.

Minnie was a circus girl Her muscles were immense I asked her how she got that way She said "My life's in tents."

In order to take advantage of the overall vote no doubt the two leading political parties will rename Republican parties.

Doc Wisecarver was recently dining with some folks who were proud of the recent elevation of a member of their family to congress.

"This" said the doctor's hostess, "makes the second of my family in

congress—have you any relations there doctor?"

"No," replied Doc, "but I have two maiden aunts in the Kingdom of Heaven."

By the way, what do you think of this bunch for office in Washington? It might help some of the thirsty ones in the Falls.

President: Albert T. Beveridge. Vice-president: Maggie T. Light. Sec. of State: Congressman Fuller.

Sec. of the Treasury: Senator Brandegee.

Sec. of War: Lou's Sherry.

Sec. of the Navy: Prof. H. Bears.

Attorney General: Judge Dunn.

Postmaster General: Harris Weststock.

Sec. of the Interior: George E. Brewer.

Sec. of Agriculture: Henry B. Drinker.

Sec. of Commerce: Frank O. Hunt.

This bunch ain't got the "water" all right but Lone Star thinks that the following bunch would suit the "dew" better.

Pres.: Wm. Jameson Dixon.

Vice-Pres.: Henry T. Malcott.

Sec. of the Treasury: Henry Flood.

Sec. of War: Major-General Snow.

Sec. of the Navy: E. B. Seaman.

Attorney General: C. E. Brooks.

Postmaster General: Henry Waterson.

Sec. of the Interior: Chas. Dryer.

We are none of us any better than we ought to be, and it is an even break if a lot of us are worse than we ought to be.

(This includes Lone Star.)

The man who always has a big bank account may be said to be a well-balanced man.

O. D. Burke asked the Lone Star the other morning what the difference between a safety and an ordinary razor was.

We replied that it was purely a matter of sex: the former being a female instrument, while the latter is a regular he-man affair.

It has always been said that God was good to the Irish but that won't apply these days as you will find out when you go to buy spuds.

Heredity is only a screen behind which some people undertake to hide their proclivities for wrongdoing. They know that the dead and gone are too far away to tell them what liars they are.

Our life is but a summer day Some only breakfast, and away; Others to dinner stay and are full-fed.

The oldest man but saps and goes to bed.

WORTH MORE THAN FORTUNE

George Power Gains Eighteen Pounds and His Rheumatism Disappears After taking Tanlac—Wouldn't Take Anything For Good It Did Him

"What Tanlac has done for me is worth more than a fortune," said George Power, of 29 1/2 Rottenberg St., a life-long resident of Halifax, Nova Scotia, and well-known employe of the Nova Scotia Tram and Power Co. "I have gained eighteen pounds and feel better than for twenty-eight long years," he continued.

"I don't believe anybody in the world suffered from rheumatism as bad as I did. It was a sharp, shooting pain that would go through my knees, down my legs and into my ankles just like somebody was sticking a knife through me. I couldn't work at all in damp weather and suffered so intensely I would turn white as a sheet. When the attacks came on I wouldn't be able to sleep a wink, my joints would swell and my knees would get stiff as boards and I wouldn't be able to walk for two or three days at a time—just lay up in bed flat on my back.

"Tanalac was so highly recommended by people right here in Halifax that I tried it and now I wouldn't take anything in the world for the good it has done me. My rheumatism is entirely gone, my appetite has picked up, too, and I sleep fine every night, and feel like a different man altogether. Tanlac is the greatest thing I have ever seen and I want to let everybody know what this wonderful medicine will do."

Tanalac is sold in Klamath Falls by the Star Drug Co., in Lorella by the James Merc. Co., and in Merrill by the Southern Oregon Drug Co. Adv.

FEATURES YOU GET EXCLUSIVELY IN MACK TRUCKS

MOTOR ACCESSIBILITY

Accessibility is a prime requisite for the successful maintenance of a motor truck at minimum expense.

You will find MACK trucks incorporate more advanced principles of development toward the accomplishment of accessibility than can be claimed for other makes of trucks. This is the result of MACK engineering and twenty-four years of building and perfecting motor trucks.

MACK trucks are built in two types. The models under 3 tons capacity are known as AB; those over as AC. The motors are identical except as to size.

Examine these features of accessibility: Ports in the side of the crankcase, removed by a thumbscrew, permit inspection of the shafts; Pistons and Connecting rods may be drawn through the bottom without disturbing either shaft; the Camshaft may be withdrawn through the front; the Magneto and Pump are located in front of the engine.

The AB power plant, including engine, clutch, transmission and instrument board may be removed as a unit. The AC engine may be slid out the front by removing the bumper.

Large his account who lingers out wearing my heart away for you." the day—"That's nothing" we replied. "I'm Who goes the soonest has the wearing my shoes away for you" least to pay.

This was written by Lone Star on meditating on the high cost of living these days.

When we die this is what we are going to have engraved on our tombstone. We have made arrangements with Earl Whitlock already.

Reader pass on and do not waste your time

On false biography and bitter rhyme;

For what I am, this crumbling clay insures.

For what I was, is no affair of yours.

Before we were married, Lone Star and his wife were a very loving couple. This is perfectly all right and as it should be. One night our present wife said to us "Honey—I'm

Might have been a good stunt at that to have Hooverized on shoe leather some.

We met a friend of ours of the Hebrew persuasion on Pine street last week, and seeing his handsome face wreathed in smiles, asked him why such happiness.

"Vell you see" he replied, "I am going to be married tomorrow."

"But your wife only died last week" we shot at him.

"I know dot" he said, "but I don't hold spite long."

This will be all for today.

Gov. McKelvie of Nebraska says that "wastefulness and extravagance are twin evils of this hour and may be placed in the same category with idleness."
