GEORGETOWN, June 18.—The sawmill on Bear Creek, three miles from Georgetown, and 125,000 feet of lumber owned by the Georgetown Lumber and Supply company, were destroyed by fire. RED BLUFF, June 18.—An unusual shipment landed a 7,955 pound gasoline engine, which was rushed here to carry on rice irrigation for the Orchard Park Land company. The big engine was badly needed by the company and no chances were taken on freight delays. The cost of transporting it here via express amounted to \$285.

STAR DRUG CO.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is aching; if what you eat sours and forms acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before eating more food.

To feel like young folks feel; like you felt before your blood and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate, which is inexpensive and almost tasteless.
 Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast.
 New York City has an average of one fire every twenty-one minutes, day and night.
